It Is Not a Light Six

Six Cylinders—50 Horsepower—\$1065

The Jewett is a sturdy, powerful, six-cylinder motor car. Ready for the road the touring model weighs over 2800 pounds.

This means that to measure the new standard of value it has set in American motordom you must compare it with cars costing from \$200 to \$500 more.

It has the strength essential to sturdiness in its frame, motor, clutch, transmission, drive shaft and in its special Timken axles.

The great power plant is built complete in the Paige shops. It has been proved by years of use in Paige 6-44 models.

Now with the addition of high pressure oiling giving 20 pounds pressure at 20 miles per hour, it is finer and better than ever.

Such is the Six that is now yours at \$1065 f. o. b., factory.

It is sold and serviced by Paige dealers everywhere
