At City Auto Camp

Tourists stopping nightly at the camp ground now all have definite destinations in view, and the old car-free, come-and-go manner that characterized the traveler a few weeks ago is gone.

Home-seekers are still numerous among the tourists, and last night several parties made inquiries as to what Lane county had to offer in the way of homes. J. E. Hammond has come out with his family from Omaha, Nebraska, in search of a western location.

J. McGilvery and family also have decided to settle in Oregon, Hammond state that they have had quite enough of winter weather in Rollins, Wyoming. If they like Lane county better than other portions of Oregon and California, which they will visit within the next few weeks, they will return here to live.

A newspaper man from Indianapolis, Indiana, L. C. Williams, has been in the region since May 2, and he is laughingly says, "If I don't get back to work pretty soon, I'll turn into a real hobo." Mr. Williams has worked on several newspapers in the East, and with his wide range of experience, will probably be able to read some plans, which are to become associated with some paper in the West.

Z. P. Myster recently had charge of the business of selling Ford to Seattle people, but has now come to Oregon to locate either in Oregon or California. While here he will visit E. C. Simmons, local Ford representative, and it is possible that he will locate and enter his children in school this fall.

"We're told people all along the line from here to Canada and back about the excellent service given the tourists at the Eugene park, especially particularly about the good work the chamber of commerce here is doing," said C. F. Bushong, who is stopping here on his way home from Hollywood, California. Mr. Bushong is accompanied by his wife and his son, Kenneth, and while here they will look over the university which Kenneth may enter in the fall.

Two parties in camp are on their way to California to winter, but both state that they may come to Oregon to settle next spring. H. J. Walker and family are driving from Great Falls, Montana, and M. E. Bailey has brought his family out from DeWitt, Nebraska.

Fresno, California, has lost favor with Harry Wood, who has brought his family north to settle. "I've nothing against the South," he states, "only I like to live here better." Mr. Wood is undecided just where to locate, but because there's good fishing near here, he may come back to live after looking over Northern Oregon and Washington.

U. S. OPERATION RAILS, MINES, MEETS FAVOR

(Continued from Page One) Once to give the President authority to take over the railroads that are suffering during the coming winter might be obviated.

Mondell Opposed to Bill Representative Mondell, Wyoming, the Republican leader, told the house he would not vote for the bill "with great enthusiasm," but with the hope that it would curb profiteering.

"I do not share the expectation of those who believe legislation of this character will wholly perform its expected purpose," said Mr. Mondell, who criticized price fixing during the war and asserted its effect had been to increase rather than to decrease prices.

Why You Need Auto Insurance

As long as the roads are crowded with drivers who persist in cutting in regardless of ordinary considerations of safety, just so long will the careful driver need complete automobile insurance. Eventually "the man who is - always - in - a hurry - to - get - there" will find that such driving does not pay, but the lesson is usually a costly one to others.
