SUNBURN

If your skin is so tender that you expect sunburn, rub it with Vicks before exposure. After sunburn, apply Vicks gently—do not rub in. It soothes burn and often averts blisters. For any outdoor vacation, Vicks is "standard equipment." It cures attacks of hay fever, asthma, catarrh and summer colds. Fine for sore feet, too.

I had only taken two bottles when I began to be better, and my back did not hurt me nor my head ache. I felt like a new woman. The Vegetable Compound is a splendid medicine and I will always recommend it."—Mrs. A. D. EARLS, 630 N. 5th St., Olean, N. Y.
