

EMPLOYEES BUY HEAVILY STANDARD OIL STOCK

Plan of Company
Meets With Favor

BOY IS OPULENT

Amount Sufficient to
Purchase Shares

Associated Press

May 25.—Three years ago the employees of the Standard Oil Company (Indiana) will be the first group of stockholders collectively, and will own more stock than any other individual group of stockholders in the company. If the plan is carried out, the employees will own the stock in the next three years. The plan was made today by the company in commenting on the plan during the two days of its existence.

Dividends soon will be paid on the stock. The amount of the dividends will be \$10,000,000, and the plan, which provides for every dollar an employee puts up for the purchase of stock, will add 50 cents to the employee's credit in the company, providing, however, the employee can purchase more than an amount equal to 20 per cent of his salary.

As an amount sufficient to purchase shares is reached, the plan is made and dividends to the employee begin. At the end of the year all of the stock purchased in this manner is delivered to the employee.

Concrete examples of how the plan works are interesting. One employee who has earned \$10,000 a month contributed \$100 to the plan. He has now earned \$125.50 and has a total value of \$125.50. His net profit is \$25.50. Another employee whose salary is \$1,000 a month has contributed \$100 to the plan. He now has a total value of \$125.50. His net profit is \$25.50.

University High News Notes

Julius Caesar Dramatized
End of School Near
Summer Courses Offered
Examinations Tomorrow

The Junior English class under the supervision of Mrs. Margaret Goodall are dramatizing "Julius Caesar" as they study it in class. Each student takes a different part each day. The school finds the work very interesting as well as educational. Much talent is shown by the class in the portrayal of the Shakespearean characters.

"Get all your credits up to date," "Don't graduate next year," are expressions which are heard in the halls from the mouths of the members of the Junior class. They have considerable cause for being worried as there is only one month left of the school year. There is a feeling of responsibility which each one in the class feels when they think of the position which they will fill next year, which has been so nobly filled by the class of 1922.

Summer courses will be offered for the first time this year for high school students. These courses will begin on June 26 and will continue for six weeks, closing August 2. Classes will meet daily except Saturday from 8 to 11 a. m. Instruction will be given by members of the regular university high school faculty and work will be given in the ninth grade subjects only. The subjects offered and the instructors follow:

Science—Mr. Elbert L. Hoskin.
English—Mrs. Margaret L. Goodall.
History—Mrs. Rolfe S. Dickerson.

Full high school credit will be given for work satisfactorily completed. Owing to the opportunity for intensive work the pupil who carries three subjects successfully will earn three fourths of a year unit, or slightly more than a proportionate amount.

Enrollment will be limited to twenty pupils. Applications for admission should be made within the next two weeks, if possible, to Mr. Benjamin at the University high school, or to Mr. Eaton at the junior high school.

News From the High Schools of Eugene and Lane County

Tool-Craft

All Sorts of Things for
Boys and Men to Make

By Frank I. Solar

How to Make Puzzles

I'm glad to hear that many of you are "puzzle bugs," as I am. I have received nearly a bushel basket full of puzzles for the contest. I'm taking them to the Children's Hospital, where the sick children will have some great parties with them.

None of the puzzles I am giving you today are my own; they have all been sent in by readers. The first puzzle I received was the "G" puzzle, sent in by a girl. A Canadian boy, who sent puzzles, A. B. C. D. forgot to enclose his name. I wish I had it, because I have a book to send him for helping me.

Besides the many letters I got from you boys and girls, I got one from some freshmen who said, "I wish you would run many puzzles. Over at the station we are tired reading and playing checkers and we enjoy your puzzles."

Here is the problem to be solved in each of the puzzles: Puzzle A. Remove the button and the string from the paper without pulling the button through the hole; Puzzle B. Remove the thread without pulling the knots through the holes in the paper; Puzzle C. Take the two loops apart without springing them; Puzzle D. Make parts M. N. O. P. and place them together so they will form the letter T; Puzzle E. Remove the small wire loop without springing either part of the puzzle; Puzzle F. Remove the rings; Puzzle G. Remove the string and buttons from the cardboard without removing the buttons from the string.

Where are the solutions? Well, you can work them out for yourselves. Your friend,
Frank I. Solar.

Prize Winning Puzzlemakers

Every one liked the puzzle contests so well that we're going to have another Toolcraft contest soon. I'm going to give away some knitting machines for making scarfs, caps, and many other things.

Those who won prizes in our puzzle contest are: Harold Buckholz, Hill City, Ida; John Petrus, Monaca, Penn.; Hugh Connor, Conest City, Mich.; Cole McNally, St. Ignace, Mich.; Roy Bowen, Alma, Mich.; Cyril Reed, St. Catherine, Ont.; Lewis Lory, Blairmore, Canada; Paul Beyer, Duchesne, Canada; Joseph Pock, McKays Rock, Penn.; Marvin Higley, Ann Arbor, Mich.; Albert Venhuizen, Manhattan, Mont.; Edward Hill, Birch Run, Mich.; William Carlson, Jackson, Wis.; James Murphy, Detroit, Mich.; Joseph Symaszyk, Hamilton, Ont.

Watch this paper for the new contest.

Visual Education on "Use of Films and Slides in the Teaching of Literature"

The subject was well handled and very instructive.

Miss Ethel M. Wakefield, senior class adviser, gave the class of 1923 a three course breakfast Saturday morning at 9 o'clock at the Alpha Xi Delta house. The guests were served by the freshmen girls of the house at five tables with

Cecil Brunned roses as the centerpiece of each.

In addition to the places for the senior class, plates were laid for Mr. and Mrs. Earl R. Douglass.

The boys' division of the sophomore English class presented the play, "Box and Cox," at assembly Tuesday morning. It was a very clever production. The characters were especially fitted for their

parts and were received very enthusiastically by the audience.

The cast was as follows: James Cox, journeyman hatter; Clemens Hayes, John Box, journeyman printer; Mrs. Bouncer, landlady; Ard Hoven, Llewellyn Ross.

P. L. Spencer, head of the mathematics department in this school,

Commencement Exercises Held
Colonel Willoughby Speaks
Many Teachers Resign
New Instructors Coming

The commencement exercises of the class of 1923 were held at the Christian church on Friday evening, June 1. The program was as follows:

Processional, Festival March
Mrs. S. E. Stevens
Serenade
Alice, Kerr, Clare Whitton
Marguerite Stanford, Martha Hall, Donald Ostrander, John Scott, Arthur Gray
Violin Obligato
Edward Best
Invocation
Dr. E. V. Stevens
Vocal solo, Thank God for a Garden
Clare Whitton
Address
Norman F. Coleman, president
L. L. L. L.
Violin solo, Meditation from Thais
Edward Best
Recommendation of class
G. E. Finerty, principal
Presentation of class
E. F. Carleton, superintendent
Presentation of diplomas
Dr. P. J. Bartle
Recessional
Mrs. S. E. Stevens
Diplomas were presented to 106 graduates. They are as follows:

College Preparatory Course
Abad, Sancha Graciara; Addison, Claude F.; Bailey, Glen Edwin; Baker, Perry A.; Barford, Harry Francis; Benson, Edith Selma; Buehler, Vida Leah; Burton, Helen Fawn; Burnett, Mary Frances; Calkins, Grace S.; Christensen, Ferdinand N.; Clark, Allan Gordon; Cockburn, Alfred R.; Conklin, Harold Edward; Coppenhaver, Edith Lucille; Devaney, George W.; Evans, John; Tennell, Nellie Evelyn; Fleming, Robert E.; Gilbert, Helen Gladys; Goss, Arthur L.; Greenfield, Russell Garison; Griffith, John Garland; Groshong, Carroll Orvin; Hall, Roger Bradbury; Harbaugh, Lullie Leone; Hartung, Donald Edwinton; Hayden, Wallace E.; Hill, Eloise; Horton, Lela Katherine; Horton, Margery O'Neal; Igou, Dorothy Bernice; Inskip, Irene Josephine; Inman, Lois Margaret; Johnson, Vera Mae; Johnson, Victor Edwin; Keeney, Russell Clinton; Keltner, Vivian Alice; Kingman, Orville Arthur; Knox, Evangeline; Lord, Charles M.; McBee, Chloie; McComack, Gladys A.; McDermott, Grace E.; McIntyre, Hazel Louise; Mevick, Ethel Louise; Miller, Paul Oran; Milne, Wilbur L.; Morris, Alice E.; Morris, James M.; Noss, Ida Selma; Nelson, Catherine; Parker, Daisy Belle; Parker, Norman J.; Perry, Doris Louise; Phelps, Florence Rose; Phetteplace, Eva Alice; Potter, Grace Evangeline; Rapp, Andrew Lee; Richmond, Ruth Eleanor; Rose, Mary Elizabeth; Riddle, Charlotte Jane; Rumford, Dale W.; Schaefer, George Francis; Shetty, Charles Francis; Spurgin, John Palmer; Taylor, Edward Dreskell; Taylor, Grace Arnes; Thompson, Orville D.; Townsend, Ina G.; Tretheway, Jack; Weedon, Myrl E.; White, Nathan L.; Wilde, Idyle Aleeste; Winchell, Gail; Wycoff, Archie P.; Wynd, Lyle.

General Course

Bessen, Minnie L.; Chase, Dorothy Mable; Coombs, James W.; Edmundson, Malcolm Walfis; Fowler, Thelma; Hoppe, Erwin E.; Koepf, Alma V.; Komp, Vernita Mae; Lamb, Vashti Lucille.

PULLMAN PAPER WHEEL

NO LONGER IN SERVICE

Real Value Lay in Deadenng
Sound Under Cars

IN COMMISSION 25 YEARS

In Manufacture of Paper Wheel
Common Strawboard Paper
Was Pressed in Layers

(Correspondence of Associated Press)

CHICAGO, May 2.—The paper car wheel that intrigued the imagination of American years ago, and which once served on every Pullman car, is now only a memory, according to the Pullman News.

The steel wheel, has succeeded the paper cored wheel in every instance.

The public's idea, back in 1880, that the paper wheel's superiority was that the paper center would not be susceptible to the expanding and contracting influences of heat and cold was a misapprehension, as the real reason for its value lay in the deadening of sound under passenger cars, particularly Pullmans. It was successful for 25 years and then the all-steel wheel began to take its place, until today there is not a paper cored wheel on any Pullman car, according to the News.

Strawboard Paper Used

In manufacturing the paper wheel common strawboard paper, such as butchers formerly used to wrap meat in, was needed. At first 16 sheets were placed together, dampened, pressed and baked. Three sections, or 48 sheets, were then pressed together and dried for from 20 to 30 days in a kiln. The final process was to take four sections of 48 sheets or 192 and press them together. This made up the block from which the wheel was made and it was allowed to dry in the kiln six months.

All that then remained was to turn this block on a lathe until it attained the desired spherical form. This paper center would be incased in a steel tire and sides, the latter being clamped together. A 38-inch wheel with a three-inch tire weighed about 1070 pounds. The present Pullman all-steel wheel, of which there are 12 under each car, is 36 inches in diameter and weighs 925 pounds.

PAPER MARK DESPISED

GERMANS SHOW CONTEMPT FOR SHINPLASTER

(Correspondence of Associated Press)

HAMBURG, May 6.—Contempt for Germany's depreciated paper money seems to grow daily, and the public has lost sense of its value.

A gust of wind recently blew five one hundred-mark-bills from the counter of a local marketman. A courteous woman picked up the bills and offered them to the owner.

"Keep them," the man remarked gruffly. "What can I do with 500 marks?"

Although 500 marks at the present rate of exchange are worth only about two American cents, they are the cost of two street car rides in German cities, and will buy three stamps for letters mailed within the German republic.

Why We Advertise

For the same reason Banks, Churches and Stores do—to let the ever-increasing population know we are on the map and ready to serve them. We have good dentistry to sell. Old residents here know of our good work. Newcomers ought to get acquainted with us. If you don't know us, come and see us. We treat you right.
