

DIX REUNION PLAN TO BE FEATURE OF COMMENCEMENT

The "Dix" plan of class reunions will be put into practice for the first time at commencement week at the University of Oregon, when the classes designated according to the plan will gather on Saturday, June 12. This plan provides that classes that were in school together shall meet once every five years, with special reunions of two classes every year.

The classes of 1883, 1884, 1885, 1886, and 1902, 1903, 1904, 1905, 1906, 1907, 1908, 1909, 1910, 1911, 1912, 1913, 1914, will hold regular reunions while the classes of 1915, 1916, 1917, 1918, 1919, 1920, and 1921 will have special reunions. Extensive plans are being made for the classes for several get-together events, and F. H. Young, '14 president, will call the alumni association meeting together at 11 o'clock for election of five members to the alumni council, and for transaction of other business.

A total of 13 names have been submitted by the nominating committee for the five vacancies. Pictures of all will be run in the June issue of the "Old Oregon" alumni magazine. Those nominated are J. C. Yeasle, '01, Portland; Mrs. Lawrence T. Harris, '06, Eugene; Clarence K. Keene, '06, Silverton; Homer Angel, '06, Portland; Walter Whittlesey, '06, Princeton, N. J.; Mrs. Ella Doble Hathaway, '06, Portland; Dr. Harold Pen, '12, Portland; Andrew Collier, '14, Klamath Falls; Barbara Booth, '14, Eugene; Mrs. Grace Edgington Jordan, '16, Portland; Jennie Higgins, '17, Portland; A. C. Hampton, '18, LaGrande; and John MacGregor, '21, Eugene.

PARK REGULATIONS URGED FOR COUNTY

That the "automobile tramp" is fast becoming a problem in Oregon and that steps should be taken to curb this invasion, is the opinion reached at the meeting of county judges held at Portland and a committee has been named to draft resolutions for all county courts of the state, according to a report of session received by the Lane county court.

Judge C. P. Barnard of Lane county was invited to attend the meeting but was unable to be present at this time as he is out of the city for two weeks. The abolition of all free auto camps was advocated at the meeting and this plan will be urged on the county courts, it is announced. Although the problem of the "automobile tramp" is not so prevalent in Lane county as in some other communities of the state there is expected to be some regulation taken here in accord with the recommendations of the county officials at the Portland meeting, according to the Lane county court.

It was the sense of the meeting that the free auto camp, established primarily as a matter of civic pride for the touring motorist, has degenerated into a social canker that infects the health, morals and society of a community.

The committee will also recommend a "confidential exchange" for the relaying of information regarding families traveling by motor from one city to another, and will make special recommendations for the regulation of all automobile parks and camps.

—to regain Strength

EVERY man, woman and child wants to have strength and correct weight. It means the joy of living. To be minus strength and underweight often proves low fighting power in the body. It often means you are minus nerve-power, minus red cells in your blood, minus health, minus vitality. It is serious to be minus, but the moment you increase the number of your red-blood-cells, you begin to become plus. That's why S.S.S. since 1875, has meant to thousands of underweight men and women a plus in their strength. Your body fills to the point of power, your flesh becomes firmer, the age lines that come from thinness disappear. You look younger, firmer, happier, and you feel it, too, all over your body. More red-blood-cells! S.S.S. aids nature in building them for the million! There are no unproven theories about S.S.S., the scientific results of each of its purely vegetable medicinal ingredients are admitted by authorities. Begin taking S.S.S. today. It will give you more energy, vitality and vigor and a more up and going appearance. S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.
