

### COMMISSION PROMISES HIGHWAY COMPLETION

Time Depends Upon When Funds Are Available

### AWAIT ELECTION RESULT

Three Members of State Road Group Meet With Lane County Chamber of Commerce

Representatives of the Lane county chamber of commerce were assured by the state highway commission yesterday afternoon that it is the intention to complete the Lane county road S. H. Kenzie and Willamette Valley-Florence highways, just as soon as funds are available. How soon funds will be available, it was explained, depends upon the outcome of the election this fall, as if the license fee reduction bill that will be on the ballot carries, money for state construction will be sharply curtailed.

Completion of the Willamette highway to Oakridge is assured members of the commission said, as the state is pledged, in co-operation with the government, to complete this project as far as Oakridge after the Lane county funds which are now being used, are exhausted. Rumors that construction on the Willamette will stop as soon as Lane county's money is expended were scouted by the commission.

Construction of the Florence highway beyond Mapleton will be difficult and costly, members of the commission explained, and the preliminary engineering work must be thorough and complete if waste of funds is to be avoided. Negotiations are now under way with the Southern Pacific for right-of-way along the river route, but as yet no satisfactory agreement has been reached. It is the intention of the commission, however, if the highway finance system is not overthrown to proceed as rapidly as possible with the completion of this road.

Possibility of departure from present surveys on the lower McKenzie was seen in a question by Commissioner Gates as to whether Lane county wants the scenic values or the time and speed values of this route emphasized. Several speakers from Lane county gave it as their opinion that the scenic values should be preserved, even if this means more curvaceous present surveys involve considerable straightening.

Right of Way May Be 60 Feet. A possible compromise in the matter of right-of-way width was outlined by Chairman Van Duser, of the highway commission, who suggested construction on the present 60-foot standard after obtaining from landowners agreements not to add permanent improvements on the additional 10-foot strip on each side. It would be possible to increase the width to 80 feet at some later date without prohibitive expense.

Yesterday's meeting, which was held at the chamber of commerce, was attended by Commissioners Van Duser, Gates and Sawyer, and State Highway Engineer Klein and representatives of the Lane county chamber of commerce from all sections of the county. Its purpose was to get a clear understanding of what may be expected in the way of state co-operation in the completion of state highways in Lane county. Completion of U. S. highway No. 24 has been made the road project of the Lane county chamber of commerce.

Representatives from Junction City urged particularly the immediate completion of this end of the Florence highway, pointing out that only a very short section remains uncompleted here.

**LUMBERMEN WILL MEET**  
**MR. PEARSON OF BEND TO BE SPEAKER TONIGHT**

A report on the progress of work of the 4-L employees' promotion committee will be given here tonight by George G. Pearson of Bend when members of the Willamette Valley Lumbermen's association meet here for their regular monthly meeting, it was announced yesterday by H. J. Cox, association secretary. Mr. Pearson is general chairman of the 4-L committee.

The lumbermen's meeting will be held in the club room of the Osburn hotel. It will be in the form of a dinner and will begin at 6:20 o'clock. Lumbermen from all over the Willamette valley are expected to attend.

Other business having to do with firms in the association will be taken up in addition to the report by Mr. Pearson.

**MAN GETS HIS REVENGE**  
**JOBLESS VISITOR KICKS IN STORE WINDOW**

Because he was unable to get work here or in Klamath Falls, Ernest Loah, Long Beach, Cal., kicked in the show glass window of the Gilmore store at Broadway and Willamette street yesterday morning.

His failure to get work was his only excuse for breaking the costly window, police who arrested him said. Loah told the officers, they said, that he was standing in the corner thinking about his inability to get a job, when he suddenly was seized with a desire for revenge. The window was the nearest object.

Loah was turned over to county authorities for prosecution. He was charged with malicious destruction of property.

**BIG JUDGMENT IS GIVEN**  
**MORE THAN \$22,000 DUE FROM CARL E. FISCHER**

One of the largest judgments in circuit court here in some time was given yesterday by Judge G. F. Skipworth in the case of Frank Boutin against Carl E. Fischer, who formerly was in the lumber business here.

### BABIES ARE REGISTERED

Movies to be Taken of Kids - Dies at McDonald

### BETTER BABY CONTEST BEING CONDUCTED BY MANAGEMENT; FIRST TEN TO BE FILMED ON STAGE

Already the phone is busy with the calls of justly proud mothers who are anxious to take advantage of the opportunity to have actual movies taken of their babies, and although it is still several days until the McDonald better baby contest gets under way, over a dozen mothers have registered their children for the event, reports the theatre management.

The first 10 registered will be photographed on the stage of the McDonald Tuesday night at 8:30 in plain view of the audience. All others will be "shot" Wednesday morning between 10 o'clock and noon, with a possible overflow filming to be arranged later.

All Eugene and Lane county babies under 5 years of age are eligible, and the motion pictures taken will all be shown upon the McDonald screen within 10 days after the actual filming takes place. There is no charge connected with the contest, and parents entering babies have merely to phone the theatre and register their tots so that a complete check of the number entered, together with data such as names, ages and addresses, can be compiled before the movies are taken. It is announced.

The names of the babies entered up until 10 o'clock Thursday night are: Betty Jean McKillop; Shirley McKillop; Connie Jeanne Stanc; Joyce Anne Russell; Teddy Alvin; June Cronin; Dorothy Brunt; Anna Koulak; Anna Currie; Barbara Jean Bragoo; Glenn Orlo Wilson; Tommie Russell, Jr.; Patricia Russell.

The youngest baby registered among these first contestants is but 3 months old, and the oldest is but a few weeks under the limit of 5 years. In filming the babies, numbers will be used to identify them throughout the contest, and the audiences attending each showing of the Better Babies' film will be given the opportunity of voting for the baby they wish to win. The prize offered by the theatre is a large, life-sized doll, elaborately dressed, which will be on display in the McDonald foyer before the contest voting begins.

### TWO TRAINS MAY BE RUN

MUCH EQUIPMENT TO BE HERE FOR EXCURSION

Three Hundred Tickets Already Sold For Lake Trip Next Sunday

Equipment for two trains will be placed here by the Southern Pacific company in preparation for its excursion to Cascade Summit and Odell lake next Sunday. It was announced yesterday at the office of L. L. Graham, district freight and passenger agent of the company.

If the two trains are needed to carry the excursionists, enough cars will be here to make them up. Twenty-two coaches will be available for the trip.

Approximately 300 tickets have been sold for the trip to date, it was said. Five hundred or more are expected to take part and as many as possible are asked to get their tickets by tonight in order that a check-up may be made on the amount of equipment needed.

More than 150 University of Oregon summer school students are expected to visit the lake Sunday and postoffice employees and other organizations are also to go. The excursion is open to the general public.

**PRISONERS TO CUT GRASS**  
**PAIR SENT TO JAIL WILL BE KEPT BUSY**

Two Eugene young men will cut grass for the next few days as a result of pleading guilty to disorderly conduct, which included loitering on the streets after midnight, occupying an apartment not their own and eating tablets causing intoxication. The two are Andy Coghlan and Walter Powers.

The two pleaded guilty to the charge in police court yesterday and were fined \$25 apiece. They were committed to the city jail in lieu of payment and will be made to cut grass until the sentence is served.

Kenneth Hill, who was arrested on a warrant charging reckless driving and jailed Thursday night, was fined \$10 in police court yesterday.

**MOVIE PETITIONS FILED**  
**More Than 1600 Persons Sign for Sunday Shows**

Petitions for an election to submit the question of Sunday motion pictures in Eugene were filed in the office of the county clerk yesterday to ascertain if the required number of registered voters had signed them. The petitions contain 1664 names and only 809 are required.

### KIWANIS CLUB TO HELP IN REMEDIAL TEACHING

Instruction of Non-visual Children Carried On

### VISUAL IMAGES MISSING

Muscular Impression Needed for Some Pupils to Learn; Work Started at Summer School

A movement started here at the University of Oregon summer school season to remedy backwardness in learning by children who are not of the visual mental type has proved so successful that the Eugene Kiwanis club has decided to make it possible to continue the work after the summer session ends next week, it was announced yesterday.

Dr. Fernald has charge of a group of schools in Los Angeles where non-visual children are instructed. These children cannot learn through visual impressions as most children do and must be given instruction through muscular instead of visual impressions.

Example is Cited. An example of the different methods of learning was cited by local school men. In learning to use a word written on the blackboard and thereafter are able to identify it through visual images. Seeing the word makes no impression in the minds of non-visual children and in order to learn the word they must trace or copy it, thereby gaining a muscular impression.

A certain percentage of non-visual children is found in all schools and about a dozen Eugene children are receiving instruction on the university campus this summer. The work was explained to the Kiwanis club and members at once took an interest in it. Dr. C. L. Huffaker, member of the university school of education faculty and the local Kiwanis club, has been designated to have charge of the club's activities along this line.

H. R. Good, new Eugene superintendent, is deeply interested in this form of remedial work and it may be used with other remedial instruction in the local schools hereafter.

### LEE WITH CHEST SOON

SECRETARYSHIP TO BE TAKEN OVER AUGUST 1

Secretaryship of the Eugene community chest will be taken over by E. U. Lee, newly appointed manager, August 1. It was announced yesterday. Offices will be maintained in the Miner building.

Mr. Lee was appointed to the secretaryship recently when B. B. Brundage, who served last year, decided not to accept the position for another year. Mr. Lee has been connected with many civic enterprises. He was at one time mayor of the city and several years ago served as county clerk.

**MOOSE TO HOLD JICNIC**  
**FROLIC PLANNED FOR AUGUST 5 IN PARK**

The Moose lodge of Eugene will hold a big picnic Sunday, August 5, in the Benton-Lane park on the west side highway north of Junction City. It was announced yesterday.

The Moose met on the first Sunday in June for a picnic but owing to the damp weather it was not an entire success and they decided to try it again with every chance in their power.

**FRANK WANTS GOOD BACON FOR BREAKFAST, SO HE BUYS IT HIMSELF AT THE EUGENE PACKING CO.**

Well, I always was there - bringing home the bacon!

**Saturday Lunch 35c**  
I. Roast Lamb and Green Peas  
Mashed Potatoes  
Gravy  
or  
Minced Meat on Toast  
Potato - Relish  
Graham Muffins  
Tea, Coffee, Milk, Iced Tea  
Pie, Cake, Ice Cream

**Saturday Evening 35c**  
I. Old Fashioned Bean Soup  
Scalloped Summer Squash with Cheese  
or  
Frigidaire Golden Glow Salad  
Muffins  
Tea, Coffee, Milk, Iced Tea  
Pie, Cake, Ice Cream  
Fresh Apple, Apricot Pie  
Chocolate Cream Pie  
Date Nut Cake

**Sunday Shows**  
I. Baked Virginia Ham  
Sliced Potatoes  
Creamed Potatoes  
Biscuits  
Tea, Coffee, Milk, Iced Tea  
Pie, Cake, Ice Cream  
II. Cream of Corn Soup  
Stuffed Tomato Salad  
Muffins  
Tea, Coffee, Milk, Iced Tea  
Pie, Cake, Ice Cream  
Fresh Apple, Blackberry, Whip  
Cream Pie, Huckleberry Pie  
Date Nut Cake

### SMITH REUNION IS HELD

Descendants of Early Settlers of Lane County Will Meet Once Each Year

### GATHERING TO BE MADE ANNUAL AFFAIR

A few of the descendants of the early Smith settlers of Lane county held their first reunion at Benton-Lane auto park Sunday, July 15.

Swimming, feasting and mingling together, a group of real friends occupied a part of the day, but the organizing of those present for the Smith reunion as an annual affair was the interest of all. A meeting was called, A. C. Powers presiding as chairman, and the following officers and committees were elected and chosen:

J. Walter Smith, Eugene, president; Earl R. Smith, Albany, vice-president; Lois Strayer, Portland, secretary; music committee, chairman, Hattie Smith Powers of Mountmouth; sports committee, chairman, Carl Smith of Suver.

Those present were Faye Smith Sunderland and A. R. Sunderland of Mohawk; Hattie Smith Powers and A. C. Powers of Mountmouth; Earl R. Smith and Bertha E. Smith of Albany; J. Walter Smith and Minnie E. Smith of Eugene; Mr. and Mrs. Carl A. Smith of Suver; Eleanor Smith and Alford Smith of Junction City and Lois Strayer of Portland. The next reunion will be at the Benton-Lane auto park on the fourth Sunday of July, 1929.

The organization will be an annual reunion of all the direct heirs and descendants of John Smith of Missouri, who crossed the plains in 1849 with his four sons and daughter, William F., Jesse H., P. Loomis and Maggie, settling on a 64-acre donation land claim ten miles southeast of Eugene. The four boys, now deceased, were well known to Lane county as prosperous citizens. E. Looney Smith having donated land, as an inducement, to the railroad that is now known as the Natron Cutoff.

### MORE U. S. JOBS OPEN

CIVIL SERVICE EXAMINATIONS ARE SCHEDULED

The United States civil service commission has announced open competitive examinations as follows:

Junior engineer, federal classified service throughout the United States, at \$2,000 a year. The optional subjects are: aeronautical, agricultural, chemical, civil, mechanical, mining, naval architecture and marine engineering, and structural steel and concrete engineering.

Associate agronomist (corn diseases, associate agronomist (irrigation), bureau of plant industry, for duty in Washington, D. C., or in the field, at \$3,200 to \$3,700 a year.

Associate civil engineer, assistant civil engineer, engineer department at large, at \$3,200 to \$5,700 a year for the associate grade, and \$2,600 to \$3,100 a year for the assistant grade.

Assistant in engineering information, bureau of public roads, Washington, D. C., at \$2,600 a year. The duties are to write for the press original articles on the engineering and economic researches of the bureau, based on technical reports and interviews with scientists, economists, and engineers in charge of investigations, and other related work.

Full information may be obtained from the secretary of the United States civil service board of examiners at the postoffice in Eugene.

### LUMBER DEMAND HEAVY

EUGENE DISTRICT REPORTS CONDITIONS GOOD

### ORDER FILES ARE IN BEST CONDITION THEY HAVE BEEN FOR LONG TIME

The demand for lumber in the Eugene district has held up exceptionally well through the fourth of July period, and prices today are fully as firm as they were the latter part of June says Crow's Pacific Coast Lumber Digest. Production is still slightly below normal, as some of the mills that closed the first of the month have not yet resumed sawing. Mill not yet resumed sawing. Mill not yet resumed sawing. Mill not yet resumed sawing.

Order files are in the best condition that they have been for a long time, owing to the fact that there has been a sufficient volume of business to allow the mills to select orders that suited their timbers. Prices on practically all grades are firm and have a well defined upward trend. The only exception is long joints and small cutting such as ties and bridge planks. Cutting has not been wished, and the bulk of the bridge planks, as usual, has been shipped out of piles that were sawn and put on sticks during the winter months by concerns that specialize in the bridge plank business.

The demand from the eastern and middle western retail yards has been holding up well. For the first week in this month some concerns did not receive as many orders as usual, but in the past few days there has been an increasing volume, and nearly everyone has been getting the top prices that they are asking, indicating that the retailers are finally convinced that the manufacturers mean business.

Car material orders are not overly plentiful but prices are firm in spite of that. Two by six 15-foot clear and some of the difficult items of select common have advanced in price recently. Car material is not produced by all the mills and when there are orders for retail yard items that pay a reasonable price, most concerns will not consider car material orders, due to the added expense in getting them out.

The California rail demand continues to be very satisfactory. The stimulation which that market received in June is holding up well, and many of the mills are finding old customers again coming to them for stock, as the increased cargo prices have thrown some of the territory adjacent to San Francisco bay back to the rail mills.

It is hard to find a pessimist amongst the lumbermen in the Eugene district now. With half of July already by and the market holding firm the opinion is very general that the heavy shutouts over the fourth have been sufficient to prevent any collapse of the market during the summer months and that makes the prospects good for more money as soon as fall buying gets under way.

### FURNITURE MEN ELECT ALBERT APPELEGATE NAMED DIRECTOR FOR UNIT

South Willamette District Covers Large Territory; Is Part of New State Organization

### MANY SEE IRRIGATION

ONE HUNDRED PERSONS TAKE PART IN TOUR

Different Types of Systems Inspected; 50 Largest Attendance at One Place

More than 100 persons interested in irrigation took part in the tour conducted yesterday under the auspices of the Lane County Horticultural society and county agricultural agent's office. The largest attendance at any one place was about 50 at the farm of Don Shaffner on River avenue, north of Eugene.

About three fourths of the number of people on the tour were those who already have irrigation systems in operation and visited other plants to gain ideas that they may not have had, and the other one-fourth are contemplating the installation of systems.

Besides the Shaffner place, the itinerary included Wendell Bartolomew's farm on river loop No. 2, Truman Chase's farm across the river from Eugene, Chase gardens, the Frank Bartolomew farm, on the McKenzie river north of Springfield and Harold Chase's farm east of Chase Gardens.

The last named was not on the original itinerary but it was desired to inspect his overhead irrigation system in a field of Ladino clover. He has a fifth of an acre of this crop which he waters. The clover was planted in May last year and one cow has been pasturing on it ever since the latter part of August except when the ground was too wet. This one cow has not been able to keep the clover down, it was stated.
