WALKER FILES ANSWER

SAYS PLOTS DID NOT PAY OUT AS MUCH AS CLAIMED

Walker says in his complaint that the evening of the fourth of July a party was celebrating by placing torpedoes on the Oregon Electric track; that the plaintiff being a railroad fireman, saw the placing of the torpedoes and if there was any danger he knew of it; that he placed and maintained his little girl in close proximity to the place where the torpedoes were put on the track. The defendant asks that the complaint be dismissed and that the recover his costs and disbursements. S. D. Allen is his attorney in the case.

BEETS VERY NUMEROUS

TONS OF THEM ARRIVING AT LOCAL CANNERY

Tons and tons of beets are being landed at the cannery of the Eugene Fruit Growers' association these days. Three-fourths of the crew at work in the packing plant is handling this vegetable while the other fourth is handling string beans which are still arriving in large quantities. These products are greater than the capacity of the plant and the surplus is placed in cold storage until such a time as they can be handled. Bartlett pears soon will be coming in, according to those in charge of the cannery work. The pears are now about ready to pick and some are expected to arrive in a couple of days. The pears are always picked green and are allowed to ripen after being placed in cold storage at the cannery. The crop is fine this year, says the growers.

TO BUILD MORE HOUSES

PERMITS ISSUED IN ONE DAY FOR THREE

August promises to be one of the best months of the year for building activities, according to W. H. Alexander, city building inspector. Yesterday permits for three new residences and one to remodel a residence were issued by him. R. R. Elmore took out a permit to erect a new dwelling at 1281 Washington street at an estimated cost of 2000. Mrs. Hilda Marshall has started the erection of a new home on Moss street, between Seventeenth and Alexander, city building inspector. She obtained a permit. She estimates the cost at \$2750. Charles Smith was granted a permit to build a residence at 960 Patterson street at a cost of \$2700. M. G. Dunn will remodel his residence at 851 Ninth avenue west, and build a garage at 851 Ninth avenue west, according to a permit issued.

DR. F. E. SOLIVER HAS RETURNED

Dr. F. E. Soliver has returned after visiting with his brother in Seattle and taking a much needed rest and can be found in his office from 2 to 5 p. m. Night and day calls attended promptly. Temporary residence Hotel Osburn, room 806. 8-21-6

EUGENE COMPARES WELL WITH OTHERS SAYS MAYOR

City's Executive Visits Municipalities in Northwest

ALL CARRY INDEBTEDNESS

Parks and Family Arrive Home From Six Weeks Trip Through Washington

Eugene compares very favorably with all Washington and British Columbia cities of its class as to public improvements, business buildings and everything else and exceeds quite a number of them, said Mayor E. B. Parks, who with his family arrived home yesterday from a six weeks' motor trip through the Northwest. The mayor and family drove leisurely through the western part of Washington and into British Columbia and stopped at each of the larger cities and those in Eugene's class just to see how they are governed and to note the public improvements. He said that in each city he was entertained by the mayor and other officials who seemed to be glad to show him what they had. The mayor said he obtained statistics on the public debt and cost of conducting the different departments in each of the cities he visited and found that most of the smaller cities have a greater bonded indebtedness than Eugene and the debt of the larger cities was large in proportion. "I am more than ever pleased with Eugene and its city government," said Mayor Parks in making comparisons. "We hear a lot about our debt and our high taxes but we are not nearly as bad off as some of the cities I visited on my trip, and as for beauty and cleanliness we have some of them beaten a city block."

The mayor and his family, consisting of Mrs. Parks and their son, Lawrence, and daughter, Dorothy, ferried their car across the sound to Victoria and drove over the excellent highways in that part of British Columbia. They found pavement all the way from Eugene to Vancouver, B. C., with the exception of the short stretch in Linn county, Oregon, and a detour in southern Washington. Upon returning to Oregon the party stopped at Seaside for a week and a similar length of time at Newport.

ROTARIANS ARE HOSTS

LOCAL CLUB HAS ENTERTAINMENT FOR GUESTS

About 75 Attend Event Held at Osburn Hotel Last Evening With Visiting Members Present

Rotarians of Eugene and members of their families and guests to the number of 75 attended the dinner and entertainment of the local club held last evening at the Osburn hotel. Among the guests of the organization at the event were R. O. Snelling, president of the Salem Rotary club and Al Pierce, also a Rotarian from the Capital City. R. A. Booth, president of the Eugene club, presided at the entertainment session and the initiation ceremony during which two new members were enrolled in the club. L. B. Stewart and E. Kennell are the new Rotarians who were added to the rolls of the club. The initiation ceremony was held under the direction of Mr. Booth and E. U. Lee, secretary. One of the entertaining features of the evening was the presentation of a series of impersonations, songs and recitations by Jerome Shaffer, of New York city, who was the guest of the club at the event. The gathering also joined in the singing of the American flag. Carl G. Washburne was in charge of the arrangements for the affair. The palm room was decorated with the symbols of Rotary and American flags. The regular luncheon meeting of the club that was to have been held today has been postponed.

HUNTERS HAVE POOR DAY

DEER HARD TO GET IS REPORT OF WARDEN

Lane county deer hunters started the season with a poor day for the big game judging by the reports of those who started out on the opening of the season. Ed S. Hawke, the county warden, who made a trip yesterday through the tracts where the hunters are wont to gather each year, stated that he saw several parties but that no deer had yet been brought down. The extreme dryness of the timber makes for the safety of the deer and the misfortune of the hunters, according to the game warden. Two deer were reported killed on the Sluslaw. Pat Johnson and Bob McLean being credited with bringing down the bucks.

THREE STREAMS GET FISH

THREE HUNDRED SIXTY THOUSAND ARE LIBERATED

Three hundred sixty thousand fingerling rainbow trout were liberated in Big and Little Fall creeks and Winberry creek, in Lane county, yesterday. The trout were transported to the streams by the state game and fish department from the hatchery on the McKenzie near Vida. Each stream received 120,000 of the fingerlings, which are expected to be large enough to catch in two or three years. The trout were liberated in Big Fall creek above the Wambold place, nine miles from its mouth, and those in the other creeks further down.

LOGGER DRINKS ALCOHOL

LEGS SEEM TO BE PARTIALLY PARALYZED AS RESULT

In a bad shape physically from the use of denatured alcohol as a beverage, Knute Anderson, who says he is a logger from Wendling was brought to Eugene yesterday from Springfield by Deputy Sheriff Van Svarverud and locked up in the county jail. A big bottle about half full of the poison grog

NEW GUARD UNIT URGED

PROPOSAL MADE TO ORGANIZE ANOTHER COMPANY

Major W. G. White Reports That Matter Will Be Taken Up at Next General Staff Meeting

Efforts to have an additional national guard company organized in Eugene are proposed and the plan will be taken up at the next meeting of the general staff, is the announcement of Major W. G. White, commander of the first battalion of the 142nd Infantry. Major White believes that the present interest manifested in the national guard here indicates that the enlistment of another rifle company is feasible. There are ample facilities at the armory for the proposed unit and a strong endeavor will be made to obtain favorable action at the general staff meeting which is to be held in the near future, the major states. The three units of the guard organized here, Company C, the Headquarters company of the 162nd Infantry and the medical detachment of the 162nd Infantry are recruited to practical full strength, Major White reports, and he states that he believes that the necessary enlistments for the proposed company could be easily obtained. The proposal of organizing another rifle company here was made last year by Major White but no action was taken at that time but it is his opinion that the record of the Eugene guard units in enlistments and the support that the organizations are obtaining here will be factors that will aid in the co-operation of the general staff in the organization plan. After attending the annual state national guard shoot held at the Clackamas range the Eugene gunners with the exception of Captain Lawrence Jensen, of Company C, have returned here. The local guardmen who returned are Sergeant Jack Van Duyn and Private Walter Scott and Sales. Captain Jensen was the high runner of the local team and was ordered for the Oregon team that will enter the annual national shoot to be held at Camp Perry, Ohio.

ROAD JOBS GOING AHEAD

CONSTRUCTION IN SOUTHERN LANE IS INSPECTED

Three Miles of Coarse Rock Laid on Cottage Grove-Lane Highway Route

Three miles of the Cottage Grove-Lane highway has been covered with the base rock, according to P. M. Morse, county engineer, who with J. N. Koney and Emmet Shary, county commissioners, inspected the construction work yesterday. The Warren Construction company, which has the contract to macadamize this section, is making good progress with the work, said the engineer. The county officials also inspected the work of resurfacing the Cottage Grove-Row highway. The county has a crew at work grading the road up to a crown and spreading rock. The work was started two miles east of Cottage Grove and is being carried on toward the city. The work is being done on the Cottage Grove-Lane highway, said the engineer, and good headway is reported. On this job slag from the dump at the Black Butte quick-silver mine is being used as surfacing material. It is obtained free for the hauling and the county officials say it is good surfacing material.

PLANT TO ADD NEW HOIST

LOCAL CONCERN TO INCREASE GRAVEL OUTPUT

Installation of additional mechanical equipment at the plant of the Eugene Sand and Gravel company at the end of High street at the river will increase the daily capacity of the plant from 250 yards a day to about 350, according to J. R. McKy, one of the owners of the plant. The new machinery will be ready for operation about September 1, is the announcement. A new cable hoist operated by a 100-horsepower motor is being installed and work will start on a bar in the river below the plant where it is estimated that about 60,000 yards of gravel are available. The plant has been drawing the gravel from a bank on the river above the hoist at present, according to Mr. McKy.

VETCH SEED IS SHIPPED

FIRST CARLOAD OF SEASON IS SENT OUT

Shipment of the first carload of vetch seed of the present year from Lane county is being made from the Trangers' Eugene warehouse, according to the report of W. R. Lord, manager. The seed is consigned to a Portland concern for distribution. The vetch is now coming into the plant here and expectations are that at least three cars of seed will be shipped out this season, the manager states. Work is in progress at the local warehouse to provide additional facilities to handle the crops of the association this year, is the announcement. The grain cleaning capacity of the plant is about doubled in this season in expectation of a big year. Mr. Lord states, new equipment having been added for this purpose.

NEW MILL WILL OPERATE

SCHULTZ BROTHERS TO START CUTTING NEXT WEEK

Work on the installation of the new Schultz sawmill near Fall Creek in Lane county is progressing and expectations are that the plant will be ready to start operations within the next week, according to the report of the owners, R. H. and A. R. Schultz. About eight or ten men will be employed at the plant when sawing starts and it is expected that the force will be increased later, is the report. The Schultz brothers recently purchased a tract of timber in the Fall Creek district and the sawmill equipment has been shipped here from Portland. Timber for at least a run of a year is available and the plant will be in operation throughout the winter, the owners state.

SHOWER IS SURPRISING

FEW EXPECTED RAIN FROM YESTERDAY'S CLOUDS

A shower of rain beginning about 8 o'clock last night and lasting for an hour or more came as a surprise. It was a surprise because the reason that ever since the big rain during the fore part of July the weather has appeared threatening at frequent intervals without showing any signs of moisture and it was presumed that the clouds and wind yesterday were another false alarm. While the farmers do not welcome the shower at this time, an account of their being in the midst of their grain harvesting the forecasters say it is a good thing as it will quench the few fires that have appeared in the mountains. It is not believed by local weather sharps that the moist period will be of long duration. About midnight rain fell quite heavily, and there was some thunder and lightning. The temperature was in the 50s. Possible showers are predicted today by the weather bureau.

STREET WORK TO START

WILLAMETTE WILL BE RESURFACED THIS WEEK

Street Commissioner Reports If Present Plans Work Out Job Will Be Completed in Few Days

Work on the resurfacing of Willamette street and the regrading of the gutters will probably start next Friday, if present plans materialize, according to a report of C. E. Farmer, commissioner of streets. The street is to be resurfaced from Fifth avenue to Eleventh avenue, and it is expected that two blocks will be completed each day. The blocks from Sixth avenue to Eighth avenue will be resurfaced first and the gutters will be brought up to grade and provide better drainage, is the report. Although traffic will not be interfered with during the work, drivers will be prevented from parking during the day until about 4 o'clock in the evening in order to allow the asphalt to harden. The parking order will be in effect starting at seven A. M. the street commissioner states. Plans will be first thorough resurfacing of Willamette street since the present pavement was laid, Mr. Farmer reports. Many of the gutters, owing to the motor traffic, have been cut up badly, and the sewers have not been stopped in several places. The blocks from Eighth avenue to Tenth avenue will be resurfaced the second day after the work starts.

DRIVERTON LOTS TO BE SOLD TO HIGHEST BIDDER

Charles S. Austin, of Barry and Austin, of Portland, arrived in Eugene yesterday to handle the sale of 10 lots at 33 Ninth avenue west, where preparations are being made for the auction sale of Driverton home sites to be held on September 1. Mr. Austin will be here until the sale is completed. The Driverton auction will be the first auction sale of real estate ever held in Eugene, and for that reason is expected to be of more than usual interest. "These lots," says Mr. Austin, "will be sold absolutely without reservation to the highest bidder, which means that a lot of people are pretty sure to get home sites for considerably less than their ardent worth. We conducted a similar sale at Gearhart recently, and many of the lots there went for under their real value."

GOLF COURSE DISCUSSED

DIRECTORS RECEIVE REPORTS ON PROGRESS

Reports on the progress of the new golf course of the Eugene Country club and the enrollment of members under the new plan were discussed at a meeting of the board of directors of the organization held last evening at the chamber of commerce. W. K. Newell reported that work on the new course was progressing and that seeding would be under way within the next few days. Memberships in the new club are coming in fine, according to the reports of the club officials. The matter has been reached as yet concerning the present club grounds on South Willamette street as it is not expected that the new course will be ready before the spring, is the report.

GIRL WILL BE ADOPTED

SPRINGFIELD COUPLE TAKES CHILD MENTIONED IN STORY

The story in Sunday morning's Register about the mother of a three-year-old girl wanting to give the child to someone for adoption brought a flood of inquiries to the police station yesterday, according to Mrs. Grace Schieka, acting police matron, and the child was given into the temporary custody of a couple at Springfield. It was stated that if the child was to be taken to adopt it, but if not there are plenty of other applications for the lot, said Mrs. Schieka. The mother appeared at the police station Saturday and stated that her second husband did not like the little girl and to avoid friction they had decided to place her out for adoption.
