DR. KUYKENDALL SPEAKS

SPRINGFIELD MEN HEAR TALK ON BETTER RACE

Thousands Spent on Improving Stock But Little for Human Race, Says Speaker

(Register Lane County Special) SPRINGFIELD, Ore., Feb. 16.—Thousands of dollars are expended annually for the improvement of livestock and agriculture but little is spent for the improvement of the human race, said Dr. William Kuykendall, in an address at a banquet of the Methodist Brotherhood of Springfield last night.

There are institutions for the development of big men among the many human beings of the world, Dr. Kuykendall said, but there are no organizations specifically in-

stituted for the betterment of the race as a whole. There are a few clinics and institutions of that nature but these touch but a small portion of the human race.

A large number of friends and members of the Brotherhood attended the meeting which started with a supper earlier in the evening. After the address by Dr. Kuykendall, those present discussed the topic.

The new electric bulletin board of the church is now in working order, members reported today. It has been erected on the church lot. It was purchased and dedicated recently by the young married couples class of the church.

DAILY MARKET REPORT

(Oregon Journal Market Review)

PORTLAND, Ore., Feb. 16.—Market for eggs shows indications of an attempt of certain interests to boost prices at country points, although no change is shown in the local situation.

The fight appears to have been started by henry interests who are seeking to put the farm egg out of business. These same interests have been trying to eliminate farm eggs from competition for some time. They are offering in reality more for farm eggs than henry stock is selling at, discount on the exchange considered.

There was no change in the price of eggs on the exchange for the Monday night session, prices of which became effective Tuesday morning.

In the local market for current receipts of farm eggs continues in excess of the henry stock. Reports indicate that an attempt is being made to "net" one of the independent operators who refuses to become a member of the exchange.
