COUNCIL HOLDS MEETING

CRESWELL MEMBERS GATHER FOR SESSION

Contract with Electric Light Company Is Renewed—Other Matters Are Taken Up

(Register Lane County Special)
CRESWELL, Ore., March 6.—The regular meeting of the council was held Monday evening. All members present except C. F. Moore.

The contract with the Electric Light company was renewed with slight modifications to the end that the contract continues from year to year except that after the first year it may be terminated by either party on sixty days' notice. There are fifty 50-watt lights now in use for which the town pays \$11.50 per month but privilege is given to lessen or increase the number and also to install 75-watt lights at \$1.65 per month or 100-watt lights at \$2 per month. The mayor appointed Saturday, April 14, as cleanup day, it being the desire to have the town look as attractive as possible by April 26 when the I. O. O. F. county convention convenes at Creswell.

Bicycle Ordinance Discussed

A bicycle ordinance was discussed but as there was not a consensus of opinion on the matter it was referred to the legislative committee for further consideration. The menace in bicycle riding on the sidewalks is simply due to the carelessness and disregard of a few to the rights of pedestrians which if regarded by the riders having such consideration of pedestrians, the danger would be removed. When meeting them might result in no complaint to the use of the sidewalks by bicyclists. But running into people and swiftly passing them without warning is objectionable and unless stopped some action will be taken to suppress offenders.

The matter of paving Oregon avenue was discussed. C. E. Leabo reported that the subject was being favorably considered by some of the property owners who suggested a partial paving by leaving in the center a parking of fifteen feet wide with a plan received very favorably by the council.

DAILY MARKET REPORT

OREGON JOURNAL MARKET SERVICE

PORTLAND, Ore., March 6.—Competition and a rather favorable demand are keeping the market for eggs unusually active and the price strong locally. Competing buyers are trying to grab supplies from each other, resulting in extreme price figures generally.

Very liberal increase in the supply of eggs is shown locally, but the demand is keeping full pace with the offering. Current receipt bids at country points are generally at 23c for Portland delivery, with Benneries 26c, but some of the buyers are not paying within 2c of these figures. In reality the market price obtainable for eggs does not justify local price conditions, but as long as buyers fight one another for control of the trade there is likely to remain an artificial value range.

BUTTER SITUATION IS STEADY

Generally steady tone was shown for butter at the Tuesday morning opening. Prints and cubes were unchanged and little condition was shown at San Francisco. Increasing output is shown.

VEAL MARKET ACTING BETTER

The feast has passed in the veal trade and today there is a famine of offerings. Sales of top quality have been advanced to 15c a pound with reports of occasional sales a fraction higher or lower.

MANY DRESSED FOWLS ARRIVE

Portland has received more dressed fowls from the country in the last few weeks than ever before known. Usually the dressed movement is on only during the holidays, but stock is now arriving daily. No general change for the day.

BROCCOLI MARKET IS LOWERED

With Jap grown California cauliflower being dumped in the Portland trade and selling down to \$1.00 to \$1.50 per crate, there is a weaker tone for broccoli generally with the local Roseburg stock dull around \$1.75 to \$2.00.

POTATOES ARE GENERALLY DULL

Generally dull tone is showing for potatoes. While shipments of carload lots continue, there is no new business reported. Nominal transactions around 40 to 50c per cental f. o. b. country points.

the SECRET of Delicious Fried Foods

EVERY chef knows that one of the hardest things is to fry food so it will be "done", yet not soggy nor heavy. Here are a few hints that have aided thousands of intelligent housewives:

Your food will be twice as appetizing and more easily digested, if you use Mazola for cooking, instead of animal fats or ordinary cooking compounds. One reason is that Mazola can be heated so hot that the food is instantly crusted over. This keeps in all the rich juices, and makes the food more delicious and tastier.

For frying fish, dry your fish well, dip in flour or cracker dust, and drop in hot Mazola.

FOR frying French fried potatoes, let potatoes stand in cold water an hour after they are cut. Then dry well, and drop in very hot Mazola. Use a deep pot, as this will prevent the Mazola from running over when you drop the potatoes in.

Crullers fried in Mazola are never grease-soaked, as they form a crust at once when dropped into hot Mazola.

Your grocer sells Mazola in pint, quart, half-gallon and gallon tins, packed and sealed under expert supervision. It is never sold in bottles or in bulk. If Mazola is unsatisfactory to you, your grocer refunds the cost without question.
