WPS CLUB WILL MEET

SOCIAL SESSION

Members of the Past President's Club of the Women's Relief Corps will meet at the home of Jessie Smith, 1609 Moss street, Saturday afternoon at 2 o'clock, according to an announcement made last night.

All past presidents of the corps have been notified of the meeting and it is expected that there will be a large number in attendance. Plans have been made for entertainment and a social hour, it was said.

INSURE WITH HENRY TROMP

Happy New Year

To our many friends, who have made 1925 a very pleasant and prosperous year for us, we wish you peace of mind, happiness and prosperity for the New Year.

Linn Drug Co.

LANE COUNTY ROADS INCREASE DURING YEAR

Several New Bridges Placed In Needed Places

1926 PROGRAM IS GIVEN

Central Neighborhood to Have Outlets if Present Plans Are Carried Out

Lane county boasts of approximately 1600 miles of good and possible roads, according to a report given out yesterday at the office of P. M. Morse, county engineer.

These roads divided as to classification and distance show that 51 miles are paved; 200 macadam; 132 crushed rock; 44 crushed gravel; 358 graded; and 715 dirt.

Of the total of 1600 miles approximately 313 are included in the state highway system with 51 paved, 195 surfaces with crushed rock or gravel and 167 still unpaved. Seven miles of the Roosevelt highway is under construction as is one mile on the Willamette Valley-Florence highway.

The work during the past year which the county undertook consisted of grading and rocking the following roads: Lorane highway, 7 miles; Prairie road, 12 miles; London Springs road, 1 mile; Mohawk, 2 1/2 miles; north fork of Siuslaw, 1 1/2 miles; Hawkins hill road, 1/2 mile; Mapleton, 1/2 mile; Lost creek road, 1 mile; Poodle creek road, 1 mile; the grading only of Fox Hollow road, 1 mile; McCollum gap, 2 miles; Nott west, 2 miles; Crow-Vaughn, 2 1/2 miles; the grading of the Gimpl hill road, 1 mile; the north fork of the Siuslaw, 1 mile; and Deadwood, 3 miles.

Bridges Are Built

The building of bridges was also in the schedule of the work completed by the county, the report shows. Bridges built include: Shortridge bridge on London Springs road; Camp creek bridge up the McKenzie; Currier bridge on the mouth of Wildcat river; bridge at the mouth of Wildcat river. These were all placed on concrete piers and made according to market road requirements. Two bridges were built across the Long Tom, one on the Franklin road and the other on the Ferguson road. These also had the concrete foundations, the use of which the county engineer believes it has a better method of producing more permanent bridges.

Today the road department is looking forward to the work which it expects to accomplish during the year of 1926. The work is expected to see the grading of the roads which were graded during the past year. This includes the Nott west, McCollum gap and the Crow-Vaughn roads. The latter has 1 1/2 miles all graded and ready for the crushed rock for surfacing. A quarry on the Stephens place is expected to be opened for this work, it is stated.

An outlet for the Central neighborhood is anticipated with a road being built between the Crow road and the Territorial road. Other roads will be worked during the year, including work on the creek, Deadwood creek, Fox Hollow, Mapleton, High and Low pass roads.

The market road project fund has a total of \$129,000 budget for this year and the special road levies has \$22,216.85 while the general fund has a total of \$62,000 which will return to the districts and \$46,000 which will go for maintenance, equipment, bridges and emergency.

The special tax, voted on Nov. 17, road district 17 in 1924 and 1925 will be used with the market road money for the improvement of the road from the west line of the district towards Sharp's creek bridge, it is stated.

INTEREST IS DECLARED

SECURITY SAVINGS AND LOAN REPORT EXPECTED

Condition of Association During Last Year Very Satisfactory Says Secretary

Depositors of the Security Savings and Loan association of Eugene will receive a New Year's greeting in the form of semi-annual interest at six per cent, according to a report made yesterday by Fred G. Stiekels, secretary-treasurer.

Letters with accompanying checks were written yesterday and an announcement made last night.

All past presidents of the corps have been notified of the meeting and it is expected that there will be a large number in attendance. Plans have been made for entertainment and a social hour, it was said.

WOODEN RAILWAY PUSHED

SIX MILES BUILT TOWARD SUMMIT OF MOUNTAIN

Thirty Men Are Employed on Line Between Horton and Junction City

Six miles of the Arnold wooden railway being constructed from the Horton sawmill in the Lake creek valley over the summit of the coast mountains to Junction City has been finished, according to P. M. Morse, Lane county road engineer, who was in that locality yesterday.

Mr. Morse said that 20 men are at work and that the line is gradually being pushed toward the summit. It now extends to a point a mile and a quarter from the summit, he stated.

An easy grade is found over the mountains, following closely the route of the high pass and the engineers expect to finish the road to Junction City this year.

MRS. NIGHSWANDER DIES

LOCAL WOMAN SUCCEUMS AFTER SHORT ILLNESS

Mrs. Hazel Etta Nighswander, 23, a resident of motor route C, Eugene, for the last nine years, died yesterday at the Pacific hospital following a short illness.

Born in the state of Washington, November 12, 1892, Mrs. Nighswander came to Eugene to reside in 1917. Her husband, E. H. Nighswander, she is survived by a brother, Herbert R. Smith of Eugene; a sister, Mrs. Ruby J. Evans, (Rosalia) Wash.; her father, Herbert R. Smith of Eugene, and two small children.

Funeral services will be held at 10 o'clock Sunday morning, instead of at 10:30 as had been previously announced. The rites will be conducted in the Branstetter chapel by Dr. E. V. Stivers, pastor of the First Christian church. Interment will take place in the Masonic cemetery.

ALBERT RAY IN EUGENE

BROTHER OF MOVIE STAR EN ROUTE TO SOUTH

Albert Ray, brother of Charles Ray, the motion picture star, was a visitor in Eugene last night en route to Hollywood after a visit in the East and in Portland. He was registered at the Eugene hotel.

Mr. Ray expected to leave this morning for his southern California home. He also is an actor and has been in this work in the East.

While in the city last night, Mr. Ray conferred with W. H. Cope of the Cope Film corporation regarding the proposed moving picture studio here for northwest production and appeared considerably interested in the project.

The visitor is a veteran of the recent war. He bears a close resemblance to his more famous brother.

DR. E. V. STIVERS ENDS SEVENTH YEAR IN CITY

Annual Report of Christian Church Made

DIRECTORS ARE ELECTED

Sunday School Attendance Grows From 195 to 480; \$20,000 Raised by Members

With a total membership of 1591 and a Sunday school with an average of 480 in attendance, Dr. E. V. Stivers last night closed his seventh year in the pastorate of the First Christian church of Eugene.

Dr. Stivers in making his report to the board of directors of the church last night, 1925, has been by far the greatest year in the seven he has been here and that the church shows signs of spreading even further during the coming twelve months.

Money raised by the organization in 1925 totaled, for all purposes, \$11,906.42 was for general expenses, covering salaries and maintenance; \$2,000 for benevolent purposes and \$4922.59 Sunday school and other organization funds increased the amounts to approximately \$20,000.

Many Members Added

There have been 379 members added to the church during the year. Of this number 138 came by confession of faith and baptism, 241 by letter and statement. Non-resident members are not included in the 1925 referred to, Dr. Stivers said.

The Sunday school attendance of 480 is the largest ever made in this church. Seven years ago there was an attendance of 195.

Election of elders, deacons and deaconesses followed the reading of the report. Those added to the board follow: Elders—Albert L. Young, E. Hurlbert and J. N. Wilson; deacons—W. T. Sherman, Walter Zarwesk, W. J. Williams, L. E. Alumbaugh, Arthur Fay, Clifford Harrod, Clyde Keefer, L. L. Lamb, Oscar Bussell, J. R. Iyers, C. A. Harndon and A. H. Houck; deaconesses—Mrs. W. T. Sherman, Mrs. Maynard H. Thompson, and Mrs. Minnie Nimmo.

Trustees elected were: J. R. Harding, Judge C. P. Barnard and C. F. Somers. P. E. Snodgrass was elected treasurer.

Practically one-third of the present board were re-elected also, it was reported.

STAR INSTALLS GRAND MATRON OF OREGON CHIEF OFFICER

Installation of Officers of Evangelical chapter, No. 51 Order of the Eastern Star, will be held in the Mason temple tonight following the regular business session and initiation of candidates for membership.

Mrs. Alberta S. McMurphy, past grand matron of Oregon, will be the installing officer. Other officers of the installation team will be: Mrs. Sylvia Sicksafoos, marshal; Mrs. Charlotte E. Hunton, retiring worthy matron; Mrs. Mary B. Young, pianist; Arthur Hendershott, violinist.

NEWCOMER NEEDS HELP

MANY MAY DEVELOP INTO COMMUNITY LEADERS

Dr. Peter C. Crockett of University Economics Department Speaks on Subject

That the people of Eugene must give opportunity to the newcomer to develop leadership in the community, to become acquainted with the local traditions and history and the natural resources, was the point emphasized at the chamber of commerce luncheon yesterday by Dr. Peter C. Crockett of the University of Oregon department of economics.

Local people must also remember the value of general intelligence, even in this atmosphere of higher education, he said. The speaker touched on the subject of skilled labor, capital and migration.

"As a general thing, a community going through a stage of rapid development needs the material resources. We talk a great deal of our great land areas, cultivated and uncultivated. We are busy making statements of what is coming, firmly believing that Eugene is to have a population of 50,000 in 10 years. We are justified in the belief because of the migration of capital and population toward the West where there are vast natural resources to be developed.

There is the orthodox theory or conception regarding the migration of population which is generally accepted, that these people are coming with great courage, breaking away from their home lands to crusade to new parts and build up the new lands.

"We must give opportunity to these people as potential leaders to develop when they get here."

OIL WELL TEST IS MADE

SCIENTIFIC ANALYSIS IS GIVEN IN REPORT

Drillers and Officials of Company Encouraged by Findings of Scientist Here

Expressing the most encouragement officials and drillers of the Guaranty oil well south of the city have had since the ground was stripped here two and one half years ago, Clement L. Webster, scientist and geologist, has given a signed report of the findings made at the oil well a few days ago.

Materials which were abundant in the ballings were shown to contain a large amount of soft paraffin, carbon, sulphur, sulphurated hydrogen and other substances occurring with a high-grade paraffin base oil and petroleum gas, according to the report.

An analysis of the cuttings taken from the bottom of the well December 29, showed that the drill is now and has been for several feet in oil sands. These sands, according to Mr. Webster, contain silica, much calcium carbonate, iron pyrites, sulphurated hydrogen, iron and substances, not in any way detrimental to petroleum production or oil.

The scientist summarizing the report said: "No better or encouraging showings or evidence can at any time be asked for in this case until the drill actually drops into the oil pool itself."

RAZE IS FOUND GUILTY

LIQUOR CASE IS APPEALED TO CIRCUIT COURT

Floyd Raze was found guilty by a jury in Justice of the Peace Wells court yesterday afternoon of the charge of unlawful possession of liquor. His attorney, F. C. Jefferson, gave notice of appeal of the circuit court. Raze was sentenced to pay a fine of \$500 and to serve six months.

Raze was arrested December 10 when A. Watson, deputy sheriff, who searched himself at a cache of moonshine in a field near Irving, appeared, as Raze, it is alleged, picked up the sack containing the liquor.

The jury which tried the accused consisted of B. B. McKinney, Henry Grant, Charles M. Emery, P. L. Rust and B. C. Beaman.

OPENS NEW RESTAURANT

NETTLESHIP TO HAVE PLACE IN COOPER BLOCK

A new restaurant will be opened between January 15 and 20 in the Cooper building at the corner of Tenth avenue east and Oak street by Frank Nettleship of this city, according to announcement yesterday.

Mr. Nettleship was engaged in that business for a number of years at Junction City and has now come to Eugene. He has had a restaurant at the Seaver auto camp at West Springfield during the past year.

The room just north of the Knight auto accessory store has been leased by Mr. Nettleship.

CUPID ON JOB IN 1926

TOTAL OF 446 MARRIAGE LICENSES ISSUED

Cupid's activities during 1925 kept pace with the increase in population of the county according to the records at the office of County Clerk Bryson. The clerk issued a total of 446 licenses during the year as compared with 418 in 1924.

The record for each month during the past year follows:

January	29	July	47
February	30	August	41
March	35	September	30
April	21	October	36
May	35	November	32
June	61	December	39

"Allen A" School HOSIERY

163031

Girls' Silk Lisle Hose

50c Values
3 Pair \$1.00
Or 35c the Pair
