SAVED FROM AN OPERATION

Now Recommends Lydia E. Pinkham's Vegetable Compound

Washington, D.C.—"Lydia E. Pinkham's Vegetable Compound saved me from an operation which a physician said I would have to have for a very bad case of female trouble. My system was all run-down for two years after my little girl was born. Then I read of your wonderful medicine and decided to try it. I could hardly drag one foot after the other, and after taking six bottles of the Vegetable Compound I felt like a new woman. I now do all my housework, also washing and ironing, and do not know what real trouble is. My health is fine, and I weigh 140 pounds. When I started taking it I weighed 97 pounds. I gladly recommend Lydia E. Pinkham's Vegetable Compound to any one who is suffering from female trouble or is run down. You may use this testimonial for I am only too glad to let suffering women know what the Vegetable Compound did for me."—Mrs. IDA HEWITT, 1529 Penna. Ave. S.E., Washington, D.C.

Such letters from women in every section of this country prove beyond question the merit of Lydia E. Pinkham's Vegetable Compound.

Hiding a rash wont heal it

Attempts to conceal complexion blemishes usually fail, and only serve to draw attention to the defects.

Underneath most unattractive skins is a clear, pleasing complexion—all that is needed is the proper treatment. It is surprising how often a brief use of Resinol Ointment and Resinol Soap will clear away blotches, redness and roughness and give the skin its natural freshness and charm.

Ask your druggist for Resinol.

DAILY MARKET REPORT

OREGON JOURNAL MARKET SERVICE

PORTLAND, Ore., July 30.—Extreme steadiness is apparent in the market for butter here. Perhaps the best indication of this is the advance of 1-2c a pound that is being offered for the better class state cube extras with a top of 37 1-2c a pound for the day. Centralizer extras continue as high as 39c.

Immediate future of butter prices here depend upon the attitude of the California trade. Further rise in the southern price will have immediate effect upon values here.

Generally improved undertone has been showing in the cube butter market for several days but the inability of creamery interests to produce top quality stock has kept values from advancing along with the California rises.

EGG TRADE SHOWING STRONG

Market for eggs is showing a strong tone locally with good quality scarce. Quite liberal stocks of poor Idahos are arriving. Selling price on selects is up 1c as forecast. Buying prices of henery whites up 1c.

CHICKEN DEMAND FAVORABLE

While there is an undercurrent indicating a stocked up condition in the trade, there remains a quite favorable demand all through the market for chickens. Ducks continue a drug on the market.

PEACH PRICES ARE LOWERED

Further lowering of California peach prices was shown for the day here with a general top of $1 for fancy Elbertas although some were still inclined to ask as high as $1.10@$1.25. Oregon stock sold from 50c to 75c generally.

EXTREME SHORTAGE OF CANTS

Extreme shortage of cantaloupes is shown in the local trade with an excellent demand for top quality. Watermelons are also very scarce with an advance in the selling price of 4 1-2c a pound.

TOMATOES EXTREMELY SCARCE

For both Oregon and California stock an extreme scarcity of tomatoes is showing along the wholesale way. Fancy Dalles stock is still selling in a limited way as high as $2.25 per box. Much No. 2 stock is being offered at $1.75@$2.00.

SUGAR DROP IS MOST SEVERE

An extreme cut of 50c per hundred pounds was made by Portland wholesale grocers at the opening Monday in answer to a similar cut made by Pacific Slope refining interests. The new wholesale list on best cane granulated is $9 per hundred pounds.

Housewives Glad to Know New Starch Discovery Gives Beautiful French Finish to Garments

* * *

EVERY woman knows how provoking it is to work with starch that forms a thick, sticky jelly when it cools, and smears and clots, and makes your iron stick when you try to iron.

All these drawbacks to easy, satisfactory work have now been overcome with Linit, the new scientific starch.

A New Starch Discovery

LINIT is a scientific starch discovery—distinctly different from ordinary starches. After Linit is thoroughly dissolved, according to directions and is ready for use, you will notice it is THIN and FREE-RUNNING LIKE WATER—with a "milky" appearance.

Be sure to use Linit according to directions, and unlike other starches, you will not find Linit stiff or jelly-like. This is why Linit goes much further than the old-fashioned kind of starches, and is much easier to iron with.

Linit penetrates the fabric, helps prevent wear, and prolongs the life of the material.

You will be interested to know that Linit was originally developed for the use of the great Fabric Makers to give that smartly fashionable finish now so much in vogue.

With Linit you can keep your shirt waists looking like new. The children can have their garments finished in the daintiest style, equal to the most beautiful French finish.

Linit is sold by all grocers, 10c

—Perfection in starching is guaranteed or your money refunded.

Linit is made by the Corn Products Refining Company—makers of the famous Argo Starch—Karo Syrup and Mazola Salad and Cooking Oil.
