

FROSH DEFEAT ROOKS

69 TO 52 IN TRACK TILT

Lowry and Seigmund Star for Yearlings

ROOKS GET FOUR FIRSTS

Oregon Babes Make Clean Sweep In the Dashes But Were Weak in Distances

The University of Oregon freshman track team defeated the Oregon Aggie rooks, 69 to 52, in the last dual meet of the season at Hayward field yesterday. Lowry and Seigmund starred for the frosh, accounting for 25 points between them. Lowry won first in the 100-yard dash and the 220-yard event and placed second in the broad jump. Seigmund took first in both the high and low hurdles.

The freshmen won ten first places in the course of the meet and the Rooks squeezed in but four men in the head position. The feature of the meet was the mile race in which R. Hill of Oregon yearlings took first after leading for an entire lap. Garrett, Rook miler, placed second as he was unable to catch Hill with his brilliant finish.

Fair time was made in the century dash as the clock caught Lowry in ten flat and the 220-yard event in 22.1. Both races were won by Lowry. Although suffering from a severe case of poison oak Seigmund, freshman hurdler, breathed the tape in both the high and low sticks well in the lead the second place man being from ten to fifteen feet in the rear.

The rook relay team nosed out the frosh quartet by a scant two yards. The race sawsawed back and forth with the Aggie babes gaining a slight lead on the last quarter mile and Johnson, Rook anchor man managed to finish ahead.

The summary: 100-yard dash—Lowry, freshman, first; Tuttle, freshman, second; Hill, freshman, third. Time, 12.0 flat.

Pole vault—Stearns, freshman, first; Murphy, rooks, second; Henderson, rooks, third. Height, 11 feet 6 inches.

DERBY RUNNERS ALMOST WITHIN SIGHT OF GOAL

As Far as Competition Goes Bunion Race Is Over

PASSAIC, N. J., May 25.—(AP)—Jaunty in epic and span uniforms heads perked up and smiles on leather brown faces. Charley Fyle's puppy-pounded legs, in on Passaic today, almost within sight of the goal of their transcontinental jaunt.

The little Jersey town went wild with excitement, crowds lined the course of the 24 1/2 mile run from Suffern, N. Y., and traffic was a hurly-burly mess as the long arm of "coincidence" reached out again and led Johnny for Passaic ship-wrecker, to the finish line first in the high school stadium of his home town. Entirely by accident, the promoters naively explain, "local boys" have been doing that all the way along the route from Los Angeles.

Race Is Practically Over As far as competition goes, the race to New York over 3400 miles of mountains, deserts and final asphalt pavement, already is over. Sale out one hour 13 minutes and 41 seconds from the huge lead and Andy Payne, Oklahoma farm boy, holds over him for first place in the mammoth trek, but only an accident of serious nature can keep Payne from reaching the ultimate goal in Madison Square Garden tomorrow night with the \$25,000 top prize already on his name.

Financial Flop Is Feared Only an accident—or the financial collapse of the bunionless parade—and the foot racers, some of them almost unrecognized with dozens of days of beard freshly scraped from their faces frankly admitted today they were slightly worried about the solvency of the expedition.

Fyle asserted that the total prize money, amounting to \$48,000 was safely stowed away in a New York bank although associates ad-

mitted that the promoter is some \$60,000 behind on the venture.

There were reports today that the race had passed from Fyle's direction to that of F. F. Gung, a Chicago contractor, and there were other "scandals" to keep the tongues of the 55 survivors buzzing long after the comparatively short jaunt from Suffern was completed.
