DAILY MARKET REPORT

ORIGON JOURNAL MARKET SERVICE

PORTLAND, Ore., April 11.—Market for eggs continues to reflect a steady tone generally here, with no change shown in price.

With the general buying of various grades of mixed color standards is coming into the market for the very good reason that some of the leading members of the organization are not operating on the basis agreed upon, while other influential buyers are not members of the association.

Buying price of current receipts of standard mixed color standards remains around 21c a dozen and the market is favorable at that price, with everything ordered taken.

For business-like buying, price is almost uniform at 24c a dozen. There is a lower price for some grades in the country, but it is not the actual worth of the supply.

BUTTER SITUATION IS SAME

With the same and the North still absorbing whatever surplus butter Portland has in order, there continues a lack of change in the price situation here (Wednesday), although a cut in the price is due soon. No sales of butter beyond the weekend.

CHEESE SALE IS INCREASED

Increasing sales of cheese are reported by the local trade. Every day a portion of the demand in the market, Tillamook continues to report an increase in its supply and demand.

SHEEP AFFECT REAL TRADING

Due to the great run of sheep in the Sandy river and the filling of consumers with this flock, there is little demand for outside country-raised sheep and lambs.

There is a large stock of sheep at 15c, although an occasional lot is taken at a fraction higher. Hogs generally up at 12c.

APPLE SALES IMPROVE HERE

Ships improvement is noted in the demand for apples, but not in prices. The trade here has been inclined to let its apple stocks run low and there is little good stuff now in sight. Plenty in the country.

PALLET SPINACH MECH BEST

Offerings of spinach from the Tillamook have created much interest in the trade here. The stock is of most excellent quality and is in a state of readiness for shipment.

There is a large stock of spinach at 15c, although an occasional lot is taken at a fraction higher. Hogs generally up at 12c.
