2 MORE WOMEN JOIN THE ARMY
Of Those Who Have Been Restored to Health by Lydia E. Pinkham's Vegetable Compound

Milwaukee, Wis.—"I had a bad pain in my left side and I could not lift anything heavy without having a backache. I tried different things. Then I saw Lydia E. Pinkham's Vegetable Compound advertised in the newspapers and began taking it as the directions said. I feel very good now and can do all my work."

I recommend the Vegetable Compound to all my friends and you can see my testimonial letter."—Mrs. BEATTIE WATSON, 870 Garden St., Milwaukee, Wisconsin.

Gained in Every Way
Buffalo, N.Y.—"I had some female troubles that just run my health down so that I lost my appetite and felt miserable all the time. I could not lift anything heavy, and a little extra work some days would put me in bed. A friend had told me to try Lydia E. Pinkham's Vegetable Compound and I gained in every way, could eat better and felt stronger. I had found nothing before this that did me so much good."—Mrs. J. GRACE, 291 Wolts Avenue, Buffalo, N.Y.

Christian church. Pastor Bates, who has been absent so long and has been ill the past two weeks, will occupy the pulpit. It is desired that a large audience respond to greet the pastor.

CRESWELL NEWS NOTES
(Register Lane County Special)

CRESWELL, Ore., Oct. 19.—Mrs. F. D. Lacey went to Albany Thursday to attend the synodical meeting of the Ladies' Missionary society of the Presbyterian church.

Guy Stone, of Portland, and Mrs. Leon Bitterton, of Portland, came up Thursday evening and are the guests of Mr. and Mrs. C. E. Leabo. They were visitors at the social hour of the Star Thursday evening.

Mr. Stone has just finished installing a large ice plant and ice cream factory at Astoria.

The barber shop of L. R. Smith was entered Thursday evening while he was away at supper and his bill was for a couple of dollars. A small boy was seen around the shop about that time, but his identity was uncertain. No tools or other valuables that were near were molested, so it is evidently the work of an amateur just learning the trade.

Apple packing is the occupation of almost everyone available for work. The Fairview orchards will have an estimated output of ten thousand boxes of apples, averaging about 75 per cent of the orchard run. Ten carloads have been shipped from Creswell. Three were loaded Thursday and six cars have been ordered. The processor shipped a carload of prunes this week.

Miss Lou Scott, of Alturas, Cal., arrived Thursday and is visiting her parents, Mr. and Mrs. J. P. Scott.

LORANE-COTTAGE GROVE ROAD IS GREAT FIZZLE

Much Buck-Passing Indulged In By County Officials

ALL WORK THROWN AWAY

Rock Spread on Carried Roadbed of This Highway Has Completely Disappeared in Mud

(Register Lane County Special)
COTTAGE GROVE, Ore., Oct. 17.—The controversy over the manner in which the county court permitted the rock to be laid upon the Lorane-Cottage Grove road seems to have developed into a game of passing the buck on the part of Commissioner Sharp, with Commissioner Roney, no doubt, on Sharp's side and County Engineer Morse apparently on Sharp's side, although in a private conversation with citizens of Cottage Grove and Lorane held on the streets of Cottage Grove after the laying of the rock had been completed, Morse expressed the opinion that a grave error had been made in laying the rock on an unrolled roadbed without rolling the rock as laid.

County Judge Barnard evidently maintains the position which he has consistently held from the first, that rock laid on a dirt road for traffic to work in is money thrown into a rat hole, which is about what the Lorane road has become.

Road Has Gone to Pieces
Despite the repeated statements of Commissioner Sharp that the Cottage Grove-Lorane road was standing up splendidly and that its location was a great improvement, people would rise up in the spring to call the county court blessed, the fact is that the rock on this road has disappeared in the mud and the county court is trying to save what is left of the road, if not its face, by closing the road for the winter—and this comes within a few days after Commissioner Sharp pooh-poohed the idea of the road going to pieces.

The facts in connection with the Lorane road are briefly these: A delegation from Cottage Grove and Lorane secured the promise that they could have whatever kind of road they wanted. They demanded a waterbound macadam and such was promised them.

At the time the laying of the rock was started it was reported in Cottage Grove that the roadbed was not being rolled and that the contractors had no instructions to roll either the roadbed or the rock.

Elbert Bode, who was chairman of the delegation which had called upon the court, immediately got Mr. Sharp upon the phone and he assured the residents of this section that the promise which had been made would be kept.

At the time the delegation to this time the same delegation that had asked for a real macadam road, and had been promised such a road, had requested that the former request be disregarded. He seemed to know nothing about such a request at the time of the telephone communication, when he gave reassurance that his promise would be kept. Residents here think it rather odd, to use milder terms than those in general circulation, that a request for a road should be so firmly impressed upon his mind now when he had no recollection of it at a time that was nearer the time at which he now states such a request was made.

People Opposed Method Used At the time that the delegation visited the county court and received the promise of a real macadam road, Mr. Sharp stated that if the people of this section would permit the laying of loose rock on a loose grade the traffic of the winter would make a macadam road as pretty as any to be found anywhere. Against the expressed wishes of the residents here and contrary to their own promise, the county court tried to make a macadam road by that method and now develops that the residents of this section were correct, when they stated that a road could not be built by that method. Now that the road has been built by

the method which Mr. Sharp recommended, the water which opinion Judge Barnard did not concur and against which the delegation protested in no uncertain terms, Mr. Sharp now states in a news story in the Register that the people who used the road (in order to build a road by the method which Mr. Sharp suggested) are to blame for it all.

Commissioner Sharp has publicly stated that the county's road roller and water wagons were sent to the job and that the rolling and wetting of the grade and rock would have proceeded except for the request of residents of this section that their former request be disregarded. Mr. Sharp has refused to answer an inquiry as to who asked to have the request disregarded, but as to the presence of the roller and the water wagons, the facts are that the roller and the wagons were nowhere near the road until after all or a larger part of the rock had been laid, when the use of the roller and the wagons would have been useless.

Facts of Conversation Set Forth
County Commissioner Sharp gets County Engineer Morse to reply to the demand for the names of those who asked that the demand made by the citizens of this section, to build a road by the method which Mr. Bode and several others were the ones who made the request. Mr. Morse sets the date that such a request was made as on or about October 3.

The facts in regard to this conversation are that the laying of the rock on the road had been completed at that time and that the meeting to which Mr. Morse referred was one of indignation, rather than of approval of the course of action at that time, to use the roller and the wagons and those with whom Mr. Morse held the conversation so stated.

Mr. Morse joined with those with whom he held the conversation in condemning the manner in which the road had been constructed, or at least acquiesced in the statements made by those who did condemn the manner of construction.

Mr. Sharp makes much of the fact that it would have cost 30 cents the yard additional to lay the macadam road. The fact is that it would have cost almost nothing more to have let the original contract for such a road, and the further fact is that the road will now have to be rebuilt at an expense much greater than that of the original contract, at the expense of the taxpayers.
