The Pride of Every Woman

HAVEN'T you often wished that the kiddies' clothes and the table-cloths, curtains, and other wash fabrics wouldn't soil so easily?

Your wish can be realized! Starch with Linit—the remarkable new starch.

Now, for the first time, it is offered to the housewife. With Linit you can get the same wonderful finish you have always admired in goods that come direct from the store.

Linit gives a soft, cool, pliable finish to your garments. And you will find your Linit-starched clothes and fabrics remain clean and fresh much longer. Also, Linit makes even ordinary cotton goods look and feel like expensive linen.

Important to You LINIT makes a THIN "MILKY" MIXTURE, free-ringing like water, which is quickly absorbed by the fabric, thus saving the time and labor of "smearing on", which was customary with old-fashioned starches. The Linit mixture does not present the stiff, jelly-like appearance of ordinary starch. This is why you will find it much easier to iron with Linit.

Your grocer now has Linit, 10c

—Perfection in starching guaranteed or your money refunded.

Linit is made by the Corn Products Refining Company—makers of the famous Argo Starch, Karo Syrup and Mazola Salad and Cooking Oil.

FACE BROKE OUT WITH ECZEMA

In Red Pimples, Itched and Burned, Cuticura Heals.

"My face broke out with eczema which was in the form of large, red pimples that entirely covered my face. It itched and burned so that I scratched the pimples and caused great disfigurement. It bothered me so at night that I lost many hours' sleep. I tried various remedies but without avail. I read an advertisement for Cuticura Soap and Ointment and sent for a free sample. Let's I purchased a cake of Soap and one box of Ointment which hadled me." (Signed) Miss A. Ches-brown, 216 Adam St., So. Bend, Wash. Use Cuticura for all toilet purposes.

OREGON JOURNAL MARKET SERVICE PORTLAND, Ore., Aug. 6.—All through the butter trade a very favorable tone continues in the Pacific Northwest, but under score stock retains a dragging disposition in the California territory. There was no change in price here for the week's opening, both cables and prints being held at full figures for various causes.

With decreased output of butter as is seasonable for this period of the year, leading contractors announced that their entire production was being placed in prints. Therefore their cubes were removed from the market and only nominally quoted.

This gives practically a clear field in the cube market to the state production. Sales of state extras were confirmed as high as 39 1/2¢ per pound during the day, but business is still shown at 39¢.
