DOCTORS WANTED TO OPERATE Mrs. Quillon Tells How Lydia E. Pinkham's Vegetable Compound Saved Her from an Operation

Muskegon, Michigan—"After doctoring for eight or nine years with different physicians without any relief at all, they said at last that medicine would not reach my case and I should have an operation. I had heard of Lydia E. Pinkham's Vegetable Compound and often saw it advertised in different papers where some women had suffered just as I did and got well and strong again by taking the Vegetable Compound. I decided to see what it would do for me, and before I had finished the fourth bottle I was much better, the weakness stopped and the severe pains in my sides left me. I am now much stronger and do my own work and work in the factory besides. I am still taking the Vegetable Compound and give it all the praise."—Mrs. NETTIE QUILLON, 17 Morris St., Muskegon, Mich.

Women should heed such warning symptoms as bearing-down pains and weakness, for they indicate some female trouble, and a persistent and faithful use of Lydia E. Pinkham's Vegetable Compound will seldom fail to help.
