COLDS THAT DEVELOP INTO PNEUMONIA

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsion of cod liver oil, which is pleasant to take. Creomulsion is a new medical discovery with two-fold action: it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agents for persistent coughs and colds and other forms of throat trouble. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, so that the creosote goes on to the stomach, is absorbed into the blood, and checks the growth of the germ.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchitis, asthma, and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. Creomulsion Company, Atlanta, Ga.

Chapped or reddened skin
quickly responds to the Resinol treatment. The purity and soothing qualities of Resinol Soap tend to prevent dryness—the most frequent cause of chapping. But where exposure to sun or wind has already roughened and burned the skin, the healing touch of Resinol Ointment relieves the tense, drawn feeling, stops the smarting and helps to restore skin health.

Many women have found it invaluable, also, for ridding the skin of pimples, blackheads, rashes, etc. Ask your druggist today for

Quaker Oats
"stands by" you through the morning

Has the "bulk," too, that makes laxatives seldom needed

THOUSANDS have unenergetic mornings because they start the day with breakfasts that lack in certain important food elements.

To feel right, you must have a well-balanced, complete breakfast ration. At most other meals—lunch and dinner—you get it. But breakfast is a hurried meal, often badly chosen.

Thus Quaker Oats, containing 16% protein, food's great tissue builder, 58% carbohydrate, its great energy element, plus all-important vitamins and the "bulk" that makes laxatives seldom needed, is the dietetic urge of the world today.

It is food that "stands by" you through the morning. Quick Quaker cooks in 3 to 5 minutes. That's faster than plain toast. Don't deny yourself the natural stimulation this rich food offers you.
