FIRE AT JUNCTION CITY ENTAILS LOSS OF \$10,000

Punkin Show and Postoffice Buildings Burned

BLAZE OCCURS ON SUNDAY

Eugene Fire Department Responds to Alarm and Saves Postoffice Building From Total Loss

(Register Lane County Special)
JUNCTION CITY, Ore., June 19.—About one o'clock Sunday afternoon the fire alarm sounded. The fire started in the garage adjoining the punkin show building and quickly spread to the main building and had gotten such a start that it was quite impossible to put it out. The city hall nearby was in great danger and was saved by the fire department and also a small house near by.

In the meantime the roofs of the Christian church and the postoffice had caught fire from the burning brands that were carried in the air. The fire on the church roof was extinguished by the use of garden hose and chemicals. Other buildings were found to be burning on the roofs but were soon put out.

Eugene Fire Department Responds
The Eugene fire department was phoned for. They promptly arrived and worked the means of saving the postoffice building. The upper story was entirely burned off, the contents of the office were all removed to the Wilhelm garage without loss. Arnold Tracer's jewelry store was in danger and his property was all moved out, as well as the tailor shop next door. The punkin show building was owned by Mrs. Emma Crawford of Albany and was insured for \$1,000. The Woodmen of the World lodge had the building leased and it was here that the public dances were held. The piano and music in the building belonged to the Knapp orchestra and was saved.

The postoffice building is owned by E. L. Lee of Eugene and carried \$2,000 insurance.

It is estimated that the output of butter there will be increased.

"There is no substitute for Circulation"

Business is done with Credits

Credit is based on Confidence

Confidence is built on Facts

When a Merchant gets an order for a bill of goods he agrees to ship and render a bill, only if the buyer has a satisfactory commercial rating. Confidence in his ability and will to pay is inspired because facts have given the buyer a standing in the business world.

Why not decide your advertising in the same way?

THE AUDIT BUREAU OF CIRCULATIONS is a statistical organization organized to determine the facts about newspapers. It sends an auditor into the office of each member, and he investigates the records.

- He checks the net paid circulation.
- He finds out how subscribers were secured.
- He looks into the distribution of the paper.

The report then sent out from the Bureau's office is used by advertisers to determine the paper's suitability for carrying a campaign.

- You can tell the complete actual circulation.
- Why people buy the paper.
- What people read it.

The fact that a paper joins the A. B. C. means it has no secrets to withhold. All the cards are there for a showdown. A. B. C. reports are now demanded by most advertisers both as an evidence of good faith and as the most reliable statement of a paper's condition.

THE REGISTER is a member of the A. B. C.
