Oil Leases Sold by Sheriff for $4970

Sheriff's sale of the oil leases on the second addition to City Outlook, site of the drilling of the Crown Oil company, was held Saturday forenoon. Sheriff Frank E. Taylor conducted the sale on a court order following a judgment obtained some time ago by Edward G. Forsten. The plaintiff bid in on the leases for $4970.

The judgment was obtained against the Guaranty Oil company in connection with a mortgage foreclosure some time ago against property of the Guaranty Oil company at Cottage Grove. Drilling of the Crown Oil company which has taken over the former Guaranty Oil company rig at City Outlook was not interrupted. The purchaser of the leases on the property has given a week in which arrangements for the taking over of the leases may be made by those now interested in the oil well development, according to Sheriff Taylor.

25 CHILDREN GIVEN DENTAL ATTENTION

Twenty-five children have received attention at the dental clinic and service conducted by the St. Vincent de Paul society, Catholic charity society, since Dr. F. Gordon Milne, dentist formerly of Monroe, arrived Tuesday in Eugene to take charge of the dental work in the county for needy children.

Because of the large amount of work in Eugene, the clinic at Junction City is set ahead to Tuesday, April 24, where it will be held for three days, beginning that afternoon at the school house under arrangements made in cooperation with the Junction City unit of the Lane County Health association. The following week Dr. Milne will go to Marcola and Wendling with his portable equipment.

Child's Teeth Important

The following advice is given by the St. Vincent de Paul society in the care of children's teeth:

Children's teeth, in all stages of decay, can and should be fixed by modern dentistry. Don't be told otherwise. To consider them temporary, and to treat them so, is equal to considering life itself as temporary. All the diseases to which the second teeth are subject also affect the first set; and all the serious ways by which the second teeth may affect health, the first teeth also may affect the health of the child.

The thorough chewing of food by the child of from two to 12 years of age is important, because it is the great growth period and habit-forming age. Good permanent teeth cannot be had without exercising all muscles and tissues of the jaw any more than an arm will develop without exercise. It hurts the child to chew hard food with decayed teeth and he will naturally avoid it.

With frequent examinations for decayed teeth and enlarged adnoids and tonsils fewer children would have the diseases common to childhood which leave after-effects and often cause death.

Ills Start in Childhood

We are only now learning that so many of our diseases are really childhood diseases. Tuberculosis is a childhood disease. It always makes its start in childhood. Anything which contributes to a lowered vitality in childhood increases the incidence of tuberculosis. Heart disease lays its foundation in childhood. It is estimated that 90 per cent of our ills are results of conditions during the school age of the child.

Do not forget that clean straight teeth and food well chewed are accompaniments of good health, sound body, and competent mind. The teeth should be examined by a competent dentist at least twice a year.

MEETINGS TO TALK ON ALFALFA READY

Four meetings to discuss the growing of alfalfa and especially the preparation of the seed bed will be held in Lane county on Thursday and Friday of next week, according to O. S. Fletcher, county agent. The schedule for the meetings is as follows:

Thursday, April 26—
9:30 a. m.—V. R. Sly farm, two miles northeast of Creswell.
1:30 p. m.—H. C. Bushnell alfalfa field, just south of and across the road from "The Maples" auto camp about two miles south of Junction City.

Friday, April 27—
9:30 a. m.—P. N. Laird farm near Jasper.
1:30 p. m.—Elmer Harlow farm, two miles northeast of Eugene.

The men at whose farms the meetings will be held are all growing alfalfa successfully and will plant more alfalfa this year. At these meetings various phases of the growing of alfalfa will be discussed by the farmers where the meetings are held, by other farmers who are growing alfalfa successfully, and by the county agent. All persons interested in growing alfalfa and especially those who will sow the crop this year for the first time are invited to attend one or more of these meetings.
