**He Remembered.**  
Mrs. Bickers was reading the latest war news from across the pond. "Let me see," she mused, "when was it war was declared?" "Is it possible, my dear," rejoined her husband, "that you have forgotten we were married June 3, 1905?"  
**Natural Presumption.**

It helped me and I am in the best of health at present. I work in a factory all day long besides doing my housework so you can see what it has done for me. **THE RECIPE FOR SUCCESS**  
Keep Your Promises and Be Up to the Minute, is Advice Worth Heeding.  
Young men—all people, in fact—who are to be counseled like to have the advice re-enforced by anecdote, or by a page of autobiography disclosing personal experience, provided the story is not told just because of personal conceit. If men who have worked hard and at last reached the place they sought were polled on the question of their success, most of them would not ascribe it to any very elaborate, intricate program. They would attribute it probably to one or two simple habits which anybody whose brain is alive may discover and acquire.  
One of these habits is, no doubt, that of being not merely up to the minute, but on the minute. He who is prompt may be forgiven a few sins of several kinds unrelated to the passage of the seasons and the precession equinoxes. Did you ever go to a place taking it on faith that others would be on time, and then stand waiting with surreptitious dives into the watch pocket while the others took their own time, and yours too, assembling?  
Rudest and most offensive of all is the conduct of the public entertainer, woman or man, who does not hesitate to keep an audience waiting twenty minutes or half an hour. At the latter rate, a thousand people means 500 hours, or nearly twenty-one days. What right has anybody to be a thief of time to that extent? If it is sociable and fashionable to keep all those people sitting and palavering in expectancy, then it is time a new Cantonian censorship of polite conduct were established.  
Many a young fellow has ruined his business chances by frequently promising to be "on deck" on the dot, and then falling to live up to his pledge. The reason does not particularly matter. The fact remains, he wasn't there, and whatever the woe and the dust he raises afterward, it is unavailing. In this world of grim, unmitigated fact, you are or you aren't, you do or you don't. The coroner and the undertaker are overworked unless the dead past is allowed to bury its dead. Business has no time for post-mortems. Tomorrow camps there on the rim of the hills in the flush of the morning, and yesterday is older than the hills themselves.  
**Tears and Smiles.**  
Some girls have such little April faces and dispositions! One can almost see the reflection of every passing mood in their pretty eyes. Perhaps the day has begun well with sunshine, and everything pleasant and happy. Then Miss Sunshine flits from room to room, doing her tasks with a gay heart and a smile like a golden ray of brightness.  
But alas! the blue sky suddenly becomes overcast. "He" has not written, as he so faithfully promised, or the new frock has not come, and so there will be no eagerly anticipated evening of amusement and delight.  
Away goes the sunlight from the blue eyes, and down comes the pathetic little shower of tears of disappointment and unhappiness. Miss Sunshine no longer lives up to her pretty name; she feels that she cannot do so.  
But she must take heart, for the world cannot do without her, any more than it can do without the flowers and the other lovely things of nature. After the tears there must be smiles, as after the rain the sunshine.  
For that is the way with a little maid, and for it she is loved and welcomed.—Exchange.  
**Waterproofing for French Uniforms.**  
Lanolin, the fat extracted from wool in the process of cleaning it for manufacture, is being used by the French authorities for waterproofing the clothing of their soldiers in the field. The wool fat is reduced to a liquid by the use of a suitable solvent, such as chloroform or carbon bisulphide, and then diluted with a volatile hydrocarbon, like benzine, naphtha, or gasoline. Garments soaked for a short time in this liquid dry quickly when hung in the open, leaving the fibers impregnated with lanolin and almost perfectly non-absorbent of water. Neither the color nor the fabric is impaired by the treatment.—Popular Mechanics.  
**Centenary of "Lalla Rookh."**  
"Lalla Rookh," which figures in the bill of entertainment at the Shaftesbury theater in London in aid of the wounded Indian fund, has just attained its centenary, for it was in 1815 that Tom Moore set himself to produce his Oriental romance.  
The poem, says the Pall Mall Gazette, was the subject of one of the most curious agreements ever made between poet and publisher, Longman undertaking to pay Moore three thousand guineas for an eastern poem and to take it for better or worse, at any time that suited the author's convenience, and without any power to suggest changes or alterations.  
**Sandals Worn by Mexicans.**  
Wooden sandals are now being worn to a great extent by the laboring classes in Mexican cities and by natives engaged in farming, in place of the old form of leather sandals used by the Mexicans for many centuries. They are being substituted for the primitive homemade leather sandals because of the scarcity and high price of native tanned leather, because of the scarcity of sheepskin thongs for lacing and because the native Indian is becoming more particular about the appearance of his feet.

**Are You Too Fat?**  
If you are too stout don't take fat-reducing medicines. Cut down on your diet, get out-of-door exercise, and you will assume normal lines and reduce to normal weight. Avoid sweets, eggs, cream, fat meats, and especially potatoes. Live mainly on lettuce, spinach, cabbage, lean meats, young onions, celery, tomatoes, etc. Take salted toast instead of bread and butter. If you cease to give your body fat-making foods you will cease creating fat cells. It is no trick to reduce if you practice self-denial.  
**Method.**  
There is no one able or anxious to deny the value of a method. But there are many who realize that method is not everything, and that strict adherence to it sometimes becomes a nuisance. There is a madness in hard and fast rules. The strict adherence to some method is almost as bad as having no method at all. We should remember that our actions have, at all times, to be guided by circumstances.  
**Natural Result of Cross.**  
One day Luther Burbank was walking in his garden, when he was accosted by an officious acquaintance, who said: "Well, what are you working on now?" "Trying to cross an eggplant and milkweed," said Mr. Burbank. "And what under heaven do you expect to get from that?" Mr. Burbank calmly resumed his walk. "Custard pie," he said.  
**A Problem of the Life to Come.**  
Small Johnny was wriggling and twisting in a vain endeavor to put his arms through the sleeves of an undergarment and then get it over his head. After several futile attempts he called out to his mother: "Say, mamma, when I get to be an angel, and have wings, I don't see how I'll ever get my shirt on!"  
**Dr. Pierce's Pleasant Pellets** regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.  
**Sympathy.**  
That man has the widest influence who has the deepest sympathy, for men open their hearts to sympathy as flowers open to the sun. Said Emerson: "Tis good to give a stranger a meal, or a night's lodging. 'Tis better to be hospitable to his good meaning and thought, and give courage to a companion."  
**IS EPILEPSY CONQUERED?**  
New Jersey Physician Said to Have Many Cures to His Credit.  
RED BANK, N. J., Special—Advices from every direction fully confirm previous reports that the remarkable treatment for epilepsy being administered by the consulting physician or the Kline Laboratories, of this city, is achieving wonderful results. Old and stubborn cases have been greatly benefited and many patients claim to have been entirely cured.

**Make Our Own Wrongs.**  
We make ourselves more injuries than are offered to us; they many times pass for wrongs in our own thoughts, that were never meant so by the heart of him that speaketh. The apprehension of wrong hurts more than the sharpest part of the wrong done.—Feltbam.

Try Murine Eye Remedy for Red, Weak, Watery Eyes and Granulated Eyelids; No Smarting—Just Eye Comfort. Write for Book of the Eye by mail Free. Murine Eye Remedy Co., Chicago.  
**Definition of a Drop.**  
In the British Pharmacopoeia a "drop" is defined as coming from a tube of which the external diameter is exactly three millimeters, 20 such drops of water at 15 degrees Centigrade being equivalent to one milliliter or cubic centimeter.  
**Take it as it is.**  
Thou must content thyself to see the world imperfect as it is. Thou wilt never have any quiet if thou veriest thyself because thou canst not bring mankind to that exact notion of things and rule of life which thou hast formed in thy own mind.—Fuller.  
**Opal is Deadly Omen.**  
The superstition has come down the ages that to find an opal is a deadly omen. It means that you have picked up someone else's misfortune. "Better let the stone lie, no matter what its value may be," is an old adage.  
**Daily Thought.**  
Never speak ill of a person unless you are sure of your fact! and, even if you could swear to it, ask yourself: "Why do I make it known?"—K. Lavater.  
**Artistic Cuff Protector.**  
Take paper napkins and fold each one diagonally. Fold one of these napkins about either cuff and fasten them with cuff pins. They are soft and pliable and will stay in place beautifully.  
**Opinions React.**  
A man cannot speak but he judges and reveals himself.—With his will, or against his will, he draws his portrait to the eye of others by every word.—Every opinion reacts on him who utters it.—Emerson.  
**Daily Thought.**  
They can because they think they can.—Virgil.

## Wonderful Blood Remedy

### That Works in the Tissues

The Very Latest Theory About How and Why the Blood is Disordered.

**S. S. S. Means Pure Blood Which Insures Long Life and Health.**  
The great experts in Chemistry and Physiology now declare what has all along been contended by the Swift Laboratory that the germs of blood disorders find lodgment in the interstices of the tissues.  
And herein is where S. S. S. goes to work rapidly, effectively and with wonderfully noticeable results.  
This famous blood purifier contains medicinal components just as vital and essential to healthy blood as the nutritive elements of wheat, roast beef, and fats and the sugars that make up our daily ration.  
As a matter of fact there is one ingredient in S. S. S. which serves the active purpose of stimulating each cellular part of the body to the healthy and judicious selection of its own essential nutriment. That is why it has such a tremendous influence in overcoming eczema, rash, pimples, and all skin afflictions.  
And in regenerating the tissues S. S. S. has a rapid and positive antidotal effect upon all those irritating influences that cause rheumatism, sore throat, weak eyes, loss of weight, thin pale cheeks, and that weariness of muscle and nerve that is generally experienced by all sufferers with poisoned blood.  
Get a bottle of S. S. S. at any drug store, and in a few days you will not only feel bright, and energetic, but you will be the picture of new life.  
S. S. S. is prepared only in the laboratory of the Swift Specific Co., 291 Swift Bldg., Atlanta, Ga. Who maintain a very efficient Medical Department, where all who have any blood disorder of a stubborn nature may write freely for advice.  
S. S. S. is sold everywhere by all drug stores.  
Beware of all attempts to sell you something "just as good." Insist upon S. S. S.
