

Build Your Own Home

Bring Happiness To Your Loved Ones

Let them drink deeply of the treasured sentiments that are best nurtured in a home that is your own.

Home has been described as "The Abiding place of the affections," and when you have considered carefully you will quickly agree that a home of your own furnishes the proper environment, where true family happiness can be achieved.

If you want that firm, deep-rooted satisfaction that you are master of your work, make yourself feel that you have taken the first step to success. "Build your own home"—pay that rent to yourself and stop neglecting to properly provide for those who are dearest of all to you—the wife and kiddies.

Need we urge you again—Build Your Own Home.

Let Gas be the Finishing Touch That Will Assure Your Home Comfort.

Of course the new home will be piped for gas! It's almost as essential for comfort and convenience as doors and windows and a roof. If you're building this summer, notify us now. Or if you intend to have "the old nest" made modern and up-to-date with Gas Service, let us know. Call at our office and let us demonstrate new Vulcan Smooth Top Gas Range.

Free estimates on any installation—new house or old. Just phone 23, or come into the office.

SAY WHAT YOU WILL:-

The only real satisfaction is in buying values—real values—in expert, lasting, economical service.

Mountain States Power Company Gas Service gives real satisfaction

Satisfaction is remembered and appreciated long after price is forgotten.

In marketing GAS for your use we place at your SERVICE an organization of skilled workmen standing by to make sure that the touch of the match to the gas supply at your domestic range is responded by fire for cooking your meals.

Mountain States Power Co.

The Eugene Concrete Pipe Co.

whose slogan is

"Concrete Pipe For Permanence"

makes a complete line of concrete products, from the drain tile for the footings to keep the basement dry to the blocks for the basement wall and flue blocks.

In addition to this they furnish complete septic tanks—ready to install with all connections, fittings and cover.

The hollow wall tile has been given tests in eastern laboratories gene Hotel and Miner building. They make a dry, non-cold conducting wall giving an ideal stucco base, eliminating checking or cracking of the stucco.

These products have been made in Eugene for 14 years and have been thoroly tested and proven satisfactory. The products being made of the local basalt rock make ideal composition for the use they are given. The products are shipped all over western and southern Oregon.

This company has installed complete sewer systems in Cottage Grove, Newport, Reedsport and North Bend.

The hollow wall tile has been given tests in eastern laboratories and at the O. A. C. Engineering Department and the tile has been found to be the lightest and strongest on the market—capable of resisting 1 1/2 tons to the square inch, making a 5x8-in. tile capable of supporting a Pullman car.

This tile plant is located on Blair street.

FINGER marks, blemishes and disfigurements come quickly on newly decorated walls, but they amount to nothing because they can easily be washed away if your walls are finished with

Velumina Washable Wall Paint

You'll thank us for recommending it, when you find that easy washing takes the place of re-decorating. Besides, it is the only paint that gives walls the soft tones that belong to good decoration—shows no laps or brush marks.

Plumbing plays the same part in a building that the nervous system does to the human body.

It is intimately connected with your daily life and the preservation of your health. There isn't anything more comforting than properly installed plumbing.
