SAVED FROM AN OPERATION

Now Recommends Lydia E. Pinkham's Vegetable Compound

Washington, D. C.—"Lydia E. Pinkham's Vegetable Compound saved me from an operation which a physician said I would have to have for a very bad case of female trouble. My system was all run down for two years after my little girl was born. Then I read of your wonderful medicine and decided to try it. I could hardly drag one foot after the other, and after taking six bottles of the Vegetable Compound I felt like a new woman. I now do all my housework, also washing and ironing, and do not know what real trouble is. My health is fine, and I weigh 140 pounds. When I started taking it I weighed 97 pounds. I gladly recommend Lydia E. Pinkham's Vegetable Compound to any one who is suffering from female trouble or is run down. You may use this testimonial for I am only too glad to let suffering women know what the Vegetable Compound did for me."—Mrs. Ida Hewitt, 1529 Penna. Ave. S. E., Washington, D. C.

Such letters from women in every section of this country prove beyond question the merit of Lydia E. Pinkham's Vegetable Compound.

gon which is to be held in Eugene next December.

First Organized in Texas The Farmers' union was first organized in Texas some twenty years ago and has spread until it is now operating with much success in 27 states.

The union was organized for educational purposes to teach the farmer co-operative buying and selling, to teach him of the important position the farmer holds in life and that it should be recognized as a factor in the development and sustaining power of life such as men of other vocations are.

The union stands for better and stricter enforcement of law for better government, the strictest economy and tax reduction.

Organizer Will Know Farmer The state organizer for the union is a well known farmer of the McKenzie River local, residing near the Hendricks bridge. He is a live wire, a man of exceptional qualities and well fitted for the work.

Albert Zinnaker, one of Creswell's best known and most successful farmers, is president and Ralph Benter, one of Lane county's most progressive dairymen and purebred Holstein breeders, is secretary and treasurer of the new local at Creswell.

DAILY MARKET REPORT

OREGON JOURNAL MARKET SERVICE PORTLAND, Ore., Feb. 12.—Weather conditions affecting sentiment in the butter trade here, a condition not at all unusual for this period of the season. Extreme cold at interior points and a good fall of the freeze in Western Oregon and Western Washington conditions, and improved buying demand for butter for the week's opening. While no change is indicated in price, with state cube extras ruling around 42¢ @ 42 1/2¢ a pound and cream butter at 43¢ @ 44¢, there was more disposition to take hold than was shown during the previous week.

While California will continue to be more or less of a factor in the Pacific Northwest trade conditions in this territory are changing. Instead of looking to California for an outlet for Pacific Northwest butter, the trade is more inclined to look for importations from the south.

EGG TRADE SHOWS NO CHANGE

No change in the egg market situation was shown here for the day. While much attention is given to Eastern and Southern trade reports, weather conditions here are a factor tending to hold values steady.

POULTRY MOVEMENT IS GOOD

Good movement continues in the market for chickens here. Demand is fully up to offerings and prices are maintained. Turkeys continue slow, but are selling at the prices named. Ducks in demand but not arriving.

WEATHER IS AFFECTING APPLES

Cold weather is affecting the local sale of apples but no special change is indicated in prices. In the meantime over-ripe stock continues to come forward but the rate is not so serious as previously, probably due to the fact that shippers received little for such stock.

MEAT SCARCITY IS CONTINUED

Scarcity of country-killed cases continues in the local trade and very firm but unchanged prices resulted at the week's opening. Hogs were in fair supply but prices ruled steady.

VEGETABLE PRICES ADVANCE

Weather conditions forced vegetables up. Cauliflower is now as high as \$2.25, cabbage is 4c, while good sweet potatoes are selling at a similar price.

TURKEY CONDUCTS WARS WITH MOST ECONOMY

Is Least Bankrupt of Any Nation Taking Part

AMAZING SHOWING MADE

Angora Government, Holding Off Allies and Fighting Greece, Issues no Paper Money

(Correspondence of the Associated Press) PARIS, Jan. 22.—Turkey is the least bankrupt of any nation that has taken an active part in the world war, according to information reaching here, not excepting England or France. The chief reason is that apparently she has conducted her wars since 1914 with the strictest economy.

The total pre-war and war debt of Turkey, including the charges that may be set against her at Lausanne or in any treaty of peace to pay damages to foreign nationals, is estimated to run barely above \$1,000,000. This sum is regarded as ridiculously low when it is remembered that, by way of comparison, France owes the United States a war debt of \$3,400,000,000 and Germany owes the allies approximately \$34,000,000,000.

From a European point of view the interest in Turkey is partly political, especially in war times, and largely financial in peace times. American interest also has been directed toward Turkey in the past few years with her tobacco exports, if nothing else, being bought up by American firms.

Bankrupt in Year 1814

An analysis of Turkey's finances shows she became bankrupt in 1814, after foolish suits and her corrupt ministers had contracted unproductive foreign loans. In 1881 Abdul Hamid, in order to raise money, turned over the salt and other monopolies to an institution known as the Public Debt, to be directed by foreigners until their debts should be paid.

In one way or another, Turkey owed abroad in 1914, 165,000,000 Turkish pounds. This unit had a pre-war value of \$4.48. Also, she had a funded debt of 152,000,000 Turkish pounds. Of the foreign debt, roughly the equivalent of \$89,000,000, France held 59 per cent, Germany 21 per cent, and Great Britain, Holland and Belgium, about 19 per cent.

Turkey's war debt expenses have been described as the most amazing thing in the history of world finance. She ran her war on a shoestring. When the army needed anything, it seems to have been either requisitioned from the civil population or else the army simply went without it. And this army often numbered 1,000,000 men. In 1915, there was one internal loan of 15,000,000 Turkish pounds (about \$79,000,000 at the exchange of that time). "Then there was a paper money issue of 154,581,400 Turkish pounds, secured by German government treasury bonds, payable 15 years after the war. Certain supplies in limited quantities were bought in Germany.

Has Hearing on Yank Residents These figures have a distinct bearing on the future for those Americans, or others, who wish to live or do business in Turkey.

According to one American financial expert who has traveled through Turkey, as rarely do the majority of foreign visitors, if Turkey secures a stable political government and if she frees herself from foreign control, there is no reason why she cannot intensify her agriculture and prosper. Strange as it may seem to the casual observer of the course of post-war nations, this expert asserted that Turkey needs but little foreign money or loans. Here is a problem rather of a sound domestic policy; encouraging the creation of domestic capital through better banks; the opportunity for

One of the most sensational heresy trials ever held in America faces Rev. NO TAXES IN MODERN UTOPIA, NORFOLK ISLE

FOOD IN ABUNDANCE, NO PESTS, NO PAUPERS

Such is Alluring Picture Drawn by Major General Parnell, Its Administrator

(Correspondence of Associated Press) SYDNEY, N. S. W., Jan. 30.—A modern Utopia, where no taxes are paid, with no political, food in abundance, no pests, no paupers, plenty of intoxicating liquor but no drunkenness, is Norfolk island, according to the picture of the land drawn by Major General Parnell, administrator, on a visit to Sydney.

General Parnell said that during his two year's administration the only serious crime committed on the island was the theft by a convict of some money from the island station. Intoxicating liquor is issued from bond by the administrator and there is never a case of drunkenness among the 800 inhabitants. Most of these are the descendants of the mutineers of His Majesty's ship, Bounty.

The residents are contented, living on their own farms, although very few make more than 100 pounds a year. General Parnell said, "I don't know but the people appear to lack initiative. The people are governed under laws of their own making and the commonwealth grants 2500 pounds annually for administrative expenses, mostly for public school expenses. One-third of this amount is absorbed by public school expenses. While the residents do not pay taxes, all male inhabitants between the ages of 21 and 55 are required to work for 15 days each year in constructing public roads, piers, or other public works. Those unable to do this are called upon to pay 3 pounds.

Mrs. Victorian Style "What shall we be married?" "There's no hurry," said the flapper. "Any old time will do to hop off."

"Is it possible that you regard the sacred marriage vows with such flippancy?" "How you do talk, Augustus! I'll bet you've been reading one of those old-fashioned novels."
