### MANY HEAR DR. KELLEMS ON 'DIVINE HEALING'

#### Evangelist Says Time of Miracles is Past ENDED IN BIBLE DAYS

Purpose Was to Get Church of Lord Well Established, Assers Speaker

Last night before an audience which packed the auditorium of the First Christian church Dr. Jesse H. Kellemis preached a sermon on the ever-interesting and often-puzzling question of "Divine Healing."  
In the first part of the addresses Dr. Kellemis showed that in the new testament church there were scriptural gifts (1 Cor. 12:7-10). These gifts were the same as the signs which Jesus said should follow them that believe (Mark 16:15-20). "Jesus had promised these to his apostles and the promise had been fulfilled (Acts 2:1-4)," he said. "The apostles then had the power to work miracles, to heal the sick, to raise the dead, to drink poison and they would not be harmed, to pick up serpents and they would not suffer. These miraculous gifts were given during those days when the church was in its infancy before the new testament was given to the apostles of the Lord and they had the power of giving gifts to others by the laying on of hands. The gifts, however, never passed to a third person. Only the apostles of the Lord and those upon whom they conferred the gifts by the laying on of hands could possess them."

### Your Bank's Name

The name of your bank is an asset. A strong banking connection is a business necessity—and if that bank is one that has its own name firmly established in the commercial life of the territory in which you move, your standing is doubly assured. A working connection with the First National will prove a valuable asset.

"The so-called modern divine healers condemn the employment of doctors and the use of medicines as a lack of faith in God," said the evangelist. "Yet nowhere does the Bible condemn the work of the doctor or the use of medicines."  
"The purpose of divine healing was to confirm revelation. This was always the purpose of the healings of the Lord and the early church and there is not a single exception to this rule. The purpose of modern healing, so-called, is not to do this but to get a crowd and a large amount of money. Divine healing was not the prominent thing in the work of Christ or the apostles."  
"The modern so-called divine healer limits the power of Christ to the faith of the one healed," he said. "This is always the position of those who claim that their cure is based on the name of Christ. There can be no healing unless there is faith on the part of the individual. But faith was not at all necessary in the healings of Christ or his apostles. The case of the man with a withered hand (Luke 14:1-6) or the case of the lame man in Acts 3 all illustrate this fact. Christ and the apostles could heal whether the one healed had faith or not. The fact that the modern divine healers demand faith shows that the power by which they do their work is the power of suggestion and hypnotism as every scientific man knows."  
No Organic Trouble Healed  
"Christ healed all kinds of diseases. There is not one authenticated case on record where a so-called modern divine healer has ever healed a cancer, or any organic trouble. There are many lies told but no proof backed up by a reputable doctor."  
"Christ's cures were instantaneous. Those whom He cured were cured of the worst diseases and immediately. The modern healer tells his people that the cure will come gradually, that it may take a month or more for it to come. The cures are permanent. The people who were cured by Him were cured. Those cured by the modern fakers are cured for a little while and then the old trouble comes back worse than ever."  
"The cures of Christ turned people to righteousness but those of the modern fakers turn to insanity. There is an abundance of testimony that there are scores today who have lost their minds because of the modern fad. (Here Dr. Kellemis read several letters from doctors concerning this point).  
"That they do make some cures no one will deny. These cures are the same kind and are made in the same way as those made by hypnotists and psychologists everywhere. These are making cures and are not claiming that they are divine. They are honest in that they speak of the power as simply a scientific thing."  
In conclusion Dr. Kellemis said: "The new testament gives us absolutely no foundation for a belief in miraculous healing today. Not only is this true but it explicitly states that these miraculous manifestations would cease when the revelation was confirmed, and the church established and that which was perfect was come."  
Three Things Demanded  
"We have a right to demand today of any man who claims to heal in the name of Christ that he do three things:  
(1)—That he heal the same kind of diseases as those healed by Christ and the apostles.  
(2)—That he heal them in the same manner as Christ and the apostles healed.  
(3)—That he produce the other signs which always accompanied the gift of healing and which were the attestations of the divine nature of those to whom they were given. These signs were:  
"A.—The power to speak with intelligible tongues.  
"B.—The power to raise the dead.  
"C.—The power to pick up dead serpents without being harmed.  
"If the one claiming to heal in the name of Christ cannot produce these signs we must conclude that he does not have the divine power by which they are produced."  
"If one today cures the same diseases and in the same manner as those cured by hypnotists, suggestionists, etc., we must conclude that he does it by the same power as that which they employ."  
"The new testament method of healing is that which means at our command, asking God to bless them. This is the whole Christian view of the question."  
Dr. Kellemis stated as did Dr. Stevens the other night that the First Christian church was in no way responsible for the coming of Dr. Kellemis to Eugene. It was the movement from the start, that it was not in it now and never would be.  
Tonight Dr. Kellemis will speak on the theme, "The Cleansing Blood of Christ."

### THOMAS GETS PADDLING

PRESIDENT OF MERCHANTS VIOLATES RULE

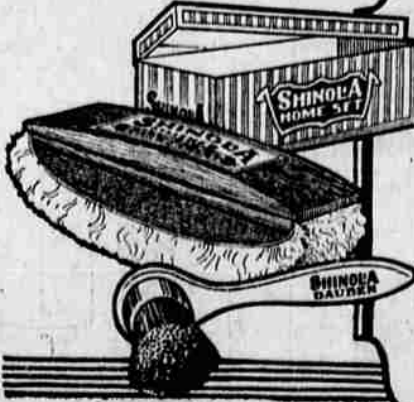

I. L. Thomas, of Marshfield, president of the Oregon Retail Merchants' association, was given a paddling by members of the senior class at the university yesterday for being so careless as to tread upon the metal seal imbedded in the cement walk in front of Villard hall.

Mr. Thomas, along with the other members of the association in convention here, wears the freshman green cap. In the eyes of a senior a freshman is a freshman, whether he is a callow youth just out of high school or a sedate business man. With so many of the green cap wearers milling around the campus yesterday the seniors watched the seal with jealous eyes and when the worthy president thoughtlessly trod upon it he was immediately seized by a squad of the wearers of the sombrero and given the punishment that is meted out to all freshmen who violate this rule.

Attention, Comrades G. A. R. In accordance with invitation and arrangements by the commander of the American Legion post of this city, we will meet at the armory at 5:30 p. m., sharp, Friday, February 23, instead of 7 o'clock.  
R. E. EASTLAND, Commander.
