HOTEL CHANGES HANDS

PORTLAND WOMAN TO TAKE OVER PROPERTY
HARRISBURG, Ore., Dec. 16.—(Special to the Register.)—Hotel Harrisburg is again under new management. The change occurred Monday when Floyd Lawson, a Yoncalla realtor, who purchased this property about six weeks ago sold it to Mrs. L. Dick-erhoff of Portland who at once assumed management. She has had much experience in this line of business, conducting lodging and apartment houses in and near Portland for the past 12 years.

Mrs. Mailla Perdus and her daughters, Miss Lillian and Mrs. Ann Pennoyer, who were employed by Lawson when he obtained the business from Chandler and Fuller, have returned to their former home in Canyonville

where they have business interests. This is the fourth change for the hotel during the past 18 months or less.

The entire line is being rebuilt from Springfield to Albany, and for a few miles south of Halsey will take a new route, passing through the fields of several farms. It is expected that it will take two months to complete the work through the Harrisburg section.

W. F. White is foreman of construction and L. A. Darby in charge of the men who arrived yesterday.

Mrs. Henry Brock and Mrs. Clarence Williams tied for the consolation prize. The women decided to give an oyster supper at the Bussey school house Friday night.

Blasting of rock for the revetment work is still much in evidence but the work is about completed.

Mr. Sam Bevier and son Robert drove to Salem Monday on a business errand.

DAILY MARKET REPORT

(Oregon Journal Market Review)
PORTLAND, Ore., Dec. 16.—Trend of the egg trade continues downward. Despite the efforts of certain interests to stop the advance in prices the sliding process continues. There was a further reaction of about 1c to dozen on the open market for the day, although top stock was unmarketed on the exchange. Mediums were also unchanged as were peewees.

Many complaints are being made by poultry producers regarding the lower values recently forced in the fresh egg trade. The downward movement has not been confined to Portland but is general throughout the nation.

The price of eggs is 12c lower today in Portland than Monday, 2c higher, while the price of feed is much higher, say the producers. As production of eggs is far in excess of the same period in any other year the market is being affected by the greater output than demand. The storage egg deal is perhaps in the worst condition, there being little demand at the moment.

Butter Decline Effective
Drop of 2c in the price of butter and 2c in butterfat became effective at the opening of the Wednesday trade. The new prices are the result of increased production not only in the local field but in the United States generally.

Poultry Situation is Firm
Entire poultry market situation is very firm here with extreme buying prices being quoted not only for turkeys but for all classes of chickens. Turkey receipts too nominal to base accurate quotations.

Onion Trade is Now Draggy
Onion market trade is now dragging here. The same condition shown at practically all leading jobbing markets of the country. Practically not enough carload business is shown to establish prices but there appears to be an eagerness to sell non-keeping stuff and withhold better goods from the market.

Veal Situation About Same
There is a steady tone generally for country-killed calves along the whole sale way with practically no change in prices. Hogs are inclined to sag a trifle because of the secret cutting by some of the packers.

Notes of Wholesale Trade
Now it develops that oranges are weaker instead of firmer. Not markets remain unusually slow for this period of the year. Slight increase in the supply of Columbia River smelt.

Honey Market is Slow
Honey market is slow; prices considerably higher for general consumption of comb stock.

Crab Market is Weak
Crab market is weak with a surplus shown throughout the northwest.

Cranberry Stocks Are Good
Quite liberal stocks of cranberries are available here. Local stock is still more in favor because of generally good quality and a lower price than the eastern offering. This is due to the fact that an extremely heavy freight and handling

charge is made against the eastern product.

Shippers' Weather Notice
Weather bureau advised Wednesday, December 16, that during the next 24 hours against the following minimum temperatures: Going north to Seattle, 23 degrees; northeast to Spokane, 24 degrees; east to Baker, 14 degrees; and south to Ashland, 24 degrees. Minimum temperature at Portland tonight about 28 degrees.
