What does food economy mean to you?

DOESN'T it mean good living at low cost? Foods that are "short" in nourishing value and "long" in waste are never economical.

The food, Grape-Nuts, is economical to the last serving in the package, because every golden-crisp granule really contributes to body-building.

Grape-Nuts offers the sturdy nutriment of wheat and malted barley in unusually compact form—a comparatively small amount providing exceptional nourishment. The 12-ounce package contains about 16 servings—costing about one cent each.

Every bit of Grape-Nuts is real food, uniquely free from the bulky waste found in many other food products.

Made from whole wheat flour and malted barley, Grape-Nuts has the benefit of 20 hours baking which so modifies the starch of these grains that easy digestibility naturally results.

Eaten with good milk or cream, Grape-Nuts is a complete food, which creates energy without taking away energy. And the gradual, daily accumulation of power is the greatest of all food economies, since reserve energy is what counts most, either in the sudden emergency or the long grind.

A food for economy—a food for health! And a food with a charm of flavor all its own.

MOTHERS AND DAUGHTERS

Read This Letter from Mrs. W. S. Hughes

Greenville, Del.—"I was under the impression that my eldest daughter had some intestinal trouble as ever since the first time her sickness appeared she had to go to bed and even had to quit school once for a week. I always take Lydia E. Pinkham's Vegetable Compound myself so I gave it to her and she has received great benefit from it. You can use this letter for a testimonial if you wish, as I cannot say too much about what your medicine has done for me and for my daughter."

Mrs. W. S. Hughes, Greenville, Del. Mothers and oftentimes grandmothers have taken and have learned the value of Lydia E. Pinkham's Vegetable Compound. So they recommend the medicine to others.

"The best test of any medicine is what it has done for others. For nearly fifty years we have published letters from mothers, daughters, and women, young and old, recommending the Vegetable Compound. They know what it did for them and are glad to tell others. In your own neighborhood are women who know of its great value."
