SAVE TIME With A Used Ford Car. In a human body there is stored up just so many units of energy. The units expended in walking are wasted — they can be saved and diverted to some other use. For instance—a man's life's record consists of the things he has accomplished. By speeding up the program and cramming more into the same space of time—naturally the list of accomplishments will be much more impressive. This speeding up process may be accomplished by the purchase of a Used Ford Car and devoting it to business. If greater luxury is desired later, the Used Ford is a good stepping stone. It always has good trade-in value—anyplace. Note These Prices! 1924 Roadster, 5 balloon tires. Auto windshield wiper, park lights, side curtains fine cond. \$325. 1923 Roadster, 5 good cord tires.
