A modern druggist must stock many laxatives, but for your own good the druggist would rather have you ask for the inexpensive little box of Cascarets than anything else.

## TO RELIEVE STOMACH DILATION

Dilation of the stomach usually arises because excess stomach acid causes food to ferment and form sour gases which are responsible for those unpleasant sensations of swelling and fullness, often very painful.

To avoid and relieve stomach dilation take a tablet of "Pape's Diapain" after meals or when pain is felt. "Pape's Diapain" neutralizes acidity and prevents the formation of wind, heartburn and flatulence, and assures healthy, painless digestion.

Druggists everywhere sell "Pape's Diapain" at 60 cents a package—not much to pay for complete freedom from digestive pain and stomach troubles, is it? Better get your package of "Pape's Diapain" today.

## Household Hints

**LEMON TANG**  
Rub lemon juice over a mutton roast or chicken before cooking and it whitens, makes it tender and gives an elusive taste.

**SINKING FRUIT**  
You must put fruit-cake into a hot oven or your fruit will sink to the bottom. Dredging fruit also helps to keep it from sinking.

**CLEAN BRUSHES**  
Never use soap suds on hair brushes. Wash them by dipping up

and down in hot water with a little ammonia, soda or borax. Rinse in cold water with a little alum added. Dry with bristles down.

**MOTH PREVENTION**  
Never put a single winter garment away without cleaning if you would prevent moths. They dislike cleanliness. Air everything in the sunshine before packing away.

**BROWNE STEW**  
When browning stew meat before adding water, fry it quickly over a hot fire. Then add hot water to keep the juices in the meat.

## Mary Jordan Will Answer Your Difficult Questions

(Editor's Note: Mrs. Mary Jordan invites letters of inquiry or requests for advice, which will be answered daily on the women's page.)

By MARY JORDAN

"I HAVEN'T any party dress," is the plaint of one Lane county girl on the very eve of the big fashion opening in Eugene.

Dear Mrs. Jordan:

I am 18 and a freshman in the university, and I really cannot dress like the other girls do. I wish and wish for pretty clothes like the others wear, but it is just about all I can manage to stay in school, and the fees seem to be getting higher all the time. Do you think I should stay away from parties because my clothes are not pretty? There is a boy I know who often asks me to go, and sometimes I do. But I always have to wear the same old thing, and it hurts my feelings to have him think that I don't appreciate his invitations enough to look well dressed.

Living within your income and getting an education are far more important than a new party dress which you cannot afford. And if the young man enjoys your company and finds nothing amiss, I wouldn't worry too much about the other girls' ways of being "well dressed." Simplicity in clothes has its own charm, and if a girl is sweet and clean and neat she can go anywhere. Of course it is hard to miss the fun of having something new to dress up in, but if you get an education you are simply postponing that little pleasure for a short time while you are increasing your earning capacity.

# It's hard to excuse Dishpan Hands

"MY dinner table, set with all my best china for our dinner to Jim's new friends, had never looked prettier. But it made my poor hands look dreadfully coarse by comparison. They simply broadcasted 'Dishpan!'"

"And because I know it's just such little things that others judge us by, I became self-conscious ... ill at ease ... at my own dinner table."

"Of course it was foolish of me. With Lux always in the house I was still using old-fashioned harsh soap for the dishes. Until that night I had not realized just how pitifully rough and red it made my hands look."

"Now I use Lux for all my dishes. And for cleaning, too! My hands no longer are reddened and coarse. I'm really PROUD now of my dinner-table hands."

Many household soaps—flakes, chips and cakes—are made in the old-fashioned way. They contain harmful alkali that makes the skin rough.

There is no injurious alkali in Lux. Made by a remarkable process, Lux actually SOOTHES the skin, leaves it a little whiter and softer than before.\*

Instant, sparkling Lux suds, ready before you ever put your hands in, are so rich and CLEANSING that the dishes seem almost to wash themselves!

The big package of Lux washes six weeks' dishes! Lovely hands for so small a price!

\*Many beauty pariers use Lux suds in maintaining the nails, to soften and whiten the fingers.

Lux keeps lovely the hands that wash dishes
