Spending a Million a Day For Live Stock

If you put a million dollars cash into your pocket every morning, and it was all spent by noon, you'd feel that you had been doing something people would be interested in hearing about, wouldn't you?

We spend on an average of a million dollars every morning of the year—Sundays and holidays excepted.

This money comes from the retail dealer and the consumer in exchange for products. With it we buy live stock. In our hands this live stock becomes meat and by-products, which through our widespread service of refrigerator cars and branch houses, becomes available to every consumer.

Our 1923 Year Book, just published, gives you our financial standing; it tells you that our profit from all sources for 1922 averaged only a fraction of a cent per pound and only 2 cents on each dollar of sales, and a great deal of other information about our business and the service which we render.

We shall be glad to mail you a copy if you will send us your address.

DAILY MARKET REPORT

OREGON JOURNAL MARKET SERVICE
PORTLAND, Ore., March 19.—Market for butter continues to reflect strength here, but no further price change was indicated for the week's opening. There continued an excellent outside demand for cubes and especially so for the better class offerings.

Sales of cubes to outside points are not liberal, but this is not due to any lack of demand. The home consumptive demand has been so liberally increased that the little surplus is now showing. This is moving off well within the price range listed.

Offgrade stock is a trifle bothersome at the moment in the cube trade, but even this and the surplus are sufficient to maintain the previously established quotation.

EGG TRADE HAS GOOD FEELING
Demand for eggs for storage is very good and the live house movement as well as the fresh requirements have brought forth an advance of 1c in the general bids. No change in selling values.

CHICKEN DEMAND IS VERY GOOD
Chicken market demand is very good here and the recent advance in price is being generally maintained. There is a call for all the surplus in the country division, although poor quality turkeys drag.

MEAT SITUATION IS STEADY
Steadiness continues in the meat market situation. There was no change in general quotations for either veal or hogs at the opening of the week. Spring lambs in demand, but none arriving.

POTATO ORDERS ARRIVE HERE
Limited carload business continues in the potato market, with purchases from 300 to 500 a car. Latter is an extreme price at the moment for country sales. Yakima is reported as advancing its price, but this has helped sales of Oregon at former values.

ONION MARKET NOW CONGESTED

JOY OF HEALTH WOMAN'S RIGHT

Mrs. Evans Freed from Female Weakness by Lydia E. Pinkham's Vegetable Compound

Detroit, Michigan.—"I had female weakness with pains in my back, and I could not stand on my feet for any length of time. I was working in a factory but had to quit as I was too much on my feet. A friend recommended Lydia E. Pinkham's Vegetable Compound to me, and I can hardly believe it myself that I am well. Oh, it is a grand thing to have your health! I feel well all the time and can go out like other women and not feel that awful torture. When I took your medicine first I thought it should cure after the first bottle, but I am glad my husband kept me at it. I have had nine bottles and now I am well."—Mrs. JENNY EVANS, 1604 Lafayette Blvd., Detroit, Michigan.

If you are suffering from displacement, irregularities, backache, nervousness or other forms of female weakness, you should take Lydia E. Pinkham's Vegetable Compound.

The reason is given in letters like these, and we have published thousands of them. You may expect that a medicine that has helped other women will help you. Try it.

No remedy can cure all ailments of the human body, but an immense number of people suffer from aches, pains and diseases when their real trouble is lack of iron in the blood. It is the iron in your blood that enables you to get the nourishment out of your food. Without iron your food merely passes through you without doing you any good; you don't get the strength out of it. There is one universal known tonic that has helped thousands because it contains iron like the iron in fresh vegetables and like the iron in your blood.

NUTRATED IRON

is an eminent physician's best blood prescription, standardized. It is recommended for all anemic and run-down conditions. It has helped thousands of others. It should help you. Ask for it at any drug store.
