

The Maupin Times

Devoted to the Interests of Southern Wasco County

VOL. 1, NO. 16

MAUPIN, SOUTHERN WASCO COUNTY, OREGON, DECEMBER 16 1914

THE YEAR \$1.50

"ONE FOR ALL AND ALL FOR ONE"

The nearer a farm is to, or the easier its products can be sold in, good, live, thriving, progressive town the more profitable that farm will be.

The more good farms, well filled, well fenced, well housed, well sited, surround the town, the more prosperous that town will be. A thriving city or town, with a busy population, spells profit for the actual producer.

The interests of the town and country are identical. Neither can grow and prosper if the other is either dead or dying.

The nearer the point of production the produce of the farm can be turned into cash the larger the percentage of that cash which reaches the original producer. On the other hand, no town can thrive unless its business men, its workmen, and its citizens generally have a genuine and abiding interest in the people who live around the town and tributary to it.

Every one of them should have the closest sort of sympathy with

the man who has chosen agriculture—all around farming—as his life work, and who is striving to make the farm the ideal home. Such men are the basic asset of our general prosperity, and hope of the future. He should work with the town dweller, and the town dweller follow his lead, in order to get the best things for which both of them stand.

Town and country must grow closer together—for the best interests of all. The town needs more progressive farmers, more than it has now. The farmers need more progressive towns—more than are on Southern Wasco county's map just now. They should be brought closer together—town and country—in time, by the construction of better roads. Closer together in a spirit of neighborliness and brotherhood, by a clearer conception of how much each depends upon the other. Let us preserve the fertility of the farm—and conserve the commercial growth of the town—robbing neither by shipping it off. Remembering that while the circus may take some money out of town the mail order house takes away more money still—and does not even give a parade.

The new window blinds, for the two rooms, have been received. The door mats have also come and together with the shoe scrapers, be greatly appreciated in muddy weather.

The Dyer girls had quite an experience on their way to school Friday morning, while trying to cross Bake Oven creek on the ice, which proved too thin and gave the girls a ducking.

The children are not eager to carry a pail of water a long distance these cold days, and since the water pipes froze the school has been dry territory most of the time.

The attendance has been very good for the last several weeks. Every pupil was to school and on time Tuesday.
