Why We Chose Our Name

Years ago, the founders of the U. S. National Bank had a vision of an institution that would be a helping friend to everyone in this country. They were more interested in seeing Eugene become a thriving, bustling commercial center than they were in building up their own fortunes. So they organized this bank with this definite policy in mind and named it after the most respected, most helpful and most honest organization in the world—the United States Government. And if one were to look back over the intimate history of the U. S. National Bank one would find that never has this ideal been lost out of sight. If you come to us as a new customer today you will know that you are being assisted for that is our foundation policy.
