RENE LACOSTE ROUTED AT NET BY BILL TILDEN

American Breaks Through Defense of Old Rival

VICTORY WELL PLANNED

Tilden Gives His Country an Even Break in Challenge Round For Davis Cup

AUTEUIL, France, July 27.—(AP)—Celebrating his reinstatement as a member of the American Davis cup tennis team, Big Bill Tilden called forth a burst of the furious tennis of his younger years today to defeat his arch-rival, Rene LaCoste of France...

Others saw in Tunney, however, the development of one of the greatest drawing cards the fistie business ever has seen. They point to the crushing power of the champion's attack last night and the ease with which he battered into helplessness a man who never before had been punched to the canvas...

It seemed as if Tunney, the champion who derided the "killer" instinct in Jack Dempsey, at last was to gain his most general popularity through the same medium that showed the old manassa mauler to the pinnacle of all heavy-weights.

HOOPER ACCLAIMED BY BAY CITY FOLKS

(Continued From Page 1)

The popular tune would be "I Love You California."

"No East Side, West Side this time," he said, referring to the place the band so frequently played during the recent visit of Mayor James Walker, of New York.

The lieutenant-governor finally was located and the procession got under way only to be halted a few blocks away so that the arrival at San Francisco's celebrated market street would be at the noon lunch hour in stores and offices.

People Line The Way

The cavalcade moved along through almost solid walls of humanity in which women predominated. These took the lead in cheering the candidate, but the men joined in the hand clapping as the automobiles moved at almost a snail's pace behind the marching bands.

As his motor turned into Market street, the nominee got a shower of fine bits of paper thrown from the windows of one office structure. Hundreds appeared at the high up windows of office and store buildings to add their plaudits to those on the street below.

At one point along the line the crowd got a laugh when a young woman who was in the throes of a permanent wave poked her head out of a seventh story window and gave a shrill cheer. She drew some good-natured applause for herself.

Great Crowd at Square

After traversing a dozen blocks on Market, the procession turned off to San Francisco's civic center, where another big crowd filled the public square. As Mr. Hoover stepped out of his machine, he was almost smothered by amateur photographers, who even bored in ahead of the professionals who had been photographing the candidate almost every minute from the vantage points furnished by automobiles that wound in and out in front of Hoover's automobile.

At the city hall, the police had difficulty in keeping the crowds back, and one highly enthusiastic woman did break through to grab the candidate's hand before a strong khaki-coated arm reached out to thrust her back.

The ceremonies at the city hall were brief, Mayor Ralph eulogizing Hoover's public service in European and Mississippi flood relief and as secretary of commerce and predicting his election as the next president of the United States.

Hoover replied, the band played "The Star Spangled Banner" and the return trip to Palo Alto was started.

HERALD AND EXAMINER IS VICTIM OF HOLDUPS

CHICAGO, July 27.—(AP)—Armed bandits tonight entered the Herald and Examiner newspaper offices, held up the paymaster and escaped with \$7000.

The holdup took place while pressroom employees were being paid their weekly salaries. A policeman and the paymaster were over-powered and bound. No shots were fired.

STOP USING A TRUSS

FREE DEMONSTRATION

Stuart's Plapao-Pads are different from the truss, being mechanico-chemico applicators made self-adhesive purposely to hold the distended muscles. No straps, buckles or springs attached—cannot slip, so cannot chafe or press against the public bone. During 22 years thousands have successfully treated themselves at home, without hindrance from work—most obstinate cases conquered. Soft as velvet, easy to apply, inexpensive. Awarded gold medal, Rome; Grand Prix, Paris, and honorable mention, San Francisco. Process of recovery is natural, so no subsequent use for truss.
