LADY ASTOR LAUDS DRY LAW

SAYS BAN IN U. S. SPLENDID EX-AMPLE TO NATIONS

NEW YORK, May 23.—Declaring that prohibition in the United States and several Canadian provinces has been a "big contribution to the spiritual regeneration of the world," Lady Astor today issued a farewell statement, summing up her opinion on the dry question. She is scheduled to sail for home today.

Special workers had told her, she said, that the Salvation Army, societies and churches now had a greatly reduced task as a result of the dry law.

"When I balance the result, offset the uplifting of the poor and struggling and the salvation which prohibition has brought to many wives and children, against the alleged degradation of some of the rich, well, I have no doubt the net result for the country has been good," she continued.

Lady Astor declared that the only anti-American propaganda she has seen in England was engendered by liquor interests which have gone into politics over the liquor question.

CONLEY CASE NEARS CLOSE

FORMER WARDEN IS ACCUSED OF MALFEASANCE

HELENA, Mont., May 23.—Efforts of the state to conclude its case against former Warden Frank Conley of the Montana penitentiary, by the end of the week, resulted today in the closing of practically three causes of action in the trial before Judge A. J. Herkley.

The proceedings had to do with bricks, lumber and ice, almost all of the testimony relating to prison records and claims.

The greater part of the day was devoted by the state to tracing bricks manufactured at the state prison, alleged to approximate 12,000,000. Miss Gertrude Rathbun, assistant to the state accountant, testified to finding bricks having been sold at the penitentiary in the period from 1910 to 1921.

Under cross examination the witness admitted she had no records of the number of bricks used in building work at the prison or at other properties connected with the penitentiary.

"There is no substitute for Circulation"

Business is done with Credits

Credit is based on Confidence
Confidence is built on Facts

When a Merchant gets an order for a bill of goods he agrees to ship and render a bill, only if the buyer has a satisfactory commercial rating. Confidence in his ability and will to pay is inspired because facts have given the buyer a standing in the business world.

Why not decide your advertising in the same way?

THE AUDIT BUREAU OF CIRCULATIONS is a statistical organization organized to determine the facts about newspapers. It sends an auditor into the office of each member, and he investigates the records.

He checks the net paid circulation.

He finds out how subscribers were secured.

He looks into the distribution of the paper.

The report then sent out from the Bureau's office is used by advertisers to determine the paper's suitability for carrying a campaign.

You can tell the complete actual circulation.

Why people buy the paper.

What people read it.

The fact that a paper joins the A. B. C. means it has no secrets to withhold. All the cards are there for a showdown. A. B. C. reports are now demanded by most advertisers both as an evidence of good faith and as the most reliable statement of a paper's condition.

THE REGISTER is a member of the A. B. C.

Examine our A. B. C. report and know who will read your message. These are on file in our office, and we shall be glad to submit a copy if you desire.
