

GOLFERS REST FOR FINAL TITLE TESTS

TROON, Scotland, June 24.—(AP)—Reduced to a field of 83 by the qualification play of the last two days, the aspirants for the British open golf championship, rested today in preparation for the grided 72 holes of stroke competition tomorrow and Friday, which will decide the 1925 title holder.

Among the select are the three American big guns, Macdonald Smith, Jim Barnes and Joe Kirkwood, here to preserve for the United States, if possible, the open title which Walter Hagen carried home in 1924 but which he did not come to England this year to defend. Britishers regarded all three of the Americans as dangerous contenders, and Smith will start the favorite over the entire field.

The qualifying medal was won by Moses O'Neil, a lucky Irishman, who followed his excellent 71 of Monday with a 75 yesterday for a total of 146.

The American scores were: Smith 77-77—154; Barnes 77-78—155; Kirkwood 79-74—153; Taylor and Cyril Tolley, former amateur champions, were among the prominent British players to qualify.

BASE BALL SIMPLIFIED
by BILLY EVANS

Why is it that batted balls, which apparently strike in fair territory in front of the batter and then strike him on the rebound as he is about to start to first, are invariably called foul balls?

The batter's box is almost entirely within foul territory.

When a batsman assumes the proper stance he is always in foul territory.

Ninety-nine times out of a hundred, a batted ball that strikes in front of the plate in foul territory and then rebounds sharply, striking the batsman as he is about to leave the batter's box, comes into contact with his person in foul territory.

When a batted ball strikes the batsman in foul territory it immediately becomes dead, it simply a foul ball.

Confusion is caused by the fact that the batsman is hit with the ball as he starts to take his first step in the direction of first base.

It is practically a physical impossibility for the batsman to carry the bat into fair territory. Often the ball strikes the batter before he has even a chance to make a break for first base.

Major league umpires are of the opinion that when the line of discrimination is very slight, it is always safest and easiest to rule such a batted ball that comes into contact with the batter a foul ball.

America has Polo Championship now

LONDON, June 24.—(AP)—The United States army polo team won its second match against the British army team at Hurlingham club today, six goals to four, thereby retaining the international military championship won at Meadowbrook last year. When still-fishing with frogs or minnows give the fish plenty of time to swallow the bait.

After the bait is struck the fish will turn it and devour it head first.

If you try to set the hook on the strike you will most likely lose your fish.
