PACKER WILL RESUME

NEW GEARS ARE EXPECTED FOR SNOW DEVICE

New gears for the Eugene-Bend stage line snow packer, with which it is hoped to increase the speed of the device that has been used to conquer McKenzie pass, are expected here day after tomorrow, according to H. C. Hickman, one of the owners.

No stage schedules will be announced however, until the highway over the summit has been placed in condition for the packer. Mr. Hickman said that in two stretches in the pass the snow had been blown off for a distance of about 100 feet and that methods would be employed to keep the snow on the highway.

Experimentation with the packer has cost approximately $3000 to date and both Mr. Hickman and A. M. Reed are sure that the device will be a success. Two trips to the east side and return have been made and the journeys will be resumed just as soon as the new gears are installed in the machine.

Taking the selection of books from a published list, parents, teachers and friends of the Eugene high school last night showered the high school library with a large number of books.

The shower took place at a meeting of the Parent-Teacher association at the high school, following an impersonation of book characters by the Scrap Book club of the institution. The impersonation was a part of the program for the evening.

Members of the high school orchestra opened the program with several selections and were followed by both the boys' and girls' glee clubs. Mrs. T. A. Pearson also sang several songs.

"There are so many things to take the time of all of us now that there is less reading at home," was the statement of Mrs. Eric W. Allen, who gave an address on "Reading at Home." Mrs. Allen said that some effort should be made to get in as much good reading as possible in the limited time allowed by other forms of pleasure of the modern day.

The speaker mentioned motion pictures, following which there was a social hour. Refreshments were served.

Mrs. Lawson G. Bradley, president of the association, presided at the meeting.
