STOCK EXCHANGE SHOWS INDICATIONS OF LETTING DOWN

NE WYORK, Aug. 21.—(AP)—The stock market, having experienced an almost perpendicular advance since the drastic break of Aug. 9, showed signs of tiring today under the steadily expanding stream of profit taking and short selling. Pools succeeded in whirling up about a dozen high priced industrials and specialties including U. S. Steel common, Union Carbide, Westinghouse Electric and Bethlehem Steel, to new high records, but other recent favorites lost ground, giving the market an irregular appearance.

The close was heavy. Total sales approximated 4,800,000 shares. The closing sales on the exchange today:

If your eyes have failed to respond to the treatments of others, it is NOT a sign that they are hopeless. I have successfully treated many of these so-called hopeless cases when others gave up.

ing. The fences around the track have all been painted. The seats have been fixed up.

In the main building, which still bears that name though it is no longer the largest building, there are many unusual attractions. Early in the day crowds began to congregate around the exhibit of the Farmers' Union Warehouse where Mrs. George Kappauf, Mrs. W. S. Averill, and Mrs. J. D. Gillespie were baking biscuits out of Farmer Union flour and giving them out.

The Producers' Public market, not waiting for the opening of its fine new building on Broadway the end of the week, has installed a big booth where the finest of its fresh vegetables and fruits are laid out for the public to inspect.

The Hebron Community club, the Santa Clara Community club, the Goshen Grange and the Creswell Grange are entered in a competition for the best group exhibits which will give conscientious judges a few sleepless nights, unless they can be sure

Near the main entrance of this

Near the mai nentrance of this building is The Guard's booth where a free telephone and rest room await the convenience of the visitors. The telephone number is 3069. It proved a boon Wednesday to many of the fair people who were in the last minute rush of decorating their exhibits.

The fair really got under way just after noon Wednesday when the big calliope on the merry-go-round began to toot and the sideshow barkers got into good voice. It is a fair complete.

HE WON'T BE POPULAR

SAN BERNARDINO, Cal.—Councilman Harry Nott says there'll not be any "necking" in city parks, and has announced that provisions will be made in the next city budget to provide a special officer to tramp the parks and see to it that young frails and their boy friends don't indulge in petting parties. It is reported that several have applied for the job.

The ton register, or unit of capacity of a ship, was originally the space occupied by 100 cubic feet of wheat.

ENDURANCE FLIGHT ENDS IN CRACK-UP

SAN FRANCISCO, Aug. 21.—(AP)—The endurance monoplane San Franciscan lay at the bottom of San Francisco bay today, and its pilot, Donald Templeman, former army aviator, who had sought to set a record for refueling endurance flying, was recovering from the effects of the plunge which ended his undertaking last night.

Apparently fatigued, Templeman misjudged his distance from the ground as he was circling Mills field in the 36th hour of his flight. The craft struck an electric transmission line and fell into the bay, a few feet from shore. Templeman swam out, unhurt. He was taken to a hospital for examination to make sure he had suffered no ill effects.

CHECKERS BY RADIO

GREEN BAY, Wis.—Chess has been played by radio, but it is doubtful if checkers has. But Curtis Peacock, operating W9FIN, here and Miss Pauline M. Joslin, operating W9EIW, Anamosa, Ia., recently planned a radio checker game. He picked up Anamosa the other day, talked with Miss Joslin and the checker game was the outcome.
