

ROY MOE LOSES AT GOLF TOURNAMENT

TACOMA, Wash., June 25.—Forest Watson, Spokane, Idaho, amateur champion, defeated Dr. O. F. Williams, defending champion, in the third round of match play for the 1925 Pacific northwest amateur golf championship, 2 and 1, in a thrilling contest yesterday.

W. J. Noonan eliminated Roy Moe, of the Eugene Country club, 4 to 2, in the 100 yard mashie shot and any number of long putts to do so.

Lee Stoll, of the Seattle golf club, defeated his club mate "Bon" Stein, who is present holder of the British Columbia championship 5 to 4 and will meet Watson in the semi-finals.

H. Chandler Egan, Medford, Ore., several times northwest amateur champion, eliminated one Tacoma entry, Leroy Pratt, Jr., 6 and 5, although Pratt, playing in fine form, had held him even for the first 18 holes. Egan will meet W. J. Noonan, Tacoma, in the semi-finals.

Playing the morning round William was two up on Watson with a 38 to Spokane led's 40, but the next nine holes developed the most thrilling golf of the tournament. Every hole but the 15th was played in under par figures, Watson's medal for the nine strokes only 31 strokes while William had taken but 32, and the Portlander was still two up, a difference of two strokes at the 17th hole accounting for the difference between the medal score and the match play result.

Sculling Queen

Miss Hilda Spinks, who was recently crowned "queen of lady scullers" for winning the "Cecil Ladies" rowing club regatta at Clifton, England. Though the event was a handicap affair, Miss Spinks, rowing from scratch, beat all entrants, who came from various sections of the British Isles.

RAY CASEY BEATEN IN TENNIS CONTEST

WIMBLEDON, Eng., June 25.—Ray Casey of San Francisco was eliminated from the all-England tennis championships in straight sets 8-6, 8-4, 6-1, today by Rene Lacoste, the young French star who was a finalist for singles honors last year.

Miss Suzanne Lenglen and Miss Elizabeth Ryan defeated Mrs. Colgate and Miss C. Tyrrell 6-1, 6-2.

John Hennessey of Indianapolis, who today beat F. G. Lowe, 9-7, 8-6, 6-4, is the only American left to battle for singles honors in the Wimbledon classic.

The Casey-Lacoste match was a contest of speed against superb skill and in the end skill won out.

Billy Evans Says

"WHEN I came into the major leagues," remarked Pitcher Joe Bush to me recently, "if a pitcher acquired a four-run margin at any stage of the game it was supposed to be in."

"In other words, a pitcher who couldn't hold a four-run margin after his teammates had supplied him with that advantage, was simply terrible."

"But take it from me a four-run margin doesn't mean a thing to a major league pitcher any more."

"An error, a temporary lapse in control, resulting in a base on balls, a hit and the bases are filled. Then along comes a batter who hits one into the bleachers and your four runs are no more."

"In a great many cases the home run is nothing more than a lazy fly which the outfielder could have easily caught had he the room to make the play."

Outdoor Life

Carry a canvas pack. The size depends on your outfit and number of packs.

Load the pack so it will ride as high as possible.

A flat pack is best. If too high or wide it will sway you and soon tire you out. Rig with ring and snap at bottom of each shoulder strap.

Be ready to slip the pack when necessary.

Pack food in small cotton sacks, not in paper.

Baseball Briefs

(By The Associated Press)

Hollis Thurston, pitcher of the Chicago White Sox, has just received word from the Pacific coast that he is the father of a bouncing baby daughter.

Joe Davis, former Columbus American association star, enjoyed a great day at bat and in the field yesterday. He copped four hits in five times at the plate, one of the blows being a double. He scored once and handled six chances in the field, three of which were of the hard variety.

Johnny Mostil, fleet-footed outfielder of the White Sox caught Pitcher Carl Yowell napping and as a result swiped his 224 base of the season.

Mostil also did some great stick work with three hits, one of which was a triple. He also scored three times.

Cochran, catcher of the Athletics, had a perfect day with the willow yesterday. He collected three hits in three times at bat, while Poole, first baseman of the A's and former Pacific Coast leaguer, knocked out a double and a single in two times at bat.

SHADE WILL BATTLE

NEW YORK, June 26.—Dave Shade, Pacific coast welterweight, today signed contracts to meet Jimmy Slattery of Buffalo, in a six-round semi-final match on the Italian hospital fund card at the Polo Grounds.

NEW JERSEY'S queen of the bootleggers has just got married. The well-known rum ring was used in the ceremony, we suppose.

A new law in Italy gives women the right to fight. The women in this country need no such law.

Because the White House cat developed a fondness for squirrels Mr. Coolidge gave him away. And all the while the poor cat may have just been trying to land a seat in the senate.

Mr. McGraw says the bit and run is too dangerous. It is if you try it on a bird like Dempsey.

There's a new show in New York called "The Poor Nut." Strange as it may seem Nick Altrock is not the featured performer.

Flea races are popular at the beach resorts this summer and presumably they will start from scratch.

Another way to keep a stiff upper lip, advises Mr. O'Goofy, is to starch it.

Even though Bugs Raymond and Babe Waddell are no longer among the living, the pro-monkey faction will not be exactly up against it for substantiating evidence.

Any ball player who has worked for Ty Cobb will readily dispute the assertion that Earle Sande is the greatest rider in the world.

It seems to be working out all right after all. Nobody has yet asked Dempsey to talk before one of the European clubs on his war experiences.

With his tall acting as a support it is impossible to knock a boxing kangaroo out. Some enterprising manager ought to take this tip and make the most of it.

Twilight Leaguers Schedule Contest

A baseball game with the Oakridge players will be staged by a picked team of the Twilight league players who will go to Oakridge Sunday for the contest at 2:30 p. m.

Fennel and Springate will handle the hauling job, and Dixon will be the receiving end of the battery. The remaining lineup has not yet been chosen.

The psychologist had a great thirst for experience, declared Dean Sheldon, and it was this that helped to develop his mind. The two books he had most highly recommended by Dean Sheldon were "Adolescence" and "Sexual Science," which stand as authorities.

Methods are Told

Pupils in schools can be successfully classified according to scientific tests, declared E. D. Price, superintendent of schools at Enid, Oklahoma, at the opening session this afternoon. It is possible to convince communities of the value of these tests, and to make them warmly support them, declared Mr. Price. "Pupils will actually be made happier by this method, and their promotion according to ability, will stimulate them to greater activity," he said.

In order to successfully use the tests, the communities must be educated up to appreciate their value, and this is one of the greatest tasks, pointed out Mr. Price. The tests themselves are simple, the Stanford intelligence tests, so arranged that they can be given by any teacher.

Progress is Cited

"The scientific classification of pupils is desirable in every way," declared the speaker. "The greatest efficiency for the pupil and for the teacher, is thus realized, and more progress in education can be made."

In discussing socialization problems in high schools, Dean Marion Brown, of the University High School, of Oakland, California, brought out several questions relating to social phases of student life. A discussion of these problems, with Mabel A. Bennett, dean of girls at LaGrande High School, Catherine Lamberson, dean of girls at Washington High School, Portland, and Rex Putnam, principal Union High School of Redmond, was entered into following the talk.

This evening the Principals' club of the state will meet at dinner and elect officers. William F. Kennedy, of Pittsburg, will talk on "Curriculum Reorganization" tonight, and in the morning, "School Finance in Oregon" a vital topic, will be the subject of Dr. Homer P. Rainey, of the University, who has just completed a study of the school finance in this state.

the rising water. His home, which was in the bed of the suddenly formed reservoir, now is under many feet of water.

Despite the fear that has been

expressed that another avalanche will descend upon the valley, tourists and residents are rushing to the scene of the occurrence, and it already has gained fame as a sight of interest.

Ranchers, forest rangers and others who live near the fallen mountain, however, regarded the possibilities more seriously, declaring that other parts of the mountain have been undermined by seepage from melted snow and that it may give away again because of the looseness of the earth in that place. Earth tremors have been felt twice in the last week.

When the huge reservoir formed by the avalanche has been filled by the river, it will have formed a lake six to seven miles long, about a mile wide and nearly 200 feet deep, it is estimated.

Residents of Kelly, Wyo., four miles below the newly formed lake, have vacated the town in favor of higher ground, fearing a temporary stoppage of the flow of the river would be followed by a flood.

President Enjoys White Court Rest

SWAMPSCOTT, June 26.—(AP)—President Coolidge is finding the rest here he expected when he left Washington for a summer vacation.

Secluded in a pretentious house on the coast, he has learned after two days' stay that residents of the North Shore realize that he came to Massachusetts for relaxation and few requests are being made for the privilege of calling on him at White Court.

Mayor Quinn of Cambridge was accorded the honor today of being the first to have a conference with the president, his call being arranged to discuss plans for the reception of Mr. Coolidge when he goes to Cambridge July 3 for an address.

Mr. Coolidge is still undecided whether he will go to Poland Springs, Maine, next week to participate in the conference of governors. If he does not, it is believed the governors will come to White Court to be received by him.

The two have just finished a series of highly successful evangelistic meetings at Memphis, Tenn., and following the summer holiday Dr. Kellems will go to Glasgow, Scotland, where he will study for his PhD degree. After that they will visit South Africa for a year.

Workmen's Hours Changed for Heat

Workmen on the Stevens and Perkins building at Fourth and Main street in Springfield went to work at 4 o'clock this morning to avoid the high afternoon temperature. The new schedule will be continued during the heat wave, according to Bert Snook, construction foreman.

Under the new schedule the men work until 8:30 a. m. when they take a half hour lunch. Construction is then continued from 9 to 11 o'clock, the men getting the afternoon off. The change in hours was made because of a sunstroke suffered by one of the workmen yesterday.

Blasts Barred on Forest Road Plan

Instructions to road and trail crews in the Cascade National forest not to blast on days when the humidity is low were issued this morning from the office of Nelson F. Macduff, supervisor of the Cascade National forest. The new order is in line with the office's fire-prevention precautions, as a fuse for the blasting sometimes starts a blaze, Mr. Macduff said. "Normally we trust the common sense of the trail men," Mr. Macduff stated, "but the extreme danger of the season makes the order necessary."
