Constipation
Relieved Without The Use of Laxatives
Nujol is a lubricant—not a medicine or laxative—so cannot gripe.
When you are constipated, not enough of Nature's lubricating liquid is produced in the bowel to keep the food waste soft and moving. Doctors prescribe Nujol because it acts like this natural lubricant and thus secures regular bowel movements by Nature's own method—lubrication. Try it today.

DAILY MARKET REPORT
OREGON JOURNAL MARKET SERVICE
PORTLAND, Ore., March 27.—Market for eggs reflects strength here with full recent values maintained both for buying and selling. Shipments of eggs continue to the intermountain section, but nothing at all is moving from the Northwest to the Atlantic Coast.
The shipment of the largest carload of eggs ever known from this section is credited to the Estes-Dixon company for the last 24 hours. The carload consisted of over 800 cases, or practically two ordinary cars.
While the general trade continues to quote mixed color standards buying price at 24c, payment of 22c is confirmed here. Heneggers are quoted at 24c generally, but 25c is being paid in some instances.

SHIPPER'S WEATHER NOTICE
Weather bureau advised Tuesday: Protect shipments during the next 36 hours against the following minimum temperatures: Going north to Seattle, 44 degrees; north to Spokane, 32 degrees; east to Baker, 28 degrees; and south to Ashland, 34 degrees. Minimum temperature at Portland tomorrow about 44 degrees.

BUTTER SITUATION IS FIRM
General strength continues in the butter trade here. There was no price change Tuesday, but increased prices in the South added to the strength already shown in Portland and other Pacific Northwest points.

CHEESE MARKET DEMORALIZED
Continued price cutting is shown in the selling price of cheese here, although degree of demoralization is not confirmed. The secret price cutting has become so general that the general trade is demoralized.

POULTRY SITUATION IS GOOD
Contrary to expectation a very good tone remains in the poultry market. Receipts are rather limited except in isolated instances. Prices are held at former figures.

RATHER DULL ONION TRADING
Onion trading in carload lots has practically subsided here. Growers have become unduly excited and asking for more than available orders can confirm. The result is a general lack of new business.

BROCCOLI MARKET HELD FIRM
Broccoli and cauliflower show a firm tone here at \$1.25 to \$2.25 per crate, according to quality. Both Oregon and California stock are selling at practically the same range. Several cars of California stock reported here.
