What Co-operation Has Done

Little more than half a century ago, Gustav F. Swift borrowed \$20 from his father and started in the packing business.

Hard work on his part and on the part of the associates whom he presently gathered about him caused the business to grow.

When first incorporated, Swift & Company had six shareholders. The nation was growing and needed meat, and the young company grew also. As more money was needed the business was enlarged by enlisting the co-operation of more shareholders.

The first little plant at Barnstable, Mass., has given way to 23 modern packing plants strategically located. More than 400 branch houses and 600 car routes distribute the meat carried in more than 6,000 refrigerator cars.

Today Swift & Company's service in meat to retailers here and abroad represents the effort of nearly 100,000 people co-operating with their savings or daily toil.

More than 45,000 men and women have co-operated with us by investing their money in shares of Swift & Company.

Nearly 50,000 men and women who work in these offices, plants and branch houses—16,000 of whom also are shareholders—are giving us their co-operation in building the business. They take a just pride in the promptness and precision of its service and in the uniformity and high quality of its products. Swift's Premium Hams and Bacon, "Silverleaf" Brand Pure Lard, Premium Frankfurts and other Swift products are symbols of their hearty co-operation and of their belief in the Company.
