GARDEN CLUB HEARS O. S. C. PROFESSOR

The Eugene Garden club's February meeting was held Wednesday evening in the McMorran and Washburne auditorium with 90 of the members out.

Prof. A. L. Peck of Oregon State college, Corvallis, talked on color and design in the small garden. He explained the need of laying out a garden with the objective of providing for the view from the windows of the house and other suggestions to make the best and most ornamental use of a small garden space.

Donald Shepard and Roy Woodruff reported that the plan of having men who understand garden work and who desire employment register their names with the employment committee of the club is working out well. Residents of the College Crest district who plan garden work this year have listed their names and addresses with the committee and the probable amount and kind of work that will be required.

The Eugene garden club and the campus Y. W. C. A. are to jointly sponsor a plant and flower sale on March 20, Mrs. Ralph Martin is chairman for the event. The next meeting of the club comes on March 20.

Miners Operating Their Own Colliery

LIVERSEDGE, Yorkshire, Feb. 21.—(AP)—Five local mine workers are running their own colliery.

When the collieries of the Low Moor Ironworks closed down, the men pooled their life savings and bought the Hartshill No. 1 colliery. They have now been working a month and one of them said: "We started with nineteen men, and now we are raising a hundred tons a day. We take our turn at the coal face and then look after the shipping, the sale, and the books."

"At present we run one shift a day of fifty men. We hope in time to get another shift working."

HOW TO FIGHT EXCESS FAT

There are hard ways, like starvation, but fewer and fewer employ them. There is a pleasant way, modern and scientific, which combats the cause. A vast number of people now use it. And the slender figures now seen everywhere are largely due to that.

That method is embodied in Marmola prescription tablets. People have used them for 20 years—millions of boxes of them. And everybody, in almost every circle, sees the change. New beauty, new health, new vitality.

Each box of Marmola contains the formula, also the scientific reasons for results. So users have no fear of harm. Learn the facts about Marmola, because of the good it has done. Ask your druggist—now—for a \$1 box with the book. Then decide.

NEWS OF CRESWELL Eastern Star Official Pays Local Lodge a Visit

CRESWELL, Feb. 21.—(Special)—Mrs. Minnie White of Portland, worthy grand associate conductress and deputy of the grand matron of the Order of the Eastern Star, paid an official visit to the local chapter Tuesday. He used to get up three or four times a night

"I had to get up three or four times a night," writes an Agmel user. "That is, before I began taking Agmel. But now I can go all night without getting up." The necessity to get up at night is a very frequent complaint, as many people benefited by Agmel testify in their letters. Another sufferer writes: "After I started to take Agmel I began to sleep better. Now I sleep all night. I am feeling wonderful as a consequence."

What is Agmel? A great natural health food. The sap or milk of the Mistletoe plant concentrated by removing excess water. Nothing added. Extraordinarily rich in important minerals and other vital elements necessary for the proper adjustment and functioning of the body. A vital tonic. Not a medicine. Non-alcoholic. Thousands praise Agmel.

If you are any of the following symptoms, investigate Agmel today: headache, backache, glycosuria, and frequent necessity to get up at night, etc. Ask your druggist about Agmel. Or write direct to The Agmel Corporation, 250 Park Avenue, New York, N. Y.

Doctor Found Women and Children Sick More Often than Men

As a family doctor at Monticello, Illinois, the whole human body. Any small part of it, was Dr. Caldwell's practice. More than half his "calls" were on women, children and babies. They are the ones most often sick. But their illnesses are usually of a minor nature—colds, fevers, headaches, biliousness—and all of them required first a thorough evacuation. They were constipated.

In the course of Dr. Caldwell's 47 years' practice, he found a good deal of success in such cases with a prescription of his own containing simple laxative herbs with pepsin. In 1882 he decided to use this formula in the manufacture of Dr. Caldwell's Syrup Pepsin, and placed it on the market.

The preparation immediately had an great a public success as it previously had in Dr. Caldwell's private practice. Now, the third generation is using it. Mothers are giving it to their children who were given it by their mothers. It gives several of the working day someone somewhere is going into a drug store to buy it. There are thousands of homes in this country that are never without a bottle of Dr. Caldwell's Syrup Pepsin, and we have many hundreds of letters from grateful people telling us it helped when everything else failed.

While young children and elderly people are especially benefited by

Dr. Caldwell's Syrup Pepsin, its mild, gentle action is promptly effective on the most robust constitution and in the most obstinate cases. Containing neither opiate nor habit-forming drugs, it is safe for the baby. Children like it and take it willingly. Every drug store sells Dr. Caldwell's Syrup Pepsin.
