Hat Coverings Repeat Fabric of the Dress

OWOMAN'S INSTITUTE Fashion Service

By MARY BROOKS PICKEN

SO WELL thought of are the gingham of this season that they are given opportunity for delightful expression in hats as well as in dresses. Indeed, it is the exceptional gingham frock that is now satisfied to appear with a hat of other than its own fabric, for modern ideas do not permit the slightest of such excellent possibilities as the matching hat offers.

Gingham of a vivid green-and-white check makes this a particularly desirable warm-weather costume. And what could be more delightful than crisp white organdie to supply youthful details in the broad sash and oddly-pointed front collar sections?

The center-back closing of the waist as well as the front skirt-panel edges, which are an extension of the lower bias skirt portion, are indicated by pearl buttons.

A facing and ruffled rosettes of organdie add interest to the bias-cropped gingham hat.

INTREPID RUSSIAN BANDIT DIES WITH HIS BOOTS ON

Alexander Antonoff, Fought to Last When Surrounded WAS Foe OF BOLSHIEVSKI

With Fast Horsemen of the Steppes Chiefly Harassed Red Army for Many Years

(Correspondence of the Associated Press) TAMBOFF, Russia, July 14.—Alexander Antonoff, whom his followers considered in the light of a reincarnated Robin Hood, but whom the soviet government classed as a Jesse James, fought to the last when surrounded and killed by the state police at his hiding place in a tiny village near Tamboff late in June.

Antonoff once was in the old Russian army. When the Bolsheviks took power he opposed them and, gathering about him thousands of followers—fast horsemen from the Steppes—he harassed the red army in the south of Russia for several years.

Last September Antonoff's last band was broken up by the reds. For months the state police sought out his hiding place. Finally some of his former confederates were promised amnesty and betrayed him.

His Shetters Bandit Chief Early in June evening eight men led by Policeman Pokutskik came to the hut of a peasant woman, Marie Katennova, whose name will go down in the fantastic legends surrounding the life of Antonoff. In this hut in the thick woods near the river Verona, Antonoff was hiding. The police called to her and she came out of the house, denying Antonoff was there. No sooner had the woman turned away than two men started firing upon the police from the windows of the hut. Peasants, attracted by the shooting, ran to the village church and rang the bells, and hundreds of peasants armed themselves with sticks and stones and formed a cordon about the hut.

Fire from Burning Hut For several hours the battle continued, until, with night at hand, the police ran very short of ammunition. Two of them crept up to the house and set the roof on fire. As smoke began to pour out of the windows, two men broke from the house and started running toward the woods. With each step they turned to fire their revolvers at the police. They had almost reached the woods when they were shot down. Their bodies were immediately identified, one being the famous chieftain, and the other his brother, Dimitri Antonoff.

To convince the population that the bandits never had been workingmen, the soviet authorities had autopsies performed and doctors issued statements saying that neither of the brothers ever occupied himself with hard work. "For their hands were soft like those of noblemen and there was fat all over their bodies, showing that they had fed themselves very well at the time when the famine in the villages carried away many souls."

KING GEORGE GIVEN NO CREDIT FOR HIS SPEECHES

MANY OF HIS ADDRESSES WRITTEN BY MINISTERS

But Ruler Made Really Good, Original Address at Opening of London County Council Building

(Correspondence of the Associated Press) LONDON, July 23.—So many of King George's speeches are written for him by his ministers, as all the world knows, that he never gets credit for the good speeches he thinks up himself. People always say: "The speech was all right, but some one else wrote it for him."

This is not always true. In everything that relates to affairs of state he speaks only through the mouth of his responsible ministers, and the "speech
