

# THE MAUPIN TIMES

Devoted to the Interests of Southern Wasco County

VOL. 1, NO. 25

MAUPIN, SOUTHERN WASCO COUNTY, OREGON, APRIL 2, 1915

THE YEAR \$1.50

## LECTURE GIVEN BY PROF. IRLE

A goodly number were present at the school house last Sunday afternoon to hear the lecture on the Soul, Hell and the Day of Judgment. Prof. Irle explained from the Bible what the soul is, showing that it is not naturally immortal, that hell is not a place of eternal torment but simply the death state into which we all have to go as even Christ did, but from which all are to be resurrected; that during the gospel age, God has not been trying to save the world, but has been selecting and proving the true church, the "little flock," who are to be changed to the spirit nature and reign with Christ who together during the next age, the milenium, will help all mankind who so desire up to perfection, all others going into the "second death," oblivion, from which there will be no resurrection; that the day of judgment is a thousand-year day, the milenium, earth's "golden age" during which all the dead will gradually be raised, Satan be bound, and all mankind will be having their trial or judgment, and by the end of which all sickness, sin, sorrow and death will disappear, and the earth be a glorious paradise, and that this is the true gospel, good news, as taught by Christ and the apostles. Several kinds of literature were distributed, including Dr. Edgar's lecture on "Where Are the Dead?" free to all upon application.

## Postpone Event.

The entertainment or vaudeville performance that was to be given by the local Artisan assembly tonight will be postponed until next Wednesday, April 7th.

## Fischer and "Ford"

E. J. Fischer, the "Ford" dealer for this section received word a few days ago that a car load of machines he had sold and were on the road became mixed up in transit somewhere and went to another dealer.

The Ford people are putting out 1000 cars every work day and the demand is so great that all orders coming in late are apt to delay and the Ford seems to be the car most in use, owing to its being an all purpose machine, besides the big saving in price and up-keep.

## Wapinitia Items

Mrs. E. M. Hartman spent from Friday of last week until Tuesday in The Dalles with her son Lincoln who is in The Dalles Hospital. She reports that he is slowly improving.

Job Crabtree of Maupin was looking after business interests here Saturday.

People are wondering here lately if this country has not changed climates with Webfoot, so many fine rains lately.

Mrs. Hannon, a W. C. T. U. lecturer and organizer spoke at the church here Friday evening. A large crowd was present and enjoyed her talk which was both interesting and instructive.

The little daughter of Mr. and Mrs. Godrup Tuschner has been quite sick the past week.

W. B. Keene and wife of Portland arrived here Friday evening enroute to Keep's mill. Mr. Keene and wife are both large holders in the Clear Lake Irrigation Co. They were accompanied by Mr. and Mrs. Empey.

## BIG CLEAR LAKE IRRIGATION PROJECT NOW ASSURED FACT

The big water supply for the farmers on Juniper Flat will be ready in from 60 to 90 days.

Near that time the water will be let into the big ditch that is already completed to a distance of about six miles from the outlet of the storage reservoir. There is a large cut to make near the head of the ditch which will require the removal of about 9000 yards of dirt. This work will be rushed as fast as possible by the new superintendent, W. B. Keene, who is a man of large experience in this kind of work and comes well recommended from the irrigation districts of the famous Yakima country.

This project, when completed, will furnish water for 40,000 or 50,000 acres of land and the magnitude of the undertaking doesn't seem to be realized by a great many of our people, owing to the fact that they have lived here and dry-farmed for so long, with promises of water for years until they have lost interest and

A special school meeting was held at this place Saturday afternoon for the purpose of voting on a Union High school. The people here are very much interested in this school for we realize that it will not only benefit this burg but all of Juniper Flat, there being no high school on the flat, and there are those attending school here now from all three of the other districts that have taken up this matter. The spirit of the people here was well manifested in meeting from the fact that out of 49 votes cast, only 9 were against it.

practically lost hope.

With water on the ground that is now yielding from 20 to 40 bushels of wheat to the acre, the production will increase from 10 to 20 bushels more, with never a fear of a dry year. Irrigation also does away with all late frosts—eliminating that one bad feature which occurs here every four or five years.

There is another fact to be realized when the water is once on the "Flat" and that is the question of hay. There is a great amount of shallow ground, where the rocks are close to the surface or in low places where they can be removed or covered over and alfalfa raised which would be a source of farm revenue that can hardly be estimated.

The increase in the price of your land will more than double through having an irrigation system and you should do all in your power to encourage the promoters of the project and thus assist yourselves.

U. S. Endersby is erecting a new house and barn on his farm near here.

Calvin McCorkle has been quite sick the past week. Dr. Shannon of Tygh is attending him.

Mr. Morris, who is sent out by the board of education lectured and showed his stereopticon views here Monday evening. A large crowd of the parents as well as the children were present.

The W. C. T. U. was re-organized here last Friday evening with Mrs. W. O. Wilson as president, Sadie Bowen vice-president, Mrs. L. Rice treasurer and Mrs. T. A. Tapp, secretary.

## Smock News

A. F. Russell and wife were to their upper Smock ranch last Sunday trying to rush the season by planting potatoes.

Our Boulder-Lost Creek Ditch company are getting ambitious. They are going to work the ditch and we will say that it needs it.

Mr. T. J. Hill is on the road to recovery after a serious attack of lagrippe and heart trouble combined.

Mr. and Mrs. T. P. Grant are numbered among the sick this week.

M. P. and A. R. Thornton have been cutting wood for F. E. Spoor the past week.

Mrs. Lillian Farlow received word that her grandmother was not expected to live more than a few hours. Our sympathy is with you Mrs. Farlow.

Mrs. S. E. Thornton is expected home the latter part of the week.

Mrs. James Johnson and son Houston moved to Tygh this morning to take charge of the hotel.

The latest report is the death of the well known Mr. Harry Hull. He has been ailing for a long time. Asthma seemed to be the cause. We will miss him much. He was well thought of and highly respected. A wife and son survive him. Our greatest sympathy is with them.

L. T. Woodside one of the progressive farmers from Wapinitia was here yesterday on business.

## Stereopticon Lecture

Mr. N. C. Moris, field worker for the State Fair and Department of public Instruction, accompanied by County Supt. Bonney gave a stereopticon lecture at the school house Tuesday afternoon between two severe showers. Mr. Bonney managed the stereopticon and Mr. Moris gave the lecture. The views were largely of young people and their industrial prospects and exhibits, chiefly in agriculture in various parts of Oregon. Girls were advised to learn cooking, canning and serving, and boys to learn pig raising, poultry raising, dairying and gardening, and to exhibit their products at the local fair at Tygh next fall. The lecture should arouse greater interest among the boys and girls in the several industries to the benefit of themselves, their parents and the community. The gentlemen started after four o'clock to drive to Criterion, twelve miles, to give the lecture there that night.

W. H. Dufur and wife came up from Portland Wednesday and Mrs. Dufur has been visiting with Mr. and Mrs. W. H. Staats. Mr. Dufur, who is a brother of Mrs. Staats, continued on to Pringle Falls, near Lapine, to look after some valuable interests.

It is the intention of Mr. Dufur and his associates to develop the wonderful power at these falls and furnish electricity for both lighting and manufacturing purposes.

## R. R. OFFICIALS HERE TUESDAY

The head officials of the S. P. & S. R. R. System passed through here the first of the week on a tour of inspection and we learned that they were intending to stop over for the purpose of inspecting the new depot site, but were called back to Portland hurriedly.

They were: F. A. Brainard, Supt.; C. D. Jenks, Gen. Manager; A. M. Lupfer, Chief Engineer.

## Bakeoven Items.

John Karlan went to The Dalles Monday on business.

Paul Smith was over Saturday and Sunday from Juniper Flat.

Edwin Mays made a business trip to Shaniko last Friday.

C. E. Matthews was seen in this part of the country Sunday.

Mrs. A. T. Lindly went to Maupin Tuesday.

Mr. and Mrs. W. H. Aldridge made a trip to Tygh Valley last Saturday.

F. H. Tryman, our road supervisor, is making some great improvement on the road up this way.

F. S. Fleming drove about thirty head of horses and mules over on the range south of here Wednesday.

## Pioneer Mercantile Firm

## DOWN-LOW

The Litchfield Down-Low built for us by the Litchfield Manufacturing Company and is low enough for easy loading but high enough to avoid trouble. It has practically the same under-clearance as the Litchfield Standard Spreader Which has been sold for years.

Come in and see for yourself that there is nothing experimental or freakish about the Litchfield Down-Low Spreader.
