It's "fifty-fifty" for women now, if they would be chlo as to their hair. Some of the new bobs, many of which are the long-shorts, show great change. Above, left to right: The Hollywood beauty bob shows the ears and curls the back hair upwards in ringlets. The beauty curl bob is too theatrical for utility but looks nice on young girls. Below, left to right: The temple curl "fifty-fifty" is reminiscent of old spit-curl days. Picked as the bob destined to be most popular is the Princess long bob which fastens the ends of the hair with a barrette at the nape of the neck. The new wind-blown bob has an irregular line over the ears which is duplicated by the backline.

Woman's Day

By ALLENE SUMNER
TEX RICKARD, when dying, is said to have asked his wife about "Little Tex." The only Rickard child is a little daughter, Maxine. The sentimentalist and the short story writer could make much of it, of an intense paternal longing for a son, breaking forth from the subconscious in a moment of delirium.

There's no denying that a son to both fathers and mothers is of much more concern than a daughter. They'll deny it, generally, of course, but a light in their eyes tells the story. Why is it? Just a hangover from an age-old day when men had a place in the world denied women? A matter of the family name being handed on? Or what?

Connie Denies

Just why Connie Talmadge should continue to vehemently deny her engagement to Townsend Natcher, described as a Chicago millionaire, if she is engaged to him, is beyond understanding, unless denial obtains more newspaper space than confirmation.

Menus For Today

By SISTER MARY
BREAKFAST—Stewed figs, cereal, cream, creamed bacon and eggs on toast, extra toast, milk, coffee.

LUNCHEON—Rice croquettes with cheese sauce, celery, apple and raisin salad, baking powder biscuits, milk, tea.

DINNER—Raw oysters with brown gravy sticks, pan-broiled lamb chops with mint jelly, twice baked potatoes, creamed carrots and peas, jellied vegetable salad, chocolate and nut pudding, milk, coffee.

An attractive and sensible way to serve mint jelly is on a slice of orange. The combination of flavors is

delicious and the orange prevents the jelly from running all over one's plate.

Put milk and water in top of double boiler, add salt and cook until rice is tender and liquid is absorbed. Stir in butter and add egg well beaten. Add onion juice and pepper and spread on a platter to cool. When cool, shape in small croquettes and roll in crumbs. Dip in egg slightly beaten and roll again in crumbs. Fry in deep hot fat until a golden brown. Serve with—

Making & Baking a 9-FT. Pie would certainly keep you guessing

No GUESSWORK, however, when you bake a small pie, because you can tell when it's done. And there's no guesswork when Hills Bros. roast their coffee. A few pounds at a time by a continuous process roasts every berry evenly and develops the utmost in flavor. No other coffee tastes like Hills Bros. for none is roasted the same way.

125,000,000 COLDS IN U. S. THIS WINTER

Many cases lead to Flu

Figuring on the basis that practically every person has one cold a winter, health authorities believe 125,000,000 will be

No sickness for 7 years in this home . . .

Mrs. Sava is only one of millions of America's mothers who guard family health with this simple Lifebuoy way.

LIFEBUOY
REMOVES GERMS SOAP
Removes Germs - Protects Health

—"and LIFEBUOY health soap with its antiseptic lather deserves much of the credit," says this happy mother

"It is wonderful never to have to worry about sickness," says Mrs. Ann M. Sava, bright-eyed mother of two ruddy-cheeked youngsters.

"We haven't had the slightest illness in our home for at least seven years and I really think that Lifebuoy deserves a good part of the credit.

"My husband first introduced Lifebuoy to me, and I fell in love with it right away; it agreed so wonderfully with my skin.

"But the big reason we all use Lifebuoy is because it gets the germs off. It's so easy for children to catch sickness from other youngsters that we'd never feel our children were safe if it weren't for Lifebuoy and its wonderful antiseptic lather."—Mrs. Ann M. Sava, 36 Hawley Avenue, Port Chester, N. Y.

Get the health soap habit!

Mrs. Sava's letter is typical of the faith millions of mothers have in Lifebuoy.

In your family, too, health protection is necessary. For hands are constantly touching things that others also have to handle—such as books, door-knobs, telephones. The Life Extension Institute lists 27 germ diseases that hands may spread. Why take chances when Lifebuoy's gentle antiseptic lather removes germs?

Adopt Lifebuoy for your whole family today—and give them added health protection—at no extra cost. You'll quickly learn to love Lifebuoy's pleasant extra-clean scent which tells you it purifies and which vanishes as you rinse.
