Took Lydia E. Pinkham's Vegetable Compound

Ogden, Kansas.—"For three or four months before taking the Vegetable Compound I was run-down, didn't feel like doing any work and could not sleep at night. The least thing would upset me. We live on a farm and I have my housework to do but often I could not do it. My mother told me of the good Lydia E. Pinkham's Vegetable Compound had done her so I am taking it. I am feeling fine, can sleep good and can do my work without getting over-tired. I recommend the Vegetable Compound and will answer letters."—MRS. LEWIS CUMMINGS, Box 331, Ogden, Kansas.

Safest Way to Stop Pain

It is not necessary to take heart-depressing drugs or dope to kind to relieve nerve torture caused by neuritis, neuralgia, sciatic or rheumatism. Just apply Tyamol over the part that hurts and see how quickly you will be free from discomfort.

Tyamol is a soothing, healing absorbent that goes in through the pores and drives out inflammation which has settled in the nerves. The minute you rub it on you feel it beginning to relieve. Pains and aches soon stop, congestion is removed, and soreness and inflammation gradually disappear.

Although Tyamol is put up especially for nerve pain and inflammation, sufferers have found it equally good for taking the misery out of stiff, swollen or aching joints. Also fine for lame back and muscular soreness. Pleasant, harmless and easy to use. Don't fail to try it if you want genuine, lasting relief. You get a liberal supply for \$1 at any drug store. Always in stock at Oregon Drug Co.

Seven Ways In One To End Foot Misery

German science has improved the oldest formula in the world for giving instant relief from the pains of sore, tired, aching, burning feet, as well as corns, callouses and bunions.

Away back in biblical times the people of the Holy Land soothed their feet with unguents of frankincense and myrrh to get relief from the pains of burning feet caused by walking on the hot desert sands, just as you're burnt from walking on hot city pavements.

This world-old formula has now been improved by modern science to combine all the elements necessary to give you relief from any kind of foot misery. To frankincense and myrrh, which are still the best known ingredients for taking the fever out of burning feet, there have been added five important ingredients:

One to take the ache out of your feet and end foot misery instantly. One to soften hard corns, callouses and bunions and give relief from pain. One to clean away dead sloughing skin between the toes and peel off the hard, calloused skin after softening without affecting healthy skin. One to end excessive perspiration and banish foot odors. A combination of three anti-septic ingredients so essential that the dry, tender, crackling skin is left soft and pliant, ending foot misery in a few minutes.

You will be amazed at the quick results you get from this scientific improvement of an ancient remedy. No more pain, bother or fuss. Just rub on. Cures—It takes only two minutes. Sold by all drug and department stores.

COUNTY COURT HAS PRAISE FOR COAST

Members of the Lane county court who visited Florence over the week-end to participate in the big chamber of commerce meeting and celebration on the coast, report fine hospitality on the part of the coast people.

The court observed that much road improvement has taken place in the Deadwood and Indian Creek districts and that the crusher has been moved up to Fiddle Creek, where rock is being placed on the roads. They went on down to the south county line, where Judge C. P. Barnard says road work has been in progress, but which will not be finished until next spring. The roads there, they say, will be practically impassable during the winter.

County commissioners Hurd and Anderson were other members of the county court with Judge Barnard.
