Menus Today

By SISTER MARY

BREAKFAST—Orange juice, cereal, cooked with raisins, cream, crisp broiled bacon, cornmeal pancakes, grape, toast for children, milk, coffee.
Luncheon—Scalloped oyster plant, celery and apple salad, baked custard, milk tea.
Dinner—Baked bluefish, scalloped sweet potatoes and pineapple, pepper and cottage cheese salad, steamed cherry pudding, milk, coffee.

When a salad is served to small children be sure that the material is very finely shredded and use a simple dressing of olive oil and lemon juice. Olive oil is an excellent food for children since it is an easily digested fat. In our endeavor to keep too rich foods from children there is danger of giving them a diet rather lacking in fat.
Scalloped Oyster Plant
Two lunches oyster plant (salads), 3 hard cooked eggs, 2 tablespoons butter, 1½ tablespoons flour, 1 cup milk, ½ cup vegetable stock, ½ cup bread crumbs, 2 tablespoons grated cheese, ½ teaspoon salt, ¼ teaspoon pepper.
Cut off tops from oyster plant. Scrape and drop immediately into cold water to which 2 tablespoons vinegar has been added. Cut in slices one-half inch thick keeping vegetable in acidulated water until all are ready to use. Steam 20 minutes. Melt butter and brown slices of oyster plant quickly first on one side and then on the other. Arrange in a baking dish in alternate layers with eggs cut in slices. Stir flour into butter remaining in pan after sauteing oyster plant. When perfectly blended slowly add liquid ingredients, stirring constantly. Bring to the boiling point and pour over vegetable in baking dish. Cover with crumbs and cheese and bake in a moderate oven until cheese melts.

Woman's Day

By ALLENE SUMMER

STORY has it that Mrs. Kaiser Wilhelm got mad on her husband's 70th birthday and went to bed, pretending she was sick, rather than be out-ranked at the festive board by Crown Princess Cecilie.

The argument dates back to Princess Hermine's wedding with the former Kaiser when the Crown Princess and many of her adherents refused to accept Hermine as "Her Majesty" since she had married the former Kaiser after his abdication, her rank was far beneath those who received their rank through marriage or birth during the imperial days.

EVERYWOMAN

However that may be, Hermine missed a swell feed of sole, pheasant, and strawberry ice cream. And however, it may all be, it's sort of comforting to lesser mortals who get mad and won't play and go to bed to escape indignities, to learn that even those called "Princess" or "Her Majesty" do the very same thing.

BIG ALARM

Quite alarmed about the way girls are rushing into matrimony without knowing a thing about dish towels and floor polishes, to say nothing of popover recipes and dish scraping, the General Federation of Women's Clubs proposes a system of "key homes" in most every community—homes run by competent housewives who will instruct any young girl in what she should know about homemaking and housekeeping.

SHE KNOWS IT

At risk of being called a perennial knocker I arise to remark that my own observation is that most any girl of today can draw rings around her mother when it comes to setting up an attractive, well-managed home, whether she's had a lot of specific instruction or not.
In the first place today's girl runs around a lot and develops a pretty good standard of what's what in a home, just because our standard of living today insists on that standard most every place. She may not make housewifery the one and only absorbing interest in her life as her maternal forebears did, but she gets there just the same.
And, after all, how will the "key home" give her any more than she can get at the Y. W. night course? We weekly suggest that the General Federation in its attempt to do good look elsewhere for an outlet.

SUGAR MAKES EATING A JOY

Why eat unflavored, unappetizing foods?
A change is coming over the well-informed eating ideas of this country. For a time, food faddists tried to make us believe that we had to eat all kinds of things we didn't like in order to be healthy. Good sense is beginning to assert itself and we now know that the foods that are good for us may also be the most enjoyable. In fact, if we don't like the healthful foods, we probably won't eat them.

Prominent medical and other scientific authorities are now reminding us that appetizing flavors may be developed and improved by sugar. One well-known scientist, for example, states that "fruit flavors are developed by sugar. Fruit acids are softened by sugar."

The only safe rule for a healthful diet is to eat as large a variety of foods as possible, including healthful cereals, fruits and vegetables made appetizing to the taste by the judicious use of sugar. Sugar is not only nutriment in its least costly form. It is Nature's perfect flavor. Sugar develops the appetizing quality of nearly all fruits. Desserts of fresh or cooked fruits are growing more and more popular. Modern candy containing fruits, nuts and pure sugar is delicious and satisfying at the end of a meal.

No one should overdo on under-exercise, but everyone, in order to be healthy, should eat plenty of healthful foods and enjoy them. The Sugar Institute.

305 famous Beauty Shops say, "Give your hands Beauty Care right in the dishpan"

Beauty Care right in the dishpan

RECENTLY, 305 of the finest beauty salons in the United States reported this interesting fact—"With all our experience,"—these experts said—"we cannot distinguish between hands that never wash dishes and hands that use Lux in the dishpan. . . . Evidently, Lux gives real beauty care."

These experts observe thousands of hands and they know! In their own words, Lux means "beauty care" right in your own dishpan! Isn't this a startling idea? Yet women instinctively know it is true. Washing their fine things in the gorgeously sparkling Lux suds, women themselves noticed how smooth and white their hands looked afterward. Now they are washing dishes with Lux to give their hands the same gentle beauty care—three times a day!

The secret is simple . . . Lux is so utterly pure, so delicately refined by the special process used in its making, that it protects the precious beauty oils—the youth oils—of the skin. Many soaps dry up these oils, leave the skin parched—red and drawn looking.

Best of all, this beauty care costs almost nothing. Lux for all your dishes costs less than 1¢ a day!

Such Inexpensive Beauty Care—Lux in the dishpan is the wisest, most inexpensive beauty care known! Gives gentle, soothing care to your hands—with no extra time, no trouble—and costs less than 1¢ a day.

Friendship Club Letters To Mary Jordan

The perplexing questions of heart and home discussed sympathetically and sensibly by a Lane county woman.

By MARY JORDAN
WHAT would be an attractive spring outfit for a girl of 18?

Dear Mrs. Jordan:
Can you suggest a spring outfit for a girl 18 years old? She is rather small for her age, and looks younger than she is. We can only spend a limited amount and wish to get as attractive an outfit as possible as she is to go east to visit most of the spring and early summer. She is quite dark coloring—has black hair and dark brown eyes. If you can tell us what is most smart we shall be very much pleased.
MOTHER AND JEAN.

our means we enjoy our spring wardrobes so much more.
If you can make or buy Jean an outfit like one of the new ensembles it would be about as useful as anything if she is planning a visit. This might take the form of a dark blue coat lined with pretty printed silk, some of the same bright print to be made into a simple dress. Or a skirt might be made to match the coat, and the blouse match the coat-lining. In that case a harmonizing sweater could sometimes be worn instead of the blouse, perhaps without the coat with the added touch of a three-cornered scarf.

The lines of the garments should be well-cut but very simple for a girl of her age. But even the "little girls" are looking well in ensembles this season.

It soothes the inflamed throat, helps to quiet the cough spasms and to clear the air passage from infectious mucus. Pertussin is a cough remedy that physicians endorse.
