

Don't Neglect Your Eyes

Some People Travel Miles for Relief, While Others Close by Sit Idly and Suffer

Many people come to Eugene from Salem, Roseburg, Albany, Brownsville and other places in the valley to have the correct errors of vision by fitting their eyes with the correct glasses.

In Eugene today there are many who are suffering from eye troubles and need the attention of a specialist, still they neglect to have cared for one of the most important organs of the human body.

While many are spending hours in travel and going to additional expense to reach my office, there are others close by who continue to suffer and do not take the little time that is required, to come here, and get their eyes correctly fitted with glasses.

I am here to give you the same good service and benefits that others travel from a distance to get. I use only the best materials the world produces. My charges are no higher than you would pay elsewhere, and I guarantee absolute satisfaction in every respect.

For over a third of a century I have been correcting eye troubles by fitting eyes with the right glasses. My phone number is 1454. Make an appointment or call at my office.

Just to Make You Hungry

There's no excuse now for even the most inexperienced person cooking a piece of meat in the wrong way. The meat cutter in our new meat shop is a true expert in meat cuts and their usage. When ordering meat simply mention the use you are getting it for and the correct cut will be sent. Just try it once.

Fresh Vegetables the Best Spring Tonic

You should look in our front windows—the very sight would be an inspiration. Every vegetable known to spring and hungry people is there. Green peas, asparagus, green onions, radishes—everything—but read below:

Possibly You Don't Know Good Asparagus

Unless you have tasted some of this asparagus fresh from the Dorris gardens grown on rich bottom land, you really don't know asparagus. It's different from the usual, and so tasty as to attract a person unused to ordinary asparagus.

First Cucumbers to Brighten Up Salads

A new shipment of fresh cucumbers adds a dash of green to the vegetable array. Cucumbers are vegetables of many uses, and the freshness of this new lot will especially appeal.

Butter-Horns and Bear-Paws

You still have a great treat in store if you haven't tasted a "bear paw." What is it? Oh, it's not so ferocious as it sounds—fact it's just about the finest bit of pastry you could set your teeth in. Two layers of flaky French pastry with a raisin-and-nut paste between them.

Butter-Horns are large generous squares of the very lightest and richest French pastry covered over with a sugar frosting. The tastiest combination imaginable. Treat yourself to a half-dozen today.

Cooked Food Department Picnickers' Joy

Don't worry about the mess and trouble of preparation for your picnic lunch. Let us do your worrying for you. Call us up and tell us your picnic troubles and we will set our cooked food department to work ironing them out. Yes, we have everything you need in the quantity needed.
