Why Not Battling Kings? A Real French Duel!

Death, devastation, miles of graves, thousands of families, destitute and starving, wrecked cities and historic treasures saved for centuries for the good of future generations, now in ashes.

What does it all mean? Within a few days Europe's great hives of industry and her supposedly happy people turned to each other's throats and tyranny reigns.

She is trying her latest death dealing guns on human targets, tearing assunder all the teachings of a half century and worshipping at the shrine of the demon of death. She goes on and on to self destruction.

What is human life? Merely a food to feed their guns, as kings set back and play the destructive game of war?

Are people like dumb brutes, to be herded and driven into the shadow of death?

Fighting for the kings and leaving their families to beg, is a patriotism that should cease to exist. War crazed kings should get into the ring personally and have it a family duel of kings, and end the war abruptly.

Can You Do It? TEST TYPE.

Before all straight copying correction by the use of optician are properly understood and can be corrected by the proper adjustment of printing plates. These effects can be entirely avoided. This plate should be read every day before being used. If you cannot do so the plates will be ruined. It does not pay to buy cheap type. They don't do the work of good type. In order to get the best work of your printer, you should have the best type. It is a sure sign of a good printer, and such a printer will be pleased by having a job of good type.

Tygh Valley gave a Thanksgiving masquerade, Thursday night, and of all the freak costumes, they had them. Several were recognized, and a few disappeared at the time to remove masks, and were last seen, going toward Wamic. No reward has yet been offered for the capture. Pretty costumes were evident. Several auto loads attended from Maupin.
