From now on every public spirited citizen should preach prevention of forest fire. Every one should exert a real effort to prevent the starting of forest fires.

We have ordered and hope to receive in time for next week's issue, a few dozen capital (M)s. We appreciate the kindness of friends in bearing with us as you have in our sometimes embarrassing attempts to put up the news with our hitherto meagre allowance of that most used capital letter.

The warm days of a short time ago emphasized the necessity of a park for this growing city on the Deschutes. Could not an appropriate place be decided upon, properly fenced and cared for, trees, shrubs and grass planted and cultivated? With comparatively little expense by cooperative work we could soon have a beautiful refreshing resort to which we could point with pride and which would be a wonderful incentive to bring visitors to our healthful little city. Part of the grove below the spring for instance, trimmed up and arranged, would be beautiful.
