HONOR SOCIETY PLANNED

LIONS TO INVESTIGATE HIGH SCHOOL ORGANIZATION

Club Will Assist In Brattain School Ground Work; New Year Party For Women Scheduled

(Register Lane County Special)

SPRINGFIELD, Ore., Dec. 11.—If investigations to be made by a committee of the Lions club are favorable, Springfield high school students will probably have an honor society, said members of the club today. A committee consisting of F. B. Hamlin and John F. Ketels was named at today's luncheon to look into the standings and prestige of the Torch Honor society, a non-secret organization with chapters in about 100 high schools in the Northwest.

Only such students who make exceptionally high grades in their school work are eligible for membership in the Torch society. Scholastic work counts most in determining who shall be members, and athletics are a secondary consideration. A high standard must be kept in grades during the entire four years of school in order to obtain a permanent badge. The society is rather expensive to maintain, said one of the members, but if it proves satisfactory it is probable that other organizations in the city will assist the Lions in establishing it.

The Lions will aid the Civic club and the Parent-Teacher association in beautifying the grounds at the Brattain school, it was decided at the luncheon this noon. The club will share in the expenses of the work.

A New Year party will be given by the club on New Year's eve and plans for the party were discussed today. The evening will be a "women's night" and special stunts are being arranged for the affair. A surprise stunt is being arranged by John F. Ketels, D. B. Murphy and Vern D. Bain. Herbert J. Cox will also work out a special attraction.

The club approved the work done by the Boy Scout committee of the organization in starting organization of a troop in Springfield. H. E. Maxey, chairman of the committee, made a report.

MR. R. F. CALLAHAN,

Dear Sir:—

Just to inform you that since purchasing the 5-tube Fada of you, I have been very much pleased and gratified with results obtained. I have in three weeks received and verified over the "loud speaker" nearly 100 stations in U. S. and Canada, which I consider marvelous.

I can conscientiously recommend the Fada.

Yours truly,

The Boatman's Pledge

An Indiana barage tender sauntered into the market place at New Orleans one sunny afternoon directly after having sold his cargo of supplies from "up north." He was staggered at the sight he saw, for before him were human beings being sold at auction.

"If I ever get a chance to hit that thing, I'll hit it hard, by the eternal God!" he vowed.

Thirty years later this gaunt, rangy boatman died at the hands of assasins because he had literally "hit that thing hard." And today Lincoln's name is spoken with reverence the world over. Living for a principle, working for a principle, dying for a principle, he has set a high standard to be attained. We attempt to follow his lead, in our little way, in the field of assisting business.

DAILY MARKET REPORT

(Oregon Journal Market Review)

PORTLAND, Ore., Dec. 11.—Egg prices continued their tumbling tactics during the day, not only on the exchange but on the open market.

Receipts are gaining in every direction the result being a general accumulation of supplies which receivers are most anxious to get rid of from day to day. There is no disposition anywhere to keep eggs overnight. Retailers and wholesalers alike view the immediate future of egg prices with much suspicion. Result is that there is no disposition whatever to purchase supplies except for immediate needs.

Despite of all the talk of huge stocks of eggs in storage, the trade here is at a loss to find the owners. Government reports indicate liberal stocks of eggs at Portland, but the best informed men in the trade have for some time been unable to discover them. There is not much demand for storage eggs, but holders appear not overanxious to shade values to a point where carload buyers can operate.

Butter Situation Is Quiet

Practically no change is shown in the local butter market situation. On the dairy exchange cubes were unchanged, although some price shading was shown in spots on the open market. Print prices stationary.

Japanese Oranges Are Down

Price of Japanese oranges did not remain at the scheduled price of $2.25 bundle very long. Within a few hours after their arrival sales were made down to $2 a bundle. Today they are selling as low as $1.75@$2.00.

Smelt Arrive From Columbia

While there have been some limited arrivals of Columbia river smelt by a retailer recently, first offerings by a wholesaler this season were shown Friday. Trade is preparing for a big run next week.

Walnut Market Is Inactive

Unusual dullness continues in the market for walnuts. The retail trade is not buying its accustomed supplies and wholesalers report the smallest volume of orders known at this period of the season. Prices are stationary.

Potato Trade Remains Dull

Trade in the potato market remains very dull, both locally and at primary points. Despite the recent weakness some of the big speculative holders are inclined to believe the market will recover. However, they are unwilling to make further country purchases to back their guess.
