

RUING ON FILIPINO CRISIS EXPECTED SOON

For Definite Status Is
Cited By Politician

BLE SENT TO HARDING

Reference by Governor Wood
to the Associated Press.

WASH., July 18.—The next
in the political crisis that
has gripped the Philippine
island at all its leading Phil-
ippine officials is expected to come
in Washington.

It is understood that the cable
to President Harding, which was
sent under the auspices of both
houses of the legislature, also re-
minds the chief executive of his
statement some months ago to the
Philippine independence mission
that there would be no backward
step in the local government of the
islands.

Delegate May Be Sent
The legislature also is consider-
ing sending a special delegate to
Washington to lay before the Pres-
ident the Philippine side of the case.

Governor General Wood has
issued no statement here since he
accepted the resignations of the
members of the cabinet and the
council of state. However, he has
cabled his version of the affair di-
rect to Secretary of War Weeks.

Question today made a statement
to the Philippine people generally
urging them not to organize dem-
onstrations here or in the provin-
ces, since such action might lead
to collisions between Americans
and Filipinos.

With the resignations of the de-
partmental secretaries the admin-
istration of the different govern-
mental branches devolved on the
under-secretaries, who automati-
cally became acting chiefs and ev-
erything apparently is functioning
smoothly.

The press received the news of the
climax quietly and urged in an
appealing way to the people to main-
tain calm.

It is believed that the attention
of the government here, in the
resignations of members of the
council of state and depart-
mental secretaries, is directed to
the Philippine people.

It is believed that the attention

ROCK QUARRY IS LOCATED

MATERIAL MAY BE TAKEN OUT
FOR ROADS NEAR MAPLETON

Section of Highway Between There
and Tilden Rock Used as
Pleasure Boulevard

A good quarry of rock where a
crusher may be set up to supply
surfacing material for a number
of roads in Western Lane county
was located by County Commis-
sioner Ernest Sharp, who made a
trip to Mapleton this week. Work
of grading is almost finished on
the section of the highway between
Mapleton and Tilden Rock, a dis-
tance of ten or 12 miles, and as
this is the first real highway ever
built around Mapleton the road-
side of that town who own cars
drive up and down the short
stretch at every opportunity, said
Commissioner Sharp. As high as
speed 30 miles an hour can be
made on this section, he said.

Tom Cullen, the road supervisor
there, has had charge of the work
and has done an excellent job, the
commissioner asserted.

Commissioner Honey and County
Engineer Morse went further on
down the highway to look at roads
and bridges. They will arrange
for the clearing of slides on the
newly constructed grade between
Cushman and Florence.

With no trouble the paving
should be finished in about 30 days
it is thought although handicaps
may prolong the work for another
30 days. When the work is com-
pleted the new paving along Moss
street and Fairmount boulevard
will total about 2000 feet.
