PRINTING PLANT AT PORTLAND HAS FIRE

PORTLAND, Ore., June 23.—Short circuited wires early today started a fire at Lewis-Hudson printing and engraving plant at Fifteenth and Gibson streets, causing an estimated loss of \$165,000.

The fire was discovered at 4:55 a. m. by the janitor when he came to work. He ran to an adjacent engine company and turned in the alarm. When fire companies arrived the whole interior of the building was a mass of flames.

Automobile license plates for several western states were stored in the basement and were believed to have been ruined. The loss is covered by insurance, officials indicated.

It was feared that several thousand Montana plates, together with smaller quantities intended for Nevada, Utah, Arizona, Wyoming and Idaho, were ruined.

The fire, Battalion Chief James Ingalls said after a preliminary survey, started in the badge manufacturing department on the second floor. Badges for the Rebecca Old Fellows and kindred organizations were being manufactured there, and there was a large amount of material stored in that department.

A large stock of paper was ruined by water. Presses were ruined, type cases burned beyond repair, and printed pamphlets, catalogues and other pieces of printed matter on the second floor destroyed.

President Leaves For Summer Visit

WASHINGTON, June 23.—(AP)—President Coolidge left Washington today to spend the summer in Swampscott, Mass.

Practically every important pending question has been disposed of by Mr. Coolidge today, although a few appointments remain to be made and he still has under consideration some reports from the tariff commission recommending changes in duties. An office has been set up for the president in Lynn, Mass., and with part of the executive force there, including Secretary Sanders, he will carry on such business there as arises during the summer.

Mr. Coolidge has not announced plans for his program while in Massachusetts. For a time, however, it is expected he will remain close to the spacious home at White Court, where he and Mrs. Coolidge will stay, resting from the cares of office. It is likely that they will remain on the Massachusetts coast until fall, breaking their stay with a visit to Plymouth, Vermont, the home of the president's father.

22 Prohibition Districts to Be Planned With Head For Each Area

WASHINGTON, June 23.—(AP)—Reorganization of the prohibition enforcement system, involving obliteration of state lines, decentralization of state lines, decentralization of authority and the creation of new enforcement districts conforming with the federal judicial districts, was announced today by the treasury.

The sweeping changes are to become operative August 1. They are designed to build up a distinct federal enforcement system, without sacrificing co-operation between federal and local enforcement agencies.

A prohibition administrator will be named for each of 22 new prohibition districts. These appointments, the treasury announcement said, will be chosen for personal fitness and executive and business ability. Each will have two assistants and in addition a chemist and counsel.

CHANGE OF VENUE REFUSED BY JUDGE

Several more steps in the prosecution of Mark Brown by the state of Oregon for alleged operation of a moonshine still were taken in circuit court this morning for a change of venue on the grounds that public opinion had become aroused and inflamed on account of the newspaper accounts of the arrest of Brown.

Brown has previously pleaded guilty to the last indictment. His attorneys also asked that the six old indictments against Brown be quashed and that the defendant be discharged because the state had not diligently prosecuted the case. The motion, too, was overruled by Judge Shipworth.

The prisoner's bail was reduced from \$5000 to \$3500, or \$500 for each of the seven indictments, by order of the court.

Late this afternoon Mark Brown, indicted for operating a moonshine still, posted bail for the seven indictments under which he was held, and was released from jail. Bail amounted to \$3500, being \$500 for each offense.

May be Candidate

LEADER SOUGHT TO ASSUME COMMAND FOR PROGRESSIVES

MADISON, Wis., June 23.—(AP)—The progressives of the nation are looking to those in Wisconsin "to make no mistake at this critical hour" Senator George W. Norris, republican, Nebraska, declared today in a formal statement. He came here to attend the funeral yesterday of Senator Robert M. LaFollette.

"The death of our great leader, must not be taken as any disintegration in our ranks," he said. "Petty jealousies and personal ambitions must be forgotten."

"The banner of human freedom that has fallen from his hands must be raised aloft and the fight carried on until happiness shall come to every home and joy be enthroned at every fireside."

Senator Norris conferred last night with Mrs. LaFollette and with several leaders of the LaFollette followers in the state. A special election for the selection of a successor to Senator LaFollette probably will be ordered in the near future by Governor Blaine.

A proposal has been put forward that Mrs. LaFollette become a candidate, but she has made no public announcement as to her attitude. Meanwhile, the names of several prominent

leaders are being mentioned as possible successors.

Another mystery that has served to stir the people of Kelso, who already were aroused by the shooting to death last Friday night of Thomas Davery, newspaper publisher, has been made public by Luke S. May, criminologist employed by Conditia county to investigate the Davery murder.

The new development involves William Woodrich, a salesman for a motor company, who alleges he was stopped by an unknown man at the point of a gun at Third and Columbia streets, Kelso, 11:30 o'clock Sunday night, and ordered to sign a paper, the contents of which he did not know.
